PROFESSIONAL EXPERIENCE

Consulting Engineer, Cisco

08/2022 – present | Bangalore, India

- **Indian Air Force – Network Automation (Air-Gapped):** Implemented Python automation in an on-site air-gapped environment to detect configuration and service issues across BGP, IS-IS, OSPF, MPLS, and L3VPN, reducing troubleshooting time by 80%.
- **Microsoft Data Center – Data Center Network:** Configured Cisco NCS540 routers, handling provisioning, hardware validation, OSPF testing, and reachability checks before production integration.
- **Reliance Jio – Network Migration & Automation:** Migrated 500+ devices from Juniper and Huawei to NCS540, supporting IS-IS and BGP. Validated configurations and built Python-based pre/post migration checks for 1000+ devices, reducing verification time by 90%.
- **NIC Guwahati – Hardware Validation and P2P testing:** Performed NRFU and hardware testing of network devices and supported deployment and performance validation.
- **MTNL India – Migration:** Supported migration of 100+ sites to ASR and NCS routers, assisting with troubleshooting and validation of BGP, MPLS, L2/L3 VPN, and VRF services.
- **Railway Telecom – Network Design:** Assisted in on-site network design in coordination with customers and solution architects.
- **MTN South Africa – Migration Documentation:** Prepared **MOP documents** for large-scale, multi-site migrations involving 50 routers, covering VPN, MPLS, OSPF, and IS-IS, including pre-check and rollback procedures.
- **Core-42 – Deployment Automation:** Automated document validation, NIP vs live configuration checks, and bulk configuration deployment, reducing rollout time by 90%.
- **Network Automation Tool (Cisco In-Built Tool):** Planned automation of CRD, DDD, NIP, and NRFU workflows to reduce manual effort by 80% and standardize deployments.
- **Pre/Post Comparison Tool:** Automated pre- and post-migration checks to compare router configurations, interface states, and BGP/OSPF adjacencies.

Technical Undergraduate Intern, Cisco 🔗

01/2022 – 07/2022 | Bangalore, India

- Completed technical training and assisted with configuration, testing, and basic troubleshooting of network devices across 5–10 routers under engineer supervision.

AI-ML virtual internship, AWS Academy 🔗

10/2021 – 12/2021 | Delhi, India

- Trained & implemented AI-ML models through which we can solve real world problems.

SKILLS

Python • **Networking** (MPLS, OSPF, ISIS, BGP, IPv4, IPv6, TCP/IP, UDP) • **Cisco IOS XR/XE** • **DHCP** • **DNS** • **Network Automation** (Troubleshooting/Configuration of Cisco IOS XR/XE devices)

CERTIFICATES

- | | |
|---|------------------|
| • Automate The Boring Stuff With Python 🔗 | • Python 3 🔗 |
| • Devnet, Cisco 🔗 | • CCNA (CISCO) 🔗 |

EDUCATION

Bachelor of Technology in Computer Science,

2018 – 2022 | Noida, India

Galgotias University

7.18/10 CGPA (*First Division*)

PUBLICATIONS

WEB SCRAPING & AUTOMATION BOT, Nimit Narayani 🔗

Authored a Survey Research Paper on using Python to automate all the tasks including Stock Market, YouTube and other websites.
