SUMMARY

Certified Business Analyst with 4+ years of experience delivering technology and process solutions across the **Property & Casualty Insurance** and **Banking** domains. I am skilled in **Guidewire PolicyCenter**, **payment systems**, and **API integrations**, with strong expertise in business process modeling and regulatory compliance. Proficient in **data analysis** and **Power BI reporting**, translating complex datasets into actionable business insights. Transitioned from a **law background**, bringing analytical precision and a strong grasp of compliance frameworks. As a **Certified Scrum Master**, I am adept at driving Agile ceremonies, aligning cross-functional teams, and ensuring delivery of measurable business value.

EXPERIENCE

Sr Business Analyst

QuessCorp Pvt Ltd 📅 20/10/2025- Present 📍 Bangalore, India

- Gathered and documented business and data governance requirements across key domains.
- Defined and validated Data Quality rules, lineage, and metadata in Collibra.
- Prepared BRDs, user stories, and acceptance criteria for DQ and MDM initiatives.
- Collaborated with data stewards and tech teams on issue remediation and workflow enhancements.
- Tracked datasets, DQ rules, and approvals through Collibra and ADO dashboards.

Sr Business Analyst

INSIGHTOGRAM PVT LTD 📅 06/01/2025- 10/10/2025 📍 Indore, India

- Gathered and documented business requirements, user stories, and acceptance criteria for PolicyCenter modules.
- Performed process mapping and gap analysis across new business, renewal, and endorsement workflows.
- Conducted requirement walkthroughs, functional demos, and client workshops for business validation.
- Collaborated with QA teams to define test scenarios, review test cases, and support UAT execution.
- Tracked defects and change requests through JIRA, ensuring timely resolution and signoffs.
- Maintained product backlog, supported sprint planning, and managed requirement traceability via Confluence and RTM.
- Coordinated with developers and architects on configuration, integration, and rule implementation.

Business Analyst

AIRWISE PVT LTD 📅 07/2022- 12/2024 📍 Pune, India

- Collaborated with frontend and backend teams to translate complex business needs into clear, actionable technical solutions.
- Converted business requirements into detailed wireframes, workflows, and scalable technical outputs.
- Facilitated Agile ceremonies including sprint planning, backlog grooming, daily standups, and UAT sessions, ensuring smooth team coordination and timely project delivery.
- Acted as a bridge between business stakeholders and development teams, ensuring alignment of goals and expectations within Agile SDLC.

Jr Business Analyst
