Senior Business Analyst | Product Owner | BFSI (Banking & Capital Markets)

12+ Years Experience | Regulatory, Risk, Trade & Transaction Platforms

Senior Business Analyst & Product Owner with 12+ years of experience delivering regulatory, trade, and risk platforms across global capital markets. Specialized in Capital Markets, Regulatory Reporting, and Market Risk across APAC, EU, and US markets. **Immediately available and ready to onboard for Feb 2026 joining**, with proven ability to stabilize platforms, support audits, and deliver regulatory change under tight timelines.

WORK EXPERIENCE

Nasdaq (Adenza India Pvt. Ltd.) | Oct 2023 – Dec 2025 | Specialist – Product Management (Senior BA / Product Owner)

Project: Financial/Statistical Calculations APAC, Trade & Transactions Global

- Owned regulatory calculation and **trade & transaction reporting platforms** across APAC and global markets using **AxiomSL v10/v11**, supporting SaaS and on-prem deployments.
- Acted as **Senior Business Analyst and Product Owner proxy**, leading requirement elicitation, functional specifications, user stories, backlog prioritization, and release planning.
- Translated complex regulatory mandates (**EMIR, MiFID II, SFTR, regional APAC regulations**) into scalable system and product capabilities.
- Partnered closely with **Product, Engineering, QA, and Compliance teams** to ensure regulatory accuracy, audit readiness, and timely releases.
- Led **end-to-end regulatory lifecycle ownership**, including calculation logic validation, post-go-live support, remediation tracking, and regulatory change adoption.
- Managed **UAT planning, execution, defect triage, and traceability** using JIRA and Confluence across multi-region releases.
- Served as **single point of contact (SPOC)** for platform stabilization, stakeholder communication, and production issue resolution.
- Authored **SOPs, SME documentation, and regulatory playbooks**, enabling long-term operational continuity and knowledge transfer.
- Coordinated **multi-vendor integrations** (including Calypso) to ensure accurate derivatives processing and trade settlement flows.
- Conducted **tool enablement and training sessions** for internal and client teams using JIRA, Salesforce, and ServiceNow.
- Brought in during high-priority regulatory initiatives and platform stabilization phases, delivering under compressed timelines and immediate ownership expectations.

Ernst & Young LLP | Senior Consultant | Nov 2021 – Sept 2023

Project: Credit Suisse (IBOR Transition, Market Risk, Regulatory Compliance)

- Led **Business Analysis workstreams** for Market Risk, Regulatory Compliance, and IBOR Transition programs for a Tier-1 global bank (Credit Suisse).
- Delivered **Market Risk, RRP, and ACVA RWA reports** aligned with **FINMA regulatory requirements**, supporting audit and regulatory submissions.
- Elicited, documented, and validated **business and functional requirements** for VAR, SVAR, and risk calculation processes.
- Designed **data quality controls, governance frameworks, and reporting workflows** in collaboration with Risk, IT, and Front Office stakeholders.
- Owned **UAT strategy, execution, defect management, and business sign-off**, ensuring regulatory accuracy and release readiness.
- Played a key role in the **IBOR to ARR transition**, supporting APAC and global market implementations.

C-Edge Technologies Pvt. Ltd. (TCS-SBI Enterprise) | Senior Business Analyst
Aug 2019 – Nov 2021

Project: HSBC (RBWM Regulatory Projects)

- Led **regulatory compliance initiatives** for Retail and Corporate Banking platforms across India for a global bank (HSBC).
- Owned requirements for **data encryption, Aadhaar masking, UPI integration**, and regulatory reporting enhancements.
- Worked with cross-functional teams to **modernize legacy banking systems**, improving data accuracy and regulatory compliance.
- Facilitated **stakeholder workshops, requirement walkthroughs, and solution validations** with business, IT, and compliance teams.
- Delivered regulatory initiatives within **aggressive timelines**, receiving recognition for **zero-defect delivery**.
- Led **Critical Data Element (CDE) identification and reporting initiatives** for Middle East banking operations.

Calibre Mindware Programming Pvt. Ltd. | Business Analyst |
Feb 2019 – July 2019

Project: FXecute (Payments Platform)

- Gathered and documented business and functional requirements for **MT103 integration** within the FXecute payments platform.
- Designed **end-to-end transaction workflows**, approval hierarchies, validation rules, and exception handling logic.
- Collaborated closely with engineering teams to ensure **timely delivery, integration accuracy, and post-deployment stability**.

Stratawiz Technologies Pvt. Ltd. | Business Analyst | June 2017 – Dec 2018

Project: Rapport (Web and Mobile Application for Medical Representatives)

- Contributed to the design and delivery of a **web and mobile application** supporting sales reporting and incentive management.
- Conducted **data analysis, UAT, user training, and functional documentation** to support successful adoption.
- Supported **client onboarding, issue resolution, and post-deployment adoption**, ensuring business continuity.

City Union Bank LTD. | Aug 2013 – Dec 2016
Assistant Manager – Fx & Money Markets | International Banking Division
Junior Officer – Retail Banking

- Managed **FX and money market operations**, trade settlements, and Nostro reconciliations.
- Liaised with treasury and trading desks for contract resolution and compliance.
- Handled **corporate and NRI accounts**, KYC/AML compliance, and branch operations.
- Built strong fundamentals in **core banking operations, risk management, and long-term business ownership**.
