

NICHOLE ANN STUBBS

Senior Project & Change Manager | Service Strategy and Transformation | Banking & Financial Services

Chennai, India | +91 9884561090 | Nicholeann.stubbs@gmail.com | linkedin.com/in/nichole-ann-stubbs5299aa125

PROFESSIONAL SUMMARY

Senior Project & Change Manager with 18+ years leading enterprise transformation, HR operations, and payroll programs across global, regulated banking environments. Delivered transformation initiatives impacting 1,000+ employees, lifted SLA performance from 85% to 97%, and cut payroll incidents by up to 40% through structured governance and RCA-driven process redesign. Trusted by senior stakeholders to own complex, multi-entity programs end-to-end — from business case through BAU transition — with zero service disruption.

CORE COMPETENCIES

Enterprise Transformation • Change Management • Program & Project Governance • Risk, Audit & Regulatory Compliance • RAID / RACI Frameworks • Stakeholder & Executive Engagement • HR & Payroll Operations • Incident & Root Cause Analysis (RCA) SLA & KPI Management • Agile & Cross-Functional Delivery • ServiceNow HRSD • Process Optimization (Lean / Continuous Improvement)

PROFESSIONAL EXPERIENCE

Senior Project & Change Manager | Barclays Global Service Centre – Chennai

Feb 2020 – July 2026

- Directed two enterprise-scale transformation programs (Project Nike & Project Casablanca) spanning HR Operations and Payroll, impacting 1,000+ employees across multiple regions and entities.
- Decommissioned legacy HR/Payroll mailboxes and migrated 100% of case volume to ServiceNow under Project Nike, lifting SLA performance from 85% to 97% and strengthening audit traceability.
- Led Project Casablanca, executing entity integration (Ireland & France SE → Barclays Europe SE) and a cross-border HQ transition (Ireland ↔ Paris) with full regulatory alignment and zero compliance findings.
- Owned full project lifecycle — initiation, planning, execution, and closure — across multi-workstream portfolios, consistently delivering within scope, timeline, and budget.
- Developed structured change approaches for transformation initiatives, aligning stakeholder engagement, impact assessment, communications, training and implementation activities across workstreams.
- Established structured business readiness activities across transformation workstreams, coordinating readiness actions, stakeholder inputs and approvals through implementation and transition to BAU.
- Led change impact assessments and stakeholder engagement activities across transformation workstreams, identifying impacts to people, processes and operating practices and translating them into actionable change and readiness activities; achieved 100% adoption with no escalations.
- Developed and coordinated stakeholder engagement and communication activities across transformation workstreams, ensuring impacted teams understood changes, required actions and transition expectations.
- Built and governed RAID logs, financial trackers, and executive dashboards, giving leadership real-time visibility into risk and enabling proactive mitigation.
- Cut payroll-critical incidents by 25–40% by redesigning risk governance and embedding RCA-led preventive controls across the case lifecycle.
- Served as global SPOC for change initiatives, partnering with HR Tech, Engineering, and Agile teams to deliver releases with zero business disruption.
- Coordinated cross-functional stakeholders across HR Operations, HR Technology, Engineering and Agile teams to support consistent change execution and business adoption.
- Led change impact assessments and stakeholder engagement activities across transformation workstreams, identifying impacts to people, processes and operating practices and translating them into actionable change and readiness activities; achieved 100% adoption with no escalations.

- Strengthened the operating model with redefined RACI frameworks, improving accountability and cutting decision turnaround time across project teams.
- Managed transition-to-BAU for every program delivered, maintaining zero SLA deviation throughout handover.
- Led transition-to-BAU activities across programmes, coordinating operational handover, stakeholder readiness and issue resolution while maintaining zero SLA deviation throughout handover.
- Supported post-implementation stabilization and transition to BAU, monitoring operational impacts, resolving emerging issues and maintaining service continuity following change implementation.

Process Expert | Barclays Global Service Centre – Chennai

Aug 2014 – Feb 2020

- Validated Right-to-Work and employment documentation for UK operations, maintaining full compliance with UK Home Office regulations across all audits.
- Acted as Escalation Lead for HR and payroll continuity issues, resolving complex cases that protected service delivery during peak-risk periods. Spearheaded process improvements under the Blue Work Program, delivering measurable gains in operational efficiency and compliance scoring.
- Owned audit readiness and operational governance, consistently exceeding internal compliance benchmarks.

Process Advisor | Barclays Global Service Centre – Chennai

Nov 2011 – Aug 2014

- Managed end-to-end HR operations — onboarding, verification, and employment checks — across UK, APAC, and India.
- Produced management information (MI) reporting that informed performance optimization and capacity planning decisions for senior leadership.
- Designed and led training and mentoring programs that lifted team productivity and quality metrics.

Senior Customer Service Executive | Serco BPO – Chennai

2009 – 2011

- Managed an SME collections portfolio, improving recovery and retention rates through targeted account strategies.
- Implemented RCA-driven process improvements that reduced outstanding debt and accelerated resolution timelines.
- Led regional training sessions that standardized service delivery across multiple locations.

Junior Officer | Tata Consultancy Services (TCS) – Chennai

2008 – 2009

- Supported US credit card operations and high-value transaction verification for the Australia region, ensuring data integrity and regulatory compliance.
- Resolved escalations and client inquiries with strict adherence to approval protocols and accuracy standards.
