PROFESSIONAL SUMMARY

Full Stack Lead Developer with 11+ years architecting enterprise distributed applications across Financial Services, SaaS, and Retail Banking. Core expertise in JavaScript, Node.js, React JS, PostgreSQL, and AWS (EKS, Lambda, SQS). Proven track record leading high-availability migrations, microservices, CI/CD, and observability pipelines. Specialized in applied AI, building custom agentic systems and streamlining developer workflows with GenAI.

KEY ACHIEVEMENTS

- ▶ Refactored React components using memoization and lazy loading, reducing unnecessary re-renders and cutting initial load time by 20%.
- ▶ Optimized SQL queries and backend functions (indexing, query restructuring), reducing average API response time by 30%.
- ▶ Built and maintained repository documentation and Low-Level Design (LLD) standards for AI-assisted IDEs (Windsurf) within the React JS and Node.js codebases, reducing redundant token usage in LLM-driven workflows and accelerating developer onboarding and velocity.

PROFESSIONAL EXPERIENCE

Full Stack Lead Developer *S&P Global CapitalIQ* **Aug 2022 – Jun 2026**

- ▶ Engineered a high-performance financial web platform with ReactJS, Node JS and PostgreSQL on AWS (EKS, Lambda, S3, Redis, CloudWatch). integrated LLM APIs for smart search.
- ▶ Led a cross-functional team of 4 engineers, gathering and translating business requirements into technical specifications, guiding sprint planning and code reviews, and managing end-to-end release cycles from deployment planning to production rollout while serving as the primary point of contact for stakeholder communication and progress updates.

Full Stack Architect *Skata Software Pvt. Ltd.* **Aug 2021 – Jul 2022**

- ▶ Sole architect for a multi-tenant SaaS e-commerce platform built from scratch: system topology, DB schemas, and REST API contracts.
- ▶ Built secure Node.js/PostgreSQL backend with JWT auth and rate-limiting for high-concurrency, multi-vendor onboarding and order routing.

Senior Software Engineer *NCR Corporation Pvt. Ltd.* **Apr 2018 – Aug 2021**

- ▶ Migrated the ATM omnichannel marketing campaign engine from AE 2.0 to AE 3.0 three months ahead of schedule. built the AngularJS campaign-builder UI and Node.js scheduling/segmentation APIs.

Junior Software Engineer *OSI Digital Pvt. Ltd.* **Oct 2014 – Apr 2018**

- ▶ Developed UI components for the Macy's Credit Gateway (Backbone.js) with full Jasmine/Karma test coverage, supporting nationwide retail e-commerce.

INDEPENDENT PROJECT

- ▶ DataOps Copilot — AI-driven schema migration platform using Python (FastAPI), LangGraph & OpenAI APIs for multi-agent orchestration. React/TypeScript UI. deployed on AWS ECR/ECS Fargate.
