Professional Summary

Product-oriented Senior Business Analyst and Product Owner with 8+ years of experience in Banking & Financial Services, specializing in Retail Banking, Wholesale Banking, Lending, Credit Risk, and Digital Transformation. Proven expertise in product backlog management, requirements elicitation, BRD/FRD, business process mapping, stakeholder management, Agile delivery, API integrations, regulatory compliance, and business case development, delivering customer-centric solutions and strategic business outcomes across enterprise banking platforms.

Work Experience

Senior Consultant – Senior Business Analyst | Product Owner

2026 – Present

Cognizant • Hyderabad

- Lead end-to-end business analysis for wholesale banking and lending transformation initiatives, collaborating with business and technology stakeholders to define functional requirements, optimize business processes, and deliver scalable digital solutions aligned with SDLC and enterprise architecture.
- Collaborated with business and technology teams to define API integration requirements, data mapping, and system interfaces, ensuring seamless data exchange, improved operational efficiency, and scalable banking solutions.
- Perform production incident analysis and root cause investigations, conducting impact analysis and risk management to ensure SLA compliance and service continuity.
- Lead SIT/UAT test planning by preparing test scenarios, acceptance criteria and performance measures to validate product features and enhancements.
- Conduct data modeling, reconciliation, and validation across systems to ensure financial accuracy and adherence to global regulatory and credit risk standards.

Senior Consultant – Senior Business Analyst | Product Owner

Mar 2025 – Jan 2026

Virtusa Consulting • Hyderabad

- Led business analysis for credit platforms across EMEA, focusing on loan origination, collateral management, and alignment with enterprise architecture and gating processes.
- Drove technology implementations and digital transformation initiatives by performing feasibility studies and gap analysis to translate business problems into clear functional requirements and BRDs.
- Gathered and prioritized requirements for credit scoring and loan automation; created AS-IS/TO-BE process maps and use case models using Visio to inform solution design.
- Managed stakeholder engagement across corporate banking and risk teams, applying negotiation to resolve scope trade-offs and support Risk-Weighted Assets (RWA) and credit risk model considerations.
- Delivered BRDs and advised stakeholders on best practices, supporting structured change management and proactive risk mitigation to improve project delivery outcomes.

Deputy Manager – Business Analyst

Oct 2022 – Mar 2025

TVS Credit Services Ltd • Chennai

- Spearheaded cloud migration of LOS/LMS platforms, preparing business cases and cost-benefit analysis; led migration of 75+ business-critical applications to improve scalability and reduce on-premise dependency.
- Drafted detailed BRDs/FSDs and user stories for digital lending modules and AML/KYC compliance, ensuring technical feasibility and clear business rules definition.
- Collaborated with cross-functional IT, QA, and infrastructure teams to monitor performance measures, manage the defect lifecycle, and support delivery of I&IT solutions.
- Managed stakeholder expectations and coordinated projects using domain expertise in financial services and tax analysis to ensure compliance across digital workflows.

Senior Executive – Business Analyst

May 2018 – Sep 2022

IIFL Samasta Finance Ltd • Bengaluru

- Created BRDs/FRDs and use cases for mobile banking apps and core banking systems, focusing on information management and user experience considerations.
- Provided business analysis for system enhancements and compliance automation, producing presentations and analytics dashboards to drive continuous improvement.
- Contributed to project delivery across Agile, Scrum, and Waterfall models, using JIRA and Confluence for requirements gathering, backlog refinement and sprint planning.
- Conducted impact assessments and stakeholder reporting to ensure traceability of regulatory documentation and support platform modernization initiatives.
