PROFILE SUMMARY

- Business Analyst / Product Owner with **10+ years of experience** across capital markets, derivatives, banking, exchange, e-commerce, and consulting domains, delivering end-to-end solutions.
- Strong expertise in **requirements elicitation (FSD/BRS/PRD), gap analysis, and data mapping**, translating business needs into actionable product features.
- Proven track record in **Agile and Waterfall delivery**, leading Scrum ceremonies, backlog management, and full SDLC execution.
- Experienced in **data analysis, reporting, and visualization**, ensuring accurate implementation and business insights for decision-making.
- Demonstrated leadership in **stakeholder management, cross-functional coordination, and production support**, ensuring successful product delivery across global clients.

NOTABLE ACHIEVEMENTS

- Consultant of the Month:** Oct 2024
- Project Leadership:** Led multiple applications end-to-end across SDLC, managing Dev & QA teams
- Client Recognition:** Appreciated for rapid requirement handling and Agile/Scrum execution
- Delivery Excellence:** Successfully delivered projects within **regulatory deadlines (Waterfall model)**

WORK EXPERIENCE

Senior Consultant | Cognizant | Oct'23 – Present

Key Result Area

- Requirements Gathering & Analysis:** Led end-to-end requirement elicitation using **FSD/RSD, user stories, and gap analysis** for BO/QV/QS reporting systems.
- Data Mapping & Transformation:** Performed complex **data mapping across modules/views** ensuring accurate report generation and logic validation.
- Data Analysis & Reporting:** Conducted **data analysis and validation checks**, ensuring correct implementation of reporting solutions.
- Agile Delivery & Scrum:** Facilitated **scrum ceremonies, sprint planning, and backlog grooming**, ensuring timely delivery across SDLC.
- Stakeholder Management & Demos:** Delivered demos and solution walkthroughs to stakeholders, ensuring alignment and requirement clarity.
- UAT & Testing Support:** Supported **sanity testing, UAT preparation, and defect validation**, ensuring quality releases.
- Knowledge Management:** Created and maintained **knowledge repositories and reporting catalogues** for reuse and standardization.

Senior Consultant | Capgemini | Apr'22 – Sept'23

Key Result Area

- Solution Design & Requirements:** Led **requirements elicitation and solution design** across multiple projects in regulatory and mortgage data domains.
- Data Analysis & Insights:** Queried and analyzed data to derive **business insights and validate reporting logic**.

CORE COMPETENCIES

- Business Analysis & Requirement Gathering (FSD, BRS, Use Cases)
- Product Ownership & Backlog Management
- Agile & Scrum (Sprint Planning, Ceremonies, UAT)
- Gap Analysis & Impact Assessment
- Data Mapping, Data Analysis & Reporting
- Stakeholder Management & Client Communication
- SDLC (End-to-End Delivery Lifecycle)
- UAT, Testing & Production Support
- Process Improvement & Change Management
- Data Visualization & Business Insights

EDUCATION

- 2017 Master in Management, Marketing from Mumbai University's ADMIFMS
- 2011 Bachelors in Mechanical Engineering from Goa Engineering College, Goa University

TRAINING/CERTIFICATIONS

- SAFe PO/PM
- Green Belt Lean Six Sigma
- Multi Commodity of Exchange certified Commodity Practitioner
- AZ-900: MS-Azure Fundamentals-Udemy
- Power BI A-Z - Udemy
- Scrum Certification+Scrum Master-Udemy
- MongoDB SI Associate certification
- SPSS-University of Mumbai

SOFT SKILLS

- Communication
- Planning
- Leadership
- Decision Making
- Problem Solving

- **Agile & Scrum Execution:** Managed and participated in **Agile ceremonies**, ensuring delivery alignment and sprint success.
- **Reporting & Data Warehouse:** Worked on **data warehouse reporting, inbound/outbound data mapping, and regulatory reporting systems**.
- **Documentation & Knowledge Repository:** Developed **FSDs, use cases, and knowledge repositories** for improved delivery consistency.
- **UAT & Implementation Support:** Supported **UAT cycles, feasibility analysis, and implementation validation**.

Business Analyst | Creative Capsule Infotech | Mar'21 – Apr'22

Key Result Areas:

- **Product Backlog & Requirements Ownership:** Owned **end-to-end requirement lifecycle**, acting as SPOC for business, dev, QA, and DB teams.
- **Agile Delivery & Scrum Master Role:** Facilitated **scrum ceremonies, sprint planning, and retrospectives**, ensuring Agile adoption.
- **Solution Design & Documentation:** Created **FSDs, data flow diagrams, use cases, mockups, and wireframes**.
- **Stakeholder & Vendor Management:** Managed stakeholders and vendors for **POCs, requirement alignment, and delivery execution**.
- **Change Management & Production Support:** Led **CMR process, deployment activities, and production issue resolution**.
- **Test Case Review & UAT Support:** Reviewed test cases and ensured **quality assurance and successful releases**.

Project: E-commerce Aggregator Platform (US Client) (Mar'21 – Apr'22)

Role: Business Analyst / Product Owner

- Performed impact analysis, backlog updates, and sprint alignment within Agile framework.
- Ensured repository management and requirement traceability across sprints.

Project Lead / Business Analyst | MCX | Jun'17 – Dec'20

Key Result Areas:

- **Trade Lifecycle:** Good Knowledge of TLC as worked across requirements of various department of an Exchange
- **Agile & Waterfall Delivery:** Managed projects across **Agile and Waterfall methodologies**, ensuring structured and timely execution.
- **Requirements & Solution Design:** Developed **FSDs, data flow diagrams, use cases, wireframes**, and translated requirements for cross-functional teams.
- **Stakeholder & Vendor Management:** Collaborated with stakeholders and vendors, managing **POCs, requirement alignment, and delivery coordination**.
- **Testing & Quality Assurance:** Reviewed test cases, supported QA teams, and ensured **quality delivery through validation and UAT support**.
- **Change Management & Production Support:** Handled **CMR process, deployments, and production issue resolution**, ensuring business continuity.

Key Projects

Part of Development team

Client: Internal departments of Exchange

- **Regulatory Reporting Application:** Managed requirements and reporting logic using SQL/Excel, ensuring compliance with regulatory guidelines using **Excel/SQL-based validation**.
- **Charges & Reporting System:** Owned application managing client/member charges, performing **data analysis and reporting using SQL and Tableau**.
- **Commodity Tracking System:** Supported lifecycle tracking of warehouse commodities, ensuring **data accuracy and stakeholder reporting**.
- **Multiple Enterprise Portals:** Acted as **Project Lead/Scrum Master**, owned the project pipeline, managing requirements, sprint execution, and team coordination.
- **POC & Stakeholder Initiatives:** Led **vendor POCs, feasibility studies, requirement gathering, demos, and UAT support** across projects.

Business Development Intern | Alibaba | May'16 – Jun'16

Key Result Areas:

- **Market Strategy & Analysis:** Developed **go-to-market strategy** for new business clusters and analyzed supplier performance.
- **Data Analysis & Insights:** Gathered and analyzed supplier feedback to improve **business efficiency and decision-making**.
- **Pilot Project Execution:** Supported implementation of **pilot initiatives (Million India Talent)**.

Assistant Professor | Fr. Agnel Polytechnic / Goa Engineering College | Nov'11 – Dec'14

Key Result Areas:

- **Academic Delivery & Mentorship:** Delivered engineering curriculum and mentored students for **academic and project success**.
- **Student Development & Evaluation:** Guided projects and conducted **performance analysis and reporting**.
