WORK EXPERIENCE

Coforge

Operations Analyst – Capital Markets & Client Reporting

Aug 2025 – Current

- Managed settlement processes across Euroclear, FEDWIRE, and DTCC, ensuring seamless pre-matching, settlements, and reconciliations for equities and bonds while collaborating with trading desks and counterparties to resolve discrepancies and reduce trade breaks.
- Performed daily, weekly, and monthly reconciliations in line with STP (Straight-Through Processing) standards, identifying exceptions, executing depot transfers, and ensuring accurate and compliant transactions within DTC and FED markets.
- Supported creation and maintenance of client hierarchies by validating client/entity relationships and ensuring accurate mapping of client accounts within operational systems.
- Handled client payments and settlement instructions (Static SSI) for new clients, while coordinating with the static data team to automate trade amendments and managing buy-ins to minimize settlement risk, operational costs, and financial exposure.
- Performed client callbacks to independently verify and confirm Standing Settlement Instructions (SSI) before updating instructions in the system, following defined authentication and operational control procedures.
- Verified trade instructions with Institution Managers, including validation of face value (original and current), price, principal, net amount, and account details to ensure accuracy in trade processing.
- Processed trade settlements utilizing SWIFT Messaging standards with specific expertise in routing and managing MT541, MT543 and MT599 Messages. Verified mortgage factor updates using Bloomberg and processed SPO and wire adjustment in a timely manner.
