

Neha Medankar

SUMMARY:

Results-oriented Associate Project Manager with over 5 years of experience leading high-scale FinTech platform support, system integrations, and client onboarding. Proven adaptability in coordinating cross-functional engineering and vendor teams to deliver complex IT infrastructure projects on time. Expert in utilizing JIRA for end-to-end project tracking, risk mitigation, and milestone mapping. Demonstrated success in managing international payment ecosystems, product operations, and infrastructure migrations while maintaining 99.9% uptime and strict SLA compliance.

KEY SKILLS: -

- Product Operations & Analysis
- End-to-End Product Delivery
- API Integration Support & Troubleshooting
- Customer Onboarding & Training
- Cross-Functional Coordination
- Application & Technical Support
- Operations & Incident Management
- Log Analysis & Debugging
- Transaction Processing & Issue Resolution
- Reconciliation & Payment Failure Handling
- Stakeholder Management

PROFESSIONAL EXPERIENCE

Finmatrix Technology Pvt. Ltd. Nov 2023 – Present

Associate Project Manager

- Lead end-to-end client onboarding and technical product implementation for B2B FinTech payment platforms (UPI, BBPS, POS, APIs), ensuring 99.9% system availability.
- Bridge the gap between corporate clients and engineering teams; translate business requirements into actionable technical specifications and track items via JIRA.
- Manage production releases, track issue resolution timelines, and conduct Root Cause Analysis (RCA) to minimize system transaction downtime.
- Supervise operational workflows and coordinate cross-functional Agile teams to deliver scalable software and portal enhancements.
- Track and manage P1/P2 incidents and critical outages, reducing standard resolution times by 30–35%.
- Strengthened corporate SLA adherence to >95% while leading a 12+ member execution team.

OTPay India (Instaape) Pvt. Ltd. (Mar 2023 – Nov 2023)

Product Operations Specialist

- Managed business requirement gathering, stakeholder alignment, and deployment tracking for digital banking and payment gateway workflows.
- Conducted detailed client discovery sessions to document custom business requirements for transaction reporting and portal dashboards.
- Supported User Acceptance Testing (UAT) cycles by validating core business scenarios before production deployments.
- Partnered closely with sales, technical support, and QA teams to manage integration timelines and milestone delivery for early-stage B2B partners.

Sec2Pay India E-Services Pvt. Ltd. Nov 2021 – Mar 2023

Production Support Engineer

- Handled core product configurations, merchant onboarding, and daily transaction operations for BBPS, AEPS, DMT, UPI, and Micro-ATM (MATM) software networks.
- Resolved client escalations, investigated API integration logs, and handled complex transaction payout reconciliations.
- Coordinated closely with developers and designers to fix production bugs, streamline interdepartmental communication, and minimize settlement delays.
- Awarded Best Employee of the Year (2022) for excellence in operational support and merchant technical management.

TECHNICAL PROJECTS

1. KYC Verification Portal

(Next.js, PHP Admin, MySQL, Prisma)

- Engineered real-time KYC validation, biometric authentication workflows, automated risk scoring modules, and regulatory compliance architectures.
- Designed end-to-end user journeys, payment/API flows, and comprehensive technical product documentation.

2. Payout Integration Portal

(React.js, Node.js, Express.js, MongoDB, REST APIs)

- Implemented automated vendor payout systems utilizing secure webhook-based transaction alerts
- Structured role-based access controls (RBAC) and detailed audit logging mechanisms to protect sensitive data.

3. Secure QR Code Platform

(Next.js, PHP Admin, MySQL)

- Deployed encrypted dynamic QR code generation algorithms, user authentication layers, and real-time transaction notifications.
- Enabled real-time asset tracking protocols and secure access management.

TECHNICAL TOOLKIT

- **Management Tools:** JIRA, MS Project, MS Excel, SharePoint
- **FinTech Platforms:** UPI, BBPS, AEPS, DMT, POS, Micro-ATM (MATM)
- **Languages & Data:** MySQL, REST APIs
- **Productivity:** Microsoft Office 365, Cloud Solutions

ACHIEVEMENTS

- Contributed to the strategic launch of the Hitachi WPOS / MATM Project (handling technical development and training), which successfully deployed nationally.
- Delivered multiple critical payment gateway integrations resulting in an 80% improvement in enterprise client satisfaction scores.
- Successfully onboarded, integrated, and supported over 200+ enterprise and white-label FinTech partners.
- Awarded Best Employee of the Year (2022) at Sec2Pay India.

EDUCATION

- B.Sc. (Computer Science) | Pune University (2020)
- Diploma in Computer Engineering | Deemed University (2018)
- SSC (10th) | Maharashtra Board (2015)

Languages

- English, Hindi, Marathi
