

PARVATI VINOD CHOURASIYA

Securities Operations & Reference Data Analyst | Investment Banking Operations

Pune, India | +91 8762008630 | Immediate Joiner | parvativc1999@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Securities Operations professional with 5+ years of experience in securities pricing, valuation, and reference data management within investment banking operations. Skilled in resolving pricing exceptions, processing corporate actions, and performing multi-vendor data reconciliation across Bloomberg, IDC, IHS Markit, DTCC, Euroclear, Clearstream, and SIX. Demonstrated ability to support NAV accuracy, ensure regulatory compliance, and collaborate cross-functionally with clients, brokers, investment managers, and fund accounting teams. Immediate joiner seeking to apply strong analytical and reconciliation expertise to a securities operations or reference data role.

CORE COMPETENCIES

Securities Pricing & Valuation | Reference Data Management | Corporate Actions Processing | Multi-Vendor Data Reconciliation | NAV Support | Exception & Tolerance-Failure Resolution | Regulatory Compliance | Checker/Maker Controls | Fund Accounting Support | Client & Stakeholder Management

PROFESSIONAL EXPERIENCE

Analyst – Securities Master File & Reference Data

June 2024 – June 2026

Hexaware Technologies, Pune, India

- Managed the end-to-end Securities Master File (SMF) reference data lifecycle for equities, bonds, mutual funds, and derivatives, including futures, options, currency options, and repos.
- Created and maintained security setups across Bloomberg, IHS Markit, IDC, DTCC, SIX, Euroclear, and Clearstream.
- Executed multi-vendor data reconciliation across Bloomberg, IDC, DTCC, Clearstream, SIX, WSO, and Euroclear to ensure consistent, accurate reference data.
- Monitored real-time market data feeds via Bloomberg Terminal and other vendor platforms, evaluating the impact of corporate actions and security identifier changes on multi-CSD reconciliation.
- Performed checker/maker controls on security setup records and reviewed legal documentation to ensure compliance with regulatory standards.

Financial Analyst – Securities Pricing & Valuation

December 2020 – August 2023

State Street HCL Services, Pune, India

- Priced financial instruments — equities, bonds, derivatives, and mutual funds — in accordance with Price Source Agreements (PSA) using data from Reuters, Bloomberg, and IDC.
- Resolved pricing exceptions including no-price, halted, stale, suspect, and expired price scenarios.
- Investigated exceptional pricing scenarios by liaising with data vendors, including Bloomberg, JPMorgan, IDC, and Markit, to resolve discrepancies.
- Worked closely with clients, brokers, investment managers, and accounting teams to resolve securities valuation issues and their impact on NAV.
- Researched tolerance-failure securities caused by price movements and corporate actions, coordinating with the Reference Data team to automate and link identifiers.
- Handled various corporate actions such as bonus issues, spin-offs, rights issues, mergers, splits, reverse splits, and dividends.
- Supported Fund Accounting in calculating Net Asset Value (NAV) by pricing client portfolio holdings.
