Summary

Software Engineer with 2.2 years of experience building scalable backend systems and distributed microservices. Skilled in Java, Python, Spring Boot, REST APIs, Angular/React, and cloud technologies like AWS and Azure. Experienced in CI/CD automation, production debugging, distributed architectures, and performance optimisation.

Work Experience

Software Engineer

Aug 2023 – Oct 2025

Molsys Pvt. Ltd., Mangaluru

- Built backend services using Java, Spring Boot, Hibernate, JPA, MySQL; improved API performance by 35% using caching and query tuning
- Designed microservices with Redis caching, asynchronous messaging, and horizontal scalability
- Developed full-stack applications using React/Angular + Spring Boot with JWT authentication
- Automated CI/CD using Docker, GitHub Actions, Jenkins, AWS ECS; reduced deployment time by 60%
- Managed AWS infrastructure: EC2, ECS, S3, IAM, RDS, CloudWatch, SQS
- Improved reliability via structured logging, dashboards, alerts, and RCA processes
- Mentored junior developers and led backend/system design discussions

Education

B.E. – Computer Science and Engineering

2019 – 2023

Yenepoya Institute of Technology, Mangaluru

Projects

Distributed Task Processing Engine

Spring Boot, Redis, AWS, MySQL

- Reduced processing time by 40% using Redis queues and asynchronous workers
- Implemented AWS SQS + Lambda event-driven architecture improving throughput by 60%
- Achieved 99.5% uptime using CloudWatch alerts and auto-scaling
- Designed a horizontally scalable system handling 10K+ parallel tasks

Achievements & Certifications

LeetCode: Solved 150+ Problems

Certifications: Globally Responsible Engineering Virtual Experience (Forage) — Android App Dev using Kotlin (IIT Bombay) — Python Programming (IIT Bombay)

Skills

Languages: Java, Python, JavaScript, TypeScript

Backend: Spring Boot, Spring Security, Hibernate/JPA, Django, Flask, FastAPI

Frontend: Angular, React, GraphQL

Databases: MySQL, PostgreSQL, MongoDB, Redis

Cloud/DevOps: AWS, Azure, Docker, Kubernetes, Git, Jenkins, CI/CD

Testing: JUnit, Mockito, Postman, TDD

Python: REST APIs, NumPy, Pandas, Automation, FastAPI

Soft Skills: Problem-Solving, Critical Thinking, Communication, Time Management
