- Monitor Data flows from financial systems to ensure all data is upto date and accurate. Followed the best practices method.

TECHNICALSKILLS

Cloud Tool- Anaplan

Operating Systems: Basics of Windows,Unix, Linux, CCNA

Softwares: AutoCAD,SAP2000.

AI Tools:

1. PowerBi, Excel using AI, AI Agents, Deepseek, Fiesta AI, Adobe Express, ChatGPT, ClaudeAI, Gemini Ai certified by Skill nation.
2. Data Analysis & coding using AI certified by Be10X.
3. AI & ChatGPT, Copilot, Gamma.app, etc. certified by *Be10X*.

CERTIFICATIONS

- Anaplan Level 3 in Progress
- Anaplan Level2 Certified
- Anaplan Level1 Certified
- PowerBi certified by SkillNation
- Data Analysis using AI certified by be10x
- Excel using AI, AI & ChatGPT Certified by Be10X & Skill Nation
- Mobile and Web Application development using AI by be10X
- ISO Certified for AI by Freedom of AI
- AutoCAD by Engineer's CADD Centre
- CCNA by PSF Skills Academy
- Around 35 certifications for attending webinars & quizzes, during lockdown conducted by WHO & various institutions.

PROJECT #1:

USECASE: Distribution Resource Planning (Supply & Demand) (Support)

Client: Tata Consultancy Services(TCS) (Oct'25 to Dec'25) (C2H)

- Facilitated collaboration between sales, operations, and finance teams,ensuring alignment on S&OP plans.
- Generated interactive dashboards for real-time performance tracking and data-driven decision-making

Previous Experience

PROJECT #4

Designation: Sr Associate Customer Support.

Company: Tech Mahindra (Jan'23 to Aug'23)

Project #5

Use Case: FP&A, Demand Planning and Supply Chain Management

Company: Anaplan: L1 & L2 Certification Program (May'21-Dec'22)

Through the Anaplan Level 1 Model Building (L1) certification, I gained foundational knowledge of Anaplan, including how to build modules, lists, line items, and dashboards. Learned to import and export data, apply basic formulas, and design simple yet effective planning models using the DISCO methodology. This level focused on core model-building skills and introduced structured thinking for scalable model design.

The Level 2 Model Building (L2) certification deepened my expertise by simulating real-world business scenarios across functions like FP&A, Demand Planning, and Supply Chain. I learned to create and maintain a centralized Data Hub, handle complex formulas, build dynamic reports, and apply best practices for model connectivity and data flow. L2 also introduced Application Lifecycle Management (ALM) concepts and emphasized performance optimization for large-scale models.

- System Admin : DCET (July'18 - Sep'22)
- Assistant Professor : DCET (Aug'14 to Jun'18)

EDUCATION

- ME from DCET, Osmania University, India 2015(71%)
- BE from MJCET, Osmania University, India 2013(73%)
- Inter MPC from MNR Junior Kalasala, India, 2009(90%)
- SSC from St Xavier School, India 2007(78%)
