Program & Project Management

Program Governance, SLA Design, Delivery Coordination, Change Management, Risk Controls, Audit Support,

Data & Reporting

KPI/KRI Dashboards, P&L Analysis, Performance Analytics, Power BI, Tableau, Data Reconciliation

Agile & Scrum

Sprint Planning, Backlog Management, User Story Writing, Scrum Ceremonies, JIRA, Agile Delivery

Domain Knowledge

Private Credit, Derivatives, Fixed income, Bonds, Loans, Trade Lifecycle, Fund Accounting, KYC/AML, Growth PE, Sustainability, Real Estate

Work Experience

Senior Business Analyst, Asset & Wealth Management (Private)

11/2024 – 04/2026

Goldman Sachs – Bengaluru

- Elicited and documented business requirements from investment and operations stakeholders; translated findings into KPI-aligned executive dashboards, enabling data-driven portfolio decisions.
- Mapped end-to-end back-office workflows for private credit and loans (deal initiation → settlement reconciliation → position validation); identified process gaps and drove operational improvements.
- Built an Alteryx workflow automating payment tracking with scheduled reconciliation alerts — eliminating ~5 hours of manual effort weekly and improving break detection accuracy.
- Facilitated Agile/Scrum ceremonies (sprint planning, reviews, retrospectives) across process improvement and system enhancement initiatives, maintaining delivery cadence for cross-functional teams.
- Applied AI-assisted analytics and LLM-based summarisation to accelerate requirements documentation and surface data anomalies, cutting manual MI review time by ~30%.
- Managed advisor and consultant engagements across Growth Private Equity, Sustainability, and Real Estate verticals — scoping deliverables, tracking performance metrics, and consolidating outputs for investment committee reviews.
- Leveraged advanced Excel and SQL to conduct advisory fee benchmarking and cost optimisation analysis; synthesised findings into a senior leadership presentation that drove strategic pricing decisions.

- Supported onboarding of Life Sciences portfolio companies (biotech/pharma) within the private credit mandate, coordinating KYC/AML documentation with compliance and deal teams.

Business Analysis – Process Specialist I

09/2024 – 11/2024

FactSet Research Systems Inc – Hyderabad

- Gathered requirements and redesigned project management dashboards during a system transition, improving reporting visibility across financial data workflows for key stakeholders.
- Authored standardised reporting frameworks for Q3 financial data processes, ensuring accurate and timely data availability during the migration period.

Business Analysis – Assistant Manager, Fund Operations

10/2021 – 08/2024

KFIN Technologies Limited – Hyderabad

- Led the I-match reconciliation transformation, replaced manual reporting with automated cash, position, and trade reconciliation, significantly improving data accuracy for mutual fund clients.
- Defined requirements and delivered the Penny Drop KYC automation, reducing investor onboarding verification time by 25% and improving compliance accuracy.
- Directed UAT planning and execution for the K-prism platform launch, defining UAT strategy, documenting over 200 test cases, and tracking defects to achieve a 98% pass rate for critical functionalities prior to go-live sign-off by stakeholders.
- Managed product backlogs in JIRA, authored user stories with acceptance criteria, and coordinated sprint deliverables with dev teams — ensuring on-time feature releases.
- Documented corporate actions workflows (dividend bookings, entitlement validation, break resolution) and designed SOPs for trade settlement and compliance processes.
- Automated mid-year and year-end audit support using Python for reconciliation documentation and data integrity validation across fund accounting and trading records, reducing manual processing time and minimising reconciliation errors.

Projects

CloseMate — Month-End Close Tracker : [Portfolio Link](#)

Finance ops tracker built and shipped independently. CloseMate is a self-contained, browser-based month-end close tracker — no login, no setup, no backend. Built in HTML/JS in under 5 hours. It has four modules: a live close dashboard, a categorised task checklist with owner and status tracking, a reconciliation tracker with variance flags, and an issues log with escalation paths useful for Project/Program Managers.

Education

PGPM – Marketing & Operations

04/2022

IBS Mumbai (ICFAI Business School), Mumbai

BE – Mechanical Engineering

04/2019

Savitribai Phule Pune University, Pune

Certifications

- Alteryx Designer Core Certified — Alteryx
