

POOJA SHREESHAIL BEERALDINNI

Lead Business Analyst / Product Owner

Pune, Maharashtra, India | beeraldinnipooja@gmail.com | +91 8087771254

PROFESSIONAL SUMMARY

Dynamic and impact-driven Lead Business Analyst/Product Owner with 8+ years of experience leading cross-functional teams, driving platform modernization, and delivering enterprise-grade SaaS and automated solutions. Proven track record of bridging the gap between business strategy and technical execution across Banking & Financial Services (Citi, Payments) and Enterprise Software (ServiceNow, GCP). Adept at managing end-to-end product lifecycles, owning product backlogs, automating high-risk workflows, and orchestrating Agile/Scrum delivery to drive 80%+ efficiency gains and 100% client satisfaction. Certified IIBA AAC professional skilled in GenAI integration, process re-engineering, and strategic stakeholder management.

CORE COMPETENCIES

- **Product & Project Ownership:** Product Backlog Ownership, User Story Mapping & Acceptance Criteria (Gherkin/Given-When-Then), Strategic Product Roadmapping, Project Scoping & Lifecycle Management, Feature Prioritization (MoSCoW, RICE, Kano), Solution Architecture, Risk Mitigation & EUC Remediation.
- **Requirements & Systems Analysis:** Functional & Technical Specifications (BRD, FRD, FSD), As-Is / To-Be Process Mapping, Gap Analysis, Root Cause Analysis (5 Whys, Fishbone), Data Modeling, System Architecture Diagrams, API Scoping & Integration Mapping.
- **Domain & Business Strategy:** Banking & Financial Services (Payments & Receivables), Regulatory & Compliance Automation, HRIS/HCM Systems, Customer Relationship Management (CRM), Business Process Re-Engineering (BPR), ROI & Feasibility Assessment.
- **Agile & Stakeholder Management:** Scrum & Kanban Frameworks, Cross-functional Team Leadership, Executive Stakeholder Engagement & Design Workshops, User Acceptance Testing (UAT) Strategy & Governance, Change Management (CRs), Change Impact Assessment.
- **Technical Tools & Analytics:** SQL, GCP BigQuery, Teradata, Postman (API Testing), Visio, Jira & Confluence, Workato, ServiceNow, Salesforce, Workday, Zendesk, Power BI, GenAI Implementation.

PROFESSIONAL EXPERIENCE

Virtusa Consulting Pvt. Ltd. | Pune, Maharashtra

Nov 2024 – Present

Lead Business Analyst / Product Owner (Banking Domain – Citi Bank)

- **Led business analysis via MS Visio** to map cross-border payment flows and design Target Operating Models (TOM) for SEPA Instant Payments, integrating primary clearing networks (Target2, STEP2, FedNow, Bacs, FPS).
- **Orchestrated data structures migration** from legacy SWIFT MT formats to modern ISO 20022 MX XML schemas, authoring comprehensive schema workbooks in Excel to prevent data truncation.
- **Configured conditional, intelligent routing logic** to dynamically direct high-volume liquidity flows, utilizing SQL queries to analyze payload metadata discrepancies and slash domestic failure rates by 30%.
- **Automated end-to-end transactional reporting pipelines** for international remittances (Project Synergy), capturing compliance requirements for Sight/Deferred Letters of Credit (LC) for Bangladesh and ECB/EBA Eurozone regulations.
- **Remediated End-User Computing (EUC) Risks:** Identified critical operational vulnerabilities caused by high-risk manual spreadsheets. Replaced legacy EUCs with automated, controlled system modules. Installed data validation rules and audit trails to protect data integrity and clear outstanding audit findings.

- **Analyzed system usage patterns** with SQL/Excel Power Query and engineered executive Power BI dashboards to translate complex system architecture redundancies into technology rationalisation insights.
- **Owned the end-to-end product backlog** in Jira, authoring detailed User Stories with testable BDD Acceptance Criteria, while leveraging Jira velocity charts and Confluence documentation to optimize sprint predictability.
- **Cross-Functional Leadership & Agile Governance** by facilitating core Agile ceremonies—including Sprint Planning, Backlog Refinement, and Daily Standups.

Accenture Solutions Pvt. Ltd. | *Pune, Maharashtra*

Jul 2021 – Nov 2024

Senior Business Analyst (Techno-Functional)

- **Successfully managed functional** delivery across 7+ enterprise clients and 17+ concurrent projects, achieving a 100% client satisfaction rate through requirement gathering, gap analysis, and system architecture mapping.
- **Facilitated executive design** workshops to elicit requirements; authored comprehensive BRDs, FRDs, configuration workbooks, and workflow diagrams (Visio) for custom enterprise applications.
- **Utilized GCP BigQuery, SQL, Teradata, Workato, and ServiceNow** to analyze complex data sets, scope automated integration solutions, and execute end-to-end testing protocols.
- **Led User Acceptance Testing (UAT)** checkpoints, established feedback loops with client leads, and managed Change Requests (CRs) to ensure seamless feature enhancements without delivery delays.
- **Mentored junior** analysts on functional design and domain capabilities; delivered training programs for client HR and Service Delivery teams to ensure Day-1 operational readiness.

Replicon Software India Pvt. Ltd. | *Bangalore, Karnataka*

Jun 2018 – Jul 2021

Associate Integration Consultant

- **Partnered with** Product Management, Engineering, and Services teams to align software feature roadmaps with enterprise client network and workflow requirements.
- **Defined project scopes**, established delivery schedules, and managed resource allocation for new software implementations while maintaining alignment with client business objectives.
- **Audited weekly production** deployments, conducted live project monitoring, and performed QA reviews to eliminate operational bottlenecks and improve system stability.

Convergys India Pvt. Ltd. | *Bangalore, Karnataka*

Sep 2016 – Jun 2018

Technical Support Associate II

- **Managed technical troubleshooting** for enterprise software and operating systems, resolving complex client inquiries while maintaining consistently high customer satisfaction scores.
