- Coordinated with account managers and relationship managers to ensure positive client outcomes.
- Reduced financial discrepancies by diligently reviewing account statements and identifying errors.
- Managed high volumes of transactions while maintaining strict deadlines for reconciliation of the accounts and deliverables.

eClerx Services Limited - Pune, India

December 2021 - March 2024

Client- Morgan Stanley

Senior Financial Analyst

- Drove financial efficiency by effectively processing incoming funds in Suspense through Nostro account reconciliation and expeditious settlement, resulting in streamlined operations
- Executed seamless internal transfer of funds across accounts and facilitated the kickback of funds utilizing MT SWIFT messages, specifically MT199, MT299, MT103, MT900 & MT910 and MT202, ensuring smooth transactions
- Managed end-to-end trade settlement and post-trade processing activities, ensuring timely and accurate settlement of transactions within defined market and client timelines.
- Performed trade reconciliation between internal accounting/operational records and external counterparty, broker, or custodian records, investigating and resolving trade discrepancies.
- Investigated unmatched trades, settlement exceptions, failed transactions, and reconciliation breaks, coordinating with relevant internal teams, counterparties, and agent banks for timely resolution.
- Performed cash and trade reconciliation and monitored outstanding items to ensure accurate accounting and settlement records.
- Supported the end-to-end trade lifecycle, including trade processing, validation, confirmation/matching, settlement,

reconciliation, and exception resolution.

- Assumed a pivotal role in team dynamics by taking the lead in Key Risk Indicator (KRI) calls alongside the Control team, fostering a collaborative environment
- Showcased proactive communication abilities by promptly initiating contact with agent banks via email correspondence and phone calls, effectively addressing and resolving delays in release of payments
- Proactively liaised with relevant Business Units, leveraging strong communication skills to facilitate the clearance of funds and uphold a consistent volume in the profile, resulting in efficient operations.
- Minimized 30% ZBA breaks and speeding up same day settlement by utilizing Auto matching engine for the funds received on correct account.

PROJECTSEXECUTED

- Successfully implemented the SSI updation project to target the reduction of internal transfers of funds from one account to another account. Minimized 30% ZBA breaks and expediting the process of same day settlement by utilizing Auto matching engine for the funds received on correct account.
- Spearheaded the process improvement idea to fix the challenges around SPSE of ledger missions by performing a client reach out to net off the missions instead of setting them up in gross and enabled auto matching of funds and ledgers in opposite direction in the risk application.
- Reduced 50% of total transfers executed by reconciliation team and generated a saving of processing time by 15% on the back of this project.
