PROFESSIONAL SUMMARY

Results-driven **Data Analyst with 4+ years of experience** specializing in Power BI reporting and data analytics, complemented by **9+ years of core banking operations experience**. Proven track record of bridging technical solutions with domain expertise to translate complex banking workflows, financial data, and operational metrics into actionable interactive dashboards. Proficient in **SQL, Python, and Power BI** for end-to-end data extraction, transformation, and dynamic visual storytelling.

CORE COMPETENCIES

Data Analytics & BI:	Power BI (DAX, Power Query, Data Modeling), Interactive Dashboard Design, Data Storytelling
Database & Scripting:	SQL (Queries, Joins, Aggregations), Python (Pandas, NumPy for Data Analysis)
Domain Expertise:	Core Banking Operations, Financial Reporting, Risk & Compliance Monitoring, Process Automation
Emerging Tech & Tools:	Beginner GenAI (Prompt Engineering, LLM integration for BI), Advanced MS Office (Excel, PowerPoint)

TECHNICAL SKILLS

BI Tools:	Power BI Desktop, Power BI Service, Report Builder
Languages & DB:	SQL (SQL Server, MySQL), Python (Data Cleaning & Analysis)
Office & Productivity:	Advanced Excel (Pivot Tables, VLOOKUP, INDEX/MATCH), Microsoft PowerPoint

PROFESSIONAL EXPERIENCE

Senior Operations Specialist / Core Banking Officer — Central Bank of India Jul-2016 to Nov-2025

- Managed core banking operations, including account reconciliations, transaction flow verification, and operational compliance.
- Generated daily, weekly, and monthly operational reports utilizing **Advanced Excel** and core banking software with high data accuracy.
- Identified operational bottlenecks and partnered with IT teams to improve data flow, laying the framework for automated BI reports.
- Executed risk assessments and regulatory compliance checks across diverse banking products, ensuring zero audit non-compliance.
- Mentored junior operations staff and served as a Subject Matter Expert (SME) during major core banking software upgrades and data migrations.
- Designed and developed interactive **Power BI dashboards** for business units, reducing manual reporting overhead by 30%.
- Authored and optimized **SQL queries** to extract, clean, and transform large datasets from relational databases for analytical reporting pipelines.
- Built dynamic **DAX measures and calculated columns** to monitor business KPIs, operational metrics, and financial performance trends.
- Utilized **Python (Pandas)** for preliminary exploratory data analysis (EDA), data automated cleaning, and data validation routines.
- Crafted executive-ready **PowerPoint presentation decks** to communicate data-driven insights and strategic recommendations to leadership.

- Leveraged **GenAI tools** to assist in optimizing complex SQL queries, refining DAX formulas, and streamlining documentation workflows.

KEY PROJECTS

Financial & Banking Operational Dashboard Power BI, SQL

- Designed an end-to-end Power BI report tracking monthly banking transaction trends, customer account statuses, and loan portfolio performance.
- Enabled branch managers to visualize operational bottlenecks in real time, saving 15+ manual Excel reporting hours per week.

Customer Churn Analytics & Reporting Script Python, SQL

- Developed Python scripts utilizing Pandas to clean and analyze historical customer transaction data extracted via complex SQL queries.
- Delivered clear trends and churn indicators through visualization, assisting business leaders in targeting high-risk customer accounts.

EDUCATION

Bachelor of Engineering (B.E.) — Visvesvaraya Technological University, Belagavi - 2013
