ABOUT ME

Cisco Certified Network Engineer with **6.8 years of experience** in network design, escalation support, network and systems administration. Proven expertise in delivering advanced technical support, managing enterprise-scale network operations, and maintaining high-availability, multi-platform data center environments.

EXPERIENCE:

Network Engineer- L2

Unisys

Feb 2023- Present:

- Manage multiple clients across various vendors and technologies, handling incidents, changes, and implementations within SLA
- Meraki MX, Meraki switches and Meraki Wireless implementation and supporting.
- Perform circuit migrations to enhance network infrastructure
- Perform upgrades on network devices like switches, routers, f5, wireless controllers and support infrastructures like firewalls, VXLAN, and spine-leaf architectures.
- Modify routing configurations as per specific requirements to optimize network performance
- Prepare Low-Level Design (LLD) documents and Network runbooks for BAU processes
- Participate in architecture calls, implement new projects, and remediate client-reported vulnerabilities to ensure high network performance and availability.
- Monitored network performance using industry-standard tools and protocols.
- Prepare Visio diagrams for the sites to provide visual representation of the network architecture
- Worked in disaster recovery planning to enhance network resilience against failures.
- Provided technical support and Process related training to junior engineers and staff members.
- Basic hands-on experience in Azure.

Network Engineer -L1

Cisco

May 2020- Feb 2023

- Monitor and resolve device alerts within SLA, ensuring high network performance and quick restoration.
- Analyze network faults, coordinate with international ISPs, and support global customers across APJC/EMEA/AMER in 24/7 shifts.
- Handle carrier maintenance activities, perform CR pre/post checks, and work with tools like Splunk, Coral, Cramer, NCM
- Prepared change plans and implemented changes on various network devices.
- Managed Cisco Viptela on both CLI and GUI, including monitoring, change implementation, and upgrades.
- Maintained and managed 2 data centers across the globe and over 250 remote site

Network Engineer

Lavelle Networks

May 2019- April 2020

- Manage Lavelle SDWAN cloud port operations, including device configuration, troubleshooting, upgrades, and RMA validation.
- Handle tickets efficiently within SLA, deploy devices for new/existing customers, and ensure they come online.
- Configure DC/DR servers and perform customer site visits for issue resolution.

JOB PROFILE:

- Refresh and support LAN, WAN, WLAN network segments, Internet, and intranet systems.
- Handle P1 & P2 escalated project & operational calls.
- Manage Network operations team.
- Evaluate and modify system's performance.
- Ensure network connectivity throughout a company's LAN/WAN infrastructure is on par with technical considerations.
- Troubleshoot and resolve user tickets and requests with priority to meet SLAs (Service Now).
- Administer and troubleshoot various networks with different protocols on a call basis and priorities.
- Daily interact with Cisco for raising and solving TAC cases and RMA.
- Remotely configure/plan/troubleshoot Client Networks.
- Manage the Data center architecture.
- Discuss scope with Client for New requirements and Projects.
- Responsible for IOS upgrade, Cisco Router & switches replacement, and addition & configuration of router, and AP's.

TECHNICAL SKILLS:

- Experienced in working with Cisco Meraki, Switches, Routers, Nexus, VXLAN, ISE, Solarwinds, Paloalto.
- Good understanding of OSI Model, TCP/IP protocol suite (IP, DNS, DHCP ARP, ICMP, TCP, UDP,
- SNMP, FTP, TFTP.
- Skilled in implementing and managing Switching Protocols (VLAN, VTP, STP etc)
- Understanding of networking Routing protocols OSPF, BGP.
- Knowledgeable in ACLs (Access Control Lists) including Standard, Extended, Time-Based, Numbered ACL, and Named ACL.
- Proficient in performing IOS and firmware upgrades for all Cisco devices, F5, VPN, ISE, Aruba.
- Well-versed and experienced in working with a range of devices, from small to high-end.

EDUCATIONAL QUALIFICATIONS:

- Bachelor of Computer Application- MIMT College Cherpulassey, Kerala (Bharatiyar University Comibatore)- June 2016
- Higher Secondary Certificate (XII std) PTMHSS Trikkatiri, Kerala State Syllabus. March 2013

CERTIFICATIONS:

- CCNA R&S: Cisco ID (CSCO): CSC013090721
- ITIL V4 Edition: GR671244820MH

PERSONAL PROFILE:

Date of Birth: 05th Feb 1995

Permanent Address: Mangalassery House, Nellore (PO), 679335, Palakkad (dt), Kerala

Mobile: +919995714653
