WORK EXPERIENCE

Senior Consultant - Infosys

Aug 2022 - Present

Infosys

- Ensured regulatory compliance for a global banking client by managing critical compliance timelines, reducing risk exposure.
- Implemented and managed payment scheme rulebook updates including SEPA, CHAPS, and T2/Euro, ensuring seamless regulatory transitions.
- Administered the authorized payment data store by sourcing and provisioning ISO 20022-compliant payment messages and data attributes to support downstream processing and reporting.
- Supported ISO 20022 migration initiatives, including payment message analysis, data mapping and alignment of MT/MX message requirements across systems.
- Supported Regulatory Reporting by analyzing, validating, and provisioning payments data in accordance with regulatory requirements, ensuring data accuracy, completeness, and compliance.
- Gathered, analyzed, and translated stakeholder requirements into Business Requirement Documents (BRDs), Functional Requirement Documents (FRDs) and detailed functional specifications to guide successful product development.
- Drafted comprehensive EPICS and User Stories aligned with business objectives and end-user needs, streamlining Agile development processes.
- Drove backlog prioritization and roadmap planning based on regulatory mandates, customer requirements, operational efficiency goals, and implementation dependencies.
- Conducted impact assessments, gap analysis, and data mapping activities for payment transformation initiatives, ensuring functional alignment and readiness across dependent systems.
- Actively managed project timelines, ensured prompt issue resolution, and mitigated potential risks to maintain project delivery schedules.
- Coordinated cross-functional teams and stakeholders, effectively managing expectations and serving as the primary communication liaison.
- Mentored junior Product Owners, fostering their professional growth and improving team capability and performance.
