LOCATION
Bangalore

Project Manager with 15+ years of experience delivering large-scale business and technology transformation programs within the banking domain. Currently working as Assistant Vice President at Deutsche Bank, leading end-to-end delivery of complex initiatives across liquidity management and Nostro CTB operations while ensuring alignment with enterprise objectives and regulatory expectations.

PROFILE SUMMARY

- ❖ Senior product and project management professional with extensive experience delivering end-to-end banking transformation initiatives, including planning, execution, governance, and stakeholder reporting across global IT and Operations teams.
- ❖ Strong expertise in Treasury and liquidity management, financial crime driving improvements in cash position accuracy, cross-border settlements, operational controls, and Nostro reconciliation to enhance financial visibility and efficiency.
- ❖ Proven experience in applying AI/ML, including advanced analytics, NLP, and predictive models, to optimize transaction monitoring, strengthen compliance processes, and reduce false positives.
- ❖ Skilled in enterprise data governance and data management, ensuring high data quality, regulatory compliance, and reliable enterprise reporting through structured governance frameworks.
- ❖ Proficient at stakeholder and executive management, delivering actionable insights via dashboards and MIS reporting to support data-driven decision-making and alignment with senior leadership.
- ❖ Experienced in Agile/Scrum delivery, enabling iterative execution, faster turnaround, and continuous improvement across complex, distributed transformation programs.

CORE COMPETENCIES

➤ AI Program & Portfolio Delivery Management	➤ Banking Technology & Large-Scale Transformation Leadership	➤ Treasury, Liquidity & Cash Management Strategy
➤ Nostro Reconciliation & Global Settlement Operations	➤ ISO 20022 SWIFT implementation	➤ Executive Stakeholder Management (CXO/VP Level Engagement)
➤ AI/ML-Driven Business Transformation	➤ Enterprise Risk, Issue & Dependency Governance (RAID Leadership)	➤ Agile-at-Scale & Hybrid Delivery Governance (Scrum/SAFe)
➤ AI-enabled Transaction Monitoring & Regulatory Compliance	➤ Enterprise Data Governance & Financial Data Management Strategy	➤ Global Cross-Functional Leadership

TEHCNICAL SKILLS

Primary Skills: Artificial Intelligence, Machine Learning (NLP, Deep Learning, Reinforcement Learning, Exploratory Data Analysis, Neural Networks), RAG, Big Data Analytics, Mainframe (MF) Systems

Languages: Python, SPARK, Scala, HiveQL, COBOL, JCL, CICS

Databases: Hive, DB2, Oracle, VSAM, PostgreSQL

EDUCATION

- 2023 – 2024:** Executive General Management Program (EGMP 64 Batch) | Indian Institute of Management Bangalore
2020 – 2021: PG Diploma in AI & ML | International Institute of Information Technology Bangalore
2007: B.E. – Information Science | VTU

CERTIFICATIONS

- ❖ ICA International Advanced AML Certification | Alliance with Manchester Business School
- ❖ Fin-tech – Foundations, Payments & Regulation | The Wharton School

CAREER TIMELINE

WORK EXPERIENCE

Deutsche Bank | Assistant Vice President | Project Manager Jan 2025 – Present

AI Enabled Delivery - DB Lumina

- ❖ Spearheaded strategic account growth and enterprise AI transformation by leading the vision, strategy, and development of DB Lumina (Deutsche Bank–Google Cloud AI platform), leveraging Agentic AI, Retrieval-Augmented Generation (RAG), Generative AI, OCR, intelligent automation, and cloud-native technologies. Collaborated with executive stakeholders, sales, pre-sales, and engineering teams to drive AI adoption, define transformation roadmaps, deliver high-value RFPs/SOWs, and unlock multimillion-dollar business growth opportunities.

Nostro Management Delivery - CTB

- ❖ Leading end-to-end delivery ownership of complex, multi-domain client programs, covering strategy, execution, governance, and post-implementation support, while ensuring adherence to scope, schedule, quality, budget, and operational KPIs.
- ❖ Managing large-scale, cross-functional global teams across engineering, QA, architecture, DevOps, and business functions, while driving high-performance delivery across onshore, offshore, and nearshore models.
- ❖ Establishing and governing program governance frameworks, ensuring executive-level transparency, proactive risk tracking, and alignment with CXO/VP stakeholders.
- ❖ Serving as primary client engagement lead, translating business challenges into delivery strategies while managing senior stakeholder relationships and driving sustained account satisfaction and strategic alignment.
- ❖ Owning financial governance of banking portfolios, including revenue recognition, forecasting, margin improvement, and corrective action planning, while ensuring strong commercial performance and profitability.
- ❖ Driving delivery optimization and cost efficiency initiatives, leveraging automation, resource optimization, and operating model improvements to reduce OPEX and enhance productivity across programs.
- ❖ Leading risk, dependency, and escalation management, implementing structured mitigation strategies and contingency planning to ensure delivery continuity in high-pressure environments.

Wells Fargo | Senior Business Execution Consultant / Business Development Manager April 2024 – January 2025

Strategic execution leader driving financial crime transformation, transaction monitoring optimization, and regulatory-aligned data governance across AML and correspondent banking programs.

- ❖ Led end-to-end delivery of real-time and batch Transaction Monitoring (TM) capabilities within CTB programs, ensuring complete data lineage, AML compliance, and regulatory traceability.
- ❖ Orchestrated risk-based TM enhancements by integrating customer risk scoring models, improving detection accuracy and significantly reducing false positives.
- ❖ Established enterprise data governance controls across TM platforms, ensuring data integrity, quality assurance, and alignment with regulatory and enterprise standards.
- ❖ Directed cross-functional delivery across AML, Fraud, Technology, and Data Science teams to implement ML-driven anomaly detection and strengthen fraud prevention frameworks.
- ❖ Facilitated stakeholder governance through SteerCo sessions, product demos, and requirement walkthroughs to drive continuous platform enhancement and business alignment.

NatWest Group | Strategy / Project Manager (Financial Crime, TM, Correspondent Banking, Trade Finance) August 2018 – April 2024

Transformation leader delivering AML modernization, cost optimization, digital banking initiatives, and enterprise data strategy across global banking platforms.

- ❖ Delivered end-to-end AML transaction monitoring enhancements, reducing false positives and improving investigative efficiency, contributing to ~8% cost reduction.
- ❖ Executed Agile-based MVP delivery using data-driven business analysis across multi-stakeholder banking ecosystems.
- ❖ Led resource optimization and budget forecasting initiatives, reducing operating costs by 20% while improving profitability by 15%.
- ❖ Designed enterprise data lineage and governance frameworks using Python, strengthening data quality, controls, and traceability from source to consumption.
- ❖ Produced executive-level artefacts including BRDs, FSDs, use cases, defect triage reports, and ExCo presentations for decision governance.
- ❖ Strengthened risk profiling frameworks across input feeds in collaboration with first and second line of defense teams.
- ❖ Aligned data dictionaries and mapping frameworks with entity resolution models to ensure consistency across releases and business validations.
- ❖ Led global payments modernization initiative transitioning SWIFT messaging from MT to MX (ISO 20022).

Digital Banking Transformation (Retail & Commercial Banking)

Digital transformation lead driving end-to-end digitization of customer journeys across retail and commercial banking platforms, enabling scalable, paperless, and revenue-generating digital ecosystems.

- ❖ Led end-to-end digitization of customer journeys across retail and commercial banking products by modernizing legacy processes into secure digital channels (Online Banking, Bankline, and mobile platforms).
- ❖ Defined and executed digital channel strategy to transition paper-based banking processes into paperless workflows, improving operational efficiency and customer experience.
- ❖ Launched 5 digital banking initiatives contributing to 5% incremental revenue growth and 92% cost reduction through automation and digital adoption.
- ❖ Partnered with cross-functional business, technology, and product teams to ensure seamless delivery of customer-facing digital capabilities across multiple banking brands.

Business Analytics & Insights Transformation

Analytics transformation lead enabling data-driven decision-making across retail and commercial banking through advanced insights, customer segmentation, and executive-level reporting frameworks.

- ❖ Developed enterprise-wide analytical frameworks to derive actionable insights on customer behavior, digital adoption, and product performance across retail and commercial banking portfolios.
- ❖ Built customer segmentation models and digital usage analytics to support targeted business strategies and revenue optimization initiatives.
- ❖ Leveraged internal and external data sources to solve complex business problems and enable data-driven decision-making across leadership teams.
- ❖ Designed and delivered executive dashboards and visualization frameworks using structured hypothesis-driven analysis and SWOT-based storytelling techniques.

Governance & Implementation Manager (Pollinate Program)

Governance and implementation lead for enterprise merchant data platform integrating multi-system transaction intelligence across banking products.

- ❖ Led end-to-end implementation of “Pollinate” platform integrating Enterprise Data Hub (EDH) with upstream/downstream banking systems for consolidated merchant transaction intelligence.
- ❖ Defined solution architecture and data flow design across distributed systems ensuring scalability, security, and compliance.
- ❖ Established global governance frameworks covering third-party controls, implementation plans, release management, and operational readiness.
- ❖ Managed change governance, stakeholder alignment, and execution reporting including schedules, MCRs, and event readiness documentation.

HCL Technologies | Associate Project Manager

August 2007 – August 2018

Technology and delivery leader managing global client engagements across banking and financial services, delivering large-scale transformation and system modernization programs.

- ❖ Improved customer engagement metrics by 30% through modernization and replacement of legacy platforms with optimized application ecosystems.
- ❖ Led teams of 15+ across program, portfolio, and delivery management functions ensuring successful execution of enterprise initiatives.
- ❖ Drove cost optimization across investment banking and wealth management applications, reducing annual application-level spend.
- ❖ Delivered technology and business solutions for global clients including Pearson, Deutsche Bank, UBS, and Citi across India, Singapore, and New York.
