PROFESSIONAL EXPERIENCE

Business System Analyst Lead (*Senior Business Analyst - Product Owner, FIS Global* — Pune, India) **Jul 2023 - Present**

Project: Enterprise Lending Workflow Transformation Platform

Domain: Financial Services | Retail Banking | Lending Operations | Workflow Automation

- Collaborated with business stakeholders from global financial institutions including Northern Trust, BNY Mellon, Citi, SEI, Jackson National, Columbia Threadneedle, Virtus, Alps, Thrivent, Ultimus, Silver Lake, PostFinance, and SWIFT to gather, analyse, and document business requirements.
- Delivered business analysis for Investment Operations, workflow automation, and retail lending transformation initiatives across enterprise banking platforms.
- Supported Asset Servicing, Custody Operations, Securities Processing, Trade Processing, Trade Settlement, Cash Operations, Corporate Actions, Reconciliation, and Client Onboarding workflows by translating operational requirements into Epics, User Stories, Acceptance Criteria, and business rules.
- Performed AS-IS / TO-BE analysis, Business Capability Mapping, Value Stream Mapping, Process Architecture, and Process Design to improve operational efficiency and support enterprise transformation.
- Contributed to Target Operating Model (TOM) and Operating Model Transformation initiatives by documenting future-state operating processes, workflow routing, governance, approval hierarchies, and service-level requirements.

- Managed and prioritised a backlog of 200+ user stories while collaborating with Product Owners, Architects, Engineering, QA, and Operations teams within a SAFe Agile environment.
- Defined business rules for trade lifecycle, settlement workflows, exception handling, reconciliation, client onboarding, and workflow automation to improve operational efficiency and regulatory compliance.
- Supported UAT, defect triage, release planning, and business sign-off while ensuring successful delivery of workflow automation capabilities.
- Leveraged JIRA, Confluence, Microsoft Copilot, and ChatGPT for requirements management, documentation, backlog prioritisation, and productivity improvements.

Deputy Manager (Business Analyst) *HDFC Bank — Pune, India*

Mar 2018 – Feb 2023

Project: Salesforce Customer 360

Domain: Retail Banking | Lending

- Worked as a Business Analyst on the Salesforce Customer 360 transformation initiative, integrating customer data from multiple banking systems to provide a unified 360-degree customer view for business and operations teams.
- Supported multiple retail lending products including Home Loans, Personal Loans, Loan Against Property, Credit Cards, Auto Loans, and Business Loans, with exposure to the end-to-end lending lifecycle from onboarding and verification to disbursement and servicing.
- Conducted requirements gathering workshops with Business Stakeholders, Product Managers, SMEs, Architects, Operations, Compliance, and Technology teams to define business objectives, pain points, and future-state processes.
- Performed AS-IS / TO-BE process analysis, Gap Analysis, and documented BRDs, FRDs, User Stories, Acceptance Criteria, Process Flows, and Business Rules to support Agile delivery.
- Gathered and validated requirements related to KYC, Customer Due Diligence, AML controls, document verification, sanctions screening, audit trails, and regulatory compliance, ensuring alignment with business and compliance expectations.
- Supported Sprint Planning, Backlog Refinement, UAT, Defect Triage, and Business Sign-off, contributing to improved operational efficiency, reduced manual effort, faster turnaround time, and enhanced decision-making through a single customer view.
