Professional Summary:

- Seasoned CX Solution Leader with 18 years of global experience in digital transformation across enterprise contact center and collaboration environments, delivering solutions across Healthcare, Banking, Consumer, Automotive and Logistics domains.
- Strong experience in architecting and modernizing CX platforms like Amazon Connect, Genesys Cloud, Cisco UCCE, Cisco IP Telephony and Microsoft Teams, with focus on customer journey and lifecycle management.
- Currently leading enterprise CX architecture, working with business and pre-sales teams to understand customer challenges and design scalable, cost-effective solutions.
- Hands-on experience in AI-driven CX including conversational IVR, omnichannel engagement, GenAI, sentiment analysis and automation to improve customer experience and operational efficiency.
- Good exposure to solution consulting, RFP/RFI, cost-benefit analysis and stakeholder management across large transformation programs.

Technical Expertise:

- Global Contact Center: Lead architecture, modernization, and operations across Amazon Connect, Genesys Cloud, Cisco UCCE, MS Teams and UC platforms, driving enterprise-wide CX transformation initiatives.
- Conversational IVR & Intelligent Routing Strategy: Define and govern IVR architecture, ACD routing models, and omnichannel engagement strategies to optimize customer journeys and operational efficiency.
- AI-Driven CX Innovation: AI-powered self-service and automation strategies leveraging Amazon Lex, Dialogflow, and Copilot enterprise bot frameworks to enhance customer engagement and reduce operational cost.
- Cloud Architecture & Enterprise Integration: Oversee AWS-native solution design and large-scale integrations with Salesforce, ServiceNow, WFM, and enterprise systems using serverless and API-driven frameworks.
- Platform Modernization & Migration Governance: Lead legacy-to-cloud transformation programs as product owner, defining migration strategies from Cisco and Genesys environments to scalable CCaaS platforms.
- Operational Excellence & Continuity Management: Ensure resilience, compliance, performance optimization, and seamless transition management across global contact center ecosystems.
- Domain Expertise: Experience in designing CX solutions across Healthcare (Provider, Payer, Clinical Back Office, PBM and Healthcare Services), FMCG (customer support, order management, complaints & feedback handling), banking and Logistics (shipment tracking, delivery support, exception handling) using IVR, chatbots and omnichannel engagement

Business & Strategic Capabilities:

- Pre-Sales & Solutioning: Adept at crafting Business & customer-centric solutions during pre-sales, including Bill of Quantities (BoQ), Professional Services estimates, and Statements of Work (SOW). Experienced presentations and technical workshops.
- Proposal Development & RFP/RFI Response: Strong background in leading the response to RFPs/RFIs, preparing technical proposals, cost estimates, and value propositions tailored to customer requirements.
- Go-To-Market Strategy: Developed and executed strategies for CX and CCaaS offerings, including competitive analysis, customer engagement, and internal team enablement.
- Channel Partnerships & Alliances: Built and nurtured strong relationships with technology OEM partners and vendors, ensuring strategic alignment and co-delivery of joint solutions.

- Revenue Forecasting & AOP Planning:
Contributed to business growth through effective revenue forecasting, pipeline management, and Annual Operating Plan (AOP) alignment with delivery capacity.
- Cost/Benefit & ROI Modeling:
Proficient in conducting financial modeling, including cost-benefit analysis and ROI assessments to support solution justification and investment planning.

Professional Certifications

- TOGAF® 9.2 Certified – Enterprise Architecture
- Project and Product Management: Prince2 Practitioner & Safe PO/PM Certified
- Amazon Web Services (AWS):
 - Amazon Connect Communication Specialist
 - Amazon Connect Developer
 - AWS Solution Solutions Architect - Professional
- Genesys Cloud CX Certified Professional
- Genesys Cloud CX Certified Architect
- Genesys Cloud CX Certified Scripting
- Cisco Certifications:
 - CCNA – Cisco Certified Network Associate
 - CCNP Collaboration – Cisco Certified Network Professional in Collaboration
 - Cisco Certified IP Telephony Specialist
- ITIL v4 Certified – IT Service Management
- (MS-700) Microsoft Teams Certified Administrator
- Microsoft Azure AI-900 – Azure AI Fundamentals

Professional Experience:

Pepsico Global – Principal Architect, July 2022 – Till Date, Hyderabad

Key Responsibilities & Achievements:

Architecture & Technical Delivery

- Prepare high-level architecture, solution designs, and technical roadmaps for Contact Center and communication platforms, including Amazon connect, Genesys Cloud and Go to market analysis for new roadmaps.
- Lead solution design workshops with business stakeholders, capturing requirements and translating them into scalable and cost-effective solutions.
- Ensure solutions adhere to enterprise standards, security, and regulatory compliance while delivering measurable business outcomes.

Cloud & AI Innovation

- Drive digital transformation through architected IVR call flows, conversational bot frameworks, and backend integrations with enterprise systems (Salesforce, ServiceNow, SAP, Freshdesk, CETS, TMS, Arctree).
- Design and deploy AI-powered automation using Amazon Lex, Genesys Bots, Salesforce Einstein Bot, and Google Dialogflow, covering conversational design, NLU configuration, and seamless agent handoff.
- Build secure, scalable, and cost-optimized native architectures
- Lead Conversational IVR strategy across voice and digital channels, enabling intelligent self-service and omnichannel engagement.

Integrations & Customer Experience

- Architect and implement integrations between Amazon Connect / Genesys Cloud and enterprise platforms including Salesforce (SCV) & Agent force CC with AC, ServiceNow, Freshdesk, WFM tools, and internal many applications systems.
- Enhance agent productivity and customer experience through contextual routing, API-based integrations, and data-driven journey optimization.
- Standardize reusable integration patterns and deployment frameworks for global rollouts.

Strategic Engagement & Pre-Sales

- Pre-sales initiatives by contributing to RFP/RFI responses, technical solution narratives, effort estimation, and architecture validation.
- Develop Statements of Work (SOW), Level of Effort (LOE) estimates, and structured delivery plans aligned with business objectives.
- Build customer-facing Proof-of-Concepts (POCs) and reusable demo environments showcasing AWS Contact Center capabilities.
- Act as a trusted advisor to business and IT leadership, influencing CX strategy, cloud migration roadmaps, and long-term platform modernization.

Leadership, Program & Project Management

- Lead the Contact Center Engineering practice at PepsiCo Inc., overseeing program delivery, AOP, architecture, and Design and implementation of global cloud-based contact center solutions.
- Manage a team of engineers, assigning tasks, conducting solution reviews, and driving delivery milestones to ensure on-time, high-quality outcomes.
- Own end-to-end program and project delivery, from planning, estimation, and resource allocation to execution, rollout, risk management, and post-launch support.
- Coordinate with cross-functional teams, vendors, and stakeholders to align delivery with business goals, budgets, timelines, and compliance requirements.

Orange Business Services Pvt Ltd. (Subject Matter Expert, June 2017 – July 2022), Bangalore

- Customer Experience (CX) Pre-Sales and Solution Consulting across platforms including Cisco UC/UCCE, Genesys Cloud CX, Amazon Connect, Enghouse and Microsoft Teams/Webex, guiding clients through transitions from legacy systems to modern cloud-based architectures.
- Drove contact center transformation initiatives, supporting migrations from on-premises IP telephony to Genesys Cloud, Cisco Webex Contact Center, and Microsoft collaboration ecosystems.
- Delivered digital transformation solutions for enterprise clients across pharmaceutical, transportation, oil & gas, and manufacturing sectors (e.g., BASF), aligning technology strategies with business goals.
- Collaborated with ISPs, internal stakeholders, and customer teams to manage cutover planning and go-live execution, ensuring minimal disruption and smooth telecom transitions.
- Managed relationships with third-party vendors, handling quotation processes, license procurement, and contract negotiations to enable timely, cost-efficient delivery of services.
- Prepared Level of Effort (LOE) documents and contributed to Statements of Work (SOWs) based on client requirements and delivery expectations.
- Led continuous improvement initiatives, identifying operational gaps, managing project risks, and leveraging tools and metrics to drive measurable enhancements.
- Oversaw managed service provider (MSP) implementations, including OPEX/CAPEX hardware procurement, delivery tracking, and logistics coordination.

Previous Employment History:

- Synechron Technologies (Client: Wells Fargo), Lead Operations Manager, April 2016 – May 2017, Bangalore
- Wipro Technologies, Lead Administrator, November 2015 – March 2016, Bangalore
- Speech-Soft Solutions, UCCE Engineer, April 2015 – November 2015, Hyderabad
- Accenture Services Pvt. Ltd. Senior Voice Analyst August 2011 – March 2015, Bangalore.
- HCL Technologies, Senior Engineer, February 2011 – July 2011, Hyderabad.
- NetEnrich Technologies, Network Administrator, July 2008 – February 2011, Hyderabad.

Education:

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering
RNEC Engineering College, affiliated with (JNTU), Hyderabad
