WORK EXPERIENCE

State Street Corporate Services Mumbai Pvt. Ltd. | Team Leader / Assistant Manager – Global Transaction Processing | Since 2008

Leadership & People Management

- Leading a cross-functional team to ensure timely and error-free execution of trades across asset classes, consistently achieving 100% SLA adherence and high accuracy.
- Conducting targeted performance reviews and designing customized training interventions that improved underperformers' productivity.
- Recognized with 9 Manager Awards, 3 "Titan of the Month" awards, and 4 Converge Performance Awards (Q4 2014, Q1/Q2/Q4 2015) for exceptional leadership and delivery.

Risk & Control Management

- Spearheaded risk assessments, internal control testing, and root cause analysis of processing errors; introduced control measures that reduced error rates.
- Actively escalated and resolved control weaknesses, enabling data-driven decision-making across trade processing operations.
- Conducted Regulatory Assurance reviews across securities and custody operations to assess adherence to applicable regulatory requirements, industry standards, internal policies, procedures, and operational controls.
- Performed regulatory and control assessments, identifying compliance/control gaps, assessing associated risks, and driving remediation actions through to closure.

- Conducted control testing and effectiveness reviews to validate the design and operating effectiveness of key operational controls and ensure ongoing regulatory alignment.
- Supported monitoring of regulatory changes, assessing their potential impact on custody, securities settlement, and transaction-processing activities and coordinating required process/control changes.
- Served as a Control Oversight Team Member (2011), ensuring strict compliance with regulatory guidelines and internal SOPs.

Operational Excellence & Transformation

- Played a pivotal role in the migration of multiple critical processes including:
- North American Region Operations and Image Application from State Street Pune.
- GTM Blotter to TXR Application, enhancing trade visibility and reducing turnaround time.
- Initiated and led multiple LEAN projects, earning the Top Lean Idea Award (2014) for the highest number of process improvement suggestions.
- Delivered \$xxxK+ in operational efficiencies through automation, improved MIS reporting, and trade lifecycle optimizations.

Securities & Trade Processing

- Managed end-to-end security settlement instructions across equities, fixed income, mutual funds, and derivatives.
- Processed money market instruments including CPs, CDs, and bi-party repos; handled internal fund transfers, CUSIP switchovers, and cross-border transactions.
- Supported client asset safeguarding controls across securities custody and settlement operations, ensuring appropriate controls over client securities, transactions, reconciliations, and settlement activities.
- Ensured adherence to operational controls designed to support the protection and safeguarding of client assets throughout the securities settlement and custody lifecycle.
- Ensured accurate trade accounting and fund setup to support NAV calculations and client reporting.

Client Relationship Management

- Liaised with clients and service teams across UK & US geographies to resolve trade exceptions, settlements, and custody operations queries.
- Delivered real-time equity and cash position updates and investment advice, earning commendations from clients for timely settlement of high-value trades.

Governance & Compliance

- Maintained audit-ready MIS dashboards (daily/weekly/monthly productivity reports) and timesheets for operational transparency.
- BCP Coordinator for the unit and member of Quick Response Team, ensuring seamless continuity during disruptions.
- Managed the end-to-end implementation of regulatory requirements, including impact assessment, control/process changes, SOP updates, implementation, testing, and remediation.
- Reviewed and updated policies, procedures and SOPs in response to regulatory requirements and process changes, ensuring alignment with compliance and operational control standards.
- Supported Regulatory Assurance and compliance reviews, maintaining audit-ready documentation, evidence, control assessments, and remediation tracking.
- Partnered with relevant stakeholders to translate regulatory requirements into operational controls and process changes, ensuring effective implementation and sustainable compliance.
-
- Member of the SharePoint SOP Committee, accountable for timely documentation and updates of all standard processes.
