PROFESSIONAL EXPERIENCE

VALUE LABS

Senior Software Engineer | Hyderabad | Jan 2026 – Present

Client: IKEA | Role: SharePoint Developer

- Developed and enhanced SPFx web parts for IKEA BPM tools to improve process documentation accessibility and user experience.
- Designed and implemented custom web parts to dynamically display process documents based on Process GUIDs.
- Upgraded 10+ legacy SPFx web parts to the latest framework versions.
- Performed code refactoring and modernization of existing SharePoint solutions.
- Collaborated with stakeholders and cross-functional teams to deliver scalable solutions.

HEXAWARE TECHNOLOGIES

SharePoint Developer | Pune | Jan 2022 – Dec 2025

Client: Sarepta Therapeutics | Role: SPFx Developer | May 2024 – Jan 2026

- Developed SPFx web parts and extensions using React and TypeScript.
- Integrated SharePoint REST APIs and Microsoft Graph APIs for dynamic, real-time data rendering in SPFx components.
- Created reusable SPFx extensions including Application Customizers, Field Customizers, and Command Sets.

- Deployed solutions and managed app distribution through the SharePoint App Catalog.
- Optimized SharePoint data operations using CSOM and REST APIs.
- Collaborated with business stakeholders to deliver scalable and reusable SharePoint solutions.

Client: Indigo Airlines | Role: SharePoint Developer | Aug 2023 – May 2024

- Developed and deployed custom workflows and solutions in SharePoint 2013 and SharePoint Online.
- Supported SharePoint 2013 to SharePoint Online migration using ShareGate and SPMT.
- Migrated 50+ SharePoint sites and content repositories while ensuring data integrity and minimal business disruption.
- Configured SharePoint sites, lists, libraries, content types, and templates based on business requirements.
- Implemented role-based security, permissions, and governance controls.
- Provided post-deployment support, troubleshooting, and issue resolution.

Client: Ernst & Young (EY) | Role: SharePoint Administrator | Jun 2022 – Aug 2023

- Managed user access, permissions, and governance compliance across SharePoint Online and SharePoint 2013 environments.
- Supported 500+ users by resolving access, workflow, permissions, and content management issues.
- Built Power Automate workflows for operational and approval processes.
- Created and managed site collections, subsites, lists, and libraries.
- Handled site collection administration, including quota management and site administrator provisioning.
- Worked closely with QA teams, Business Analysts, and UI/UX teams to deliver scalable SharePoint solutions.

EDUCATION

Bachelor of Technology (B.Tech) | St. Thomas College of Engineering and Technology | 2017 – 2021
