WORK EXPERIENCE

State Street Corporation, Pune | **Associate-2** | February 2023 – Present

- Managed end-to-end Trade Settlements for OTC Derivatives across EMEA Markets (Equity) including pre-matching, settlement date (SD) workflows, and claims processing for high-volume portfolios exceeding 1,000+ complex transactions daily with a 99.9% accuracy rate.
- Utilized GTM, IMS, IMT applications, and multiple custody portals to monitor, track, and process trade transactions in real time.
- Applied deep expertise in Alert SSI, SWIFT, PSET, BIC, and TI protocols to ensure compliant and timely settlement instructions.
- Investigated and resolved failed trades systematically, reducing end-of-day trade failures by 80% and significantly decreasing financial exposure and operational risk.
- Conducted detailed trade investigations across custody portals and internal reports to verify matching status and guarantee successful settlement outcomes.
- Performed daily cash, position, and trade reconciliations between internal records, custody portals, and broker statements; investigated discrepancies and drove break resolution within agreed timelines.
- Reviewed reconciliation exception reports and aged breaks, prioritized high-risk items, and coordinated with internal teams, brokers, and clients to prevent settlement delays and financial exposure.
- Updated trade comments in CSM accurately based on real-time custody status and specific processing issues, ensuring audit-ready documentation.
- Efficiently managed ad-hoc queries, aged issues, and time-sensitive escalations via Salesforce CRM, liaising directly with senior-level contacts at client and broker firms.
- Transmitted formal instructions via fax and electronic channels for Depot movements, payments, economic parameter amendments, cash breaks, and SEDOL/ISIN movements.
- Led daily client calls to provide pre-matching, SD, and fails updates, clearly communicating critical settlement statuses and escalating ongoing issues proactively.
- Conducted weekly broker calls to highlight key processing bottlenecks and deliver comprehensive updates on pre-matching, SD, and failed trades.

- Generated and audited End of Day (EOD) Reports covering pre-matching, SD, and fail metrics; ensured data accuracy and timely distribution to stakeholders.
- Liaised with External Advisors and counterparties to track, follow up on, and resolve pending or failing trade settlements within SLA timelines.
- Received formal client appreciation for delivering time-critical requirements and proactively handling complex operational issues.
- Mentored junior team members on trade lifecycle processes and operational best practices, contributing to team capability uplift.
- Contributed to process improvement initiatives that enhanced operational workflow efficiency and reduced manual intervention in settlement processing.
