ONSITE EXPERIENCE

- Worked onsite in Paris, France (6 months) to understand client requirements, support process transitions, and implement operational improvements.
- Worked onsite in Singapore (3 months) to facilitate knowledge transfer, client engagement, and operational transformation initiatives.

Professional Experience

BNP Paribas | Assistant Manager – Hedge Fund Reconciliation / Fund Accounting -Jun 2022 – Sep 2024

- Managed end-to-end Fund Administration activities for Hedge Fund portfolios, ensuring timely and accurate NAV production.
- Executed Trade Capture, Trade Processing, Trade Enrichment, Trade Confirmation, and Trade Settlement across multiple investment products.
- Validated trades, Corporate Actions, income events, and investment transactions prior to NAV calculation.
- Performed Cash, Position, Securities, and NAV Reconciliations while investigating reconciliation breaks and resolving exceptions within SLA.
- Processed and validated SWIFT MT/MX messages supporting settlement processing and operational reconciliation.
- Executed Bulk Upload of trade, settlement, and reconciliation data into operational platforms while ensuring data integrity.
- Conducted STP Break Investigation and Root Cause Analysis (RCA) to improve operational efficiency and reduce settlement exceptions.
- Collaborated with Middle Office, Custody, Fund Accounting, and Client Service teams to resolve trade and settlement issues.
- Led governance reporting, audit readiness, SLA reviews, MIS reporting, operational controls, and Business Continuity Planning (BCP)

JPMorgan Chase | Consultant – Hedge Fund Accounting- Jan 2021 – May 2022

- Performed daily Fund Administration and Fund Accounting activities for Hedge Fund portfolios.
- Supported the complete Trade Lifecycle from Trade Capture through Trade Settlement.
- Managed Trade Confirmation activities by validating trade details and resolving confirmation exceptions.
- Performed Trade Enrichment by validating settlement instructions (SSI), security master data, and trade attributes.
- Processed SWIFT MT/MX payment messages supporting investment operations and settlement activities.
- Performed Cash, Position, Securities, and NAV Reconciliations while investigating operational exceptions.
- Coordinated with Middle Office, Custody, and Operations teams to ensure timely settlement and accurate NAV delivery.
- Supported month-end NAV production, audit deliverables, and regulatory reporting requirements.

State Street HCL | SME – Hedge Fund Accounting -Feb 2019 – Jan 2021

- Worked extensively on SmartStream TLM Premium for reconciliation, exception management, and operational monitoring.
- Supported Trade Processing, Trade Enrichment, and reconciliation activities across Hedge Fund operations.
- Performed Pre-upload Validation of reconciliation files, trade data, and settlement information prior to SmartStream TLM processing.
- Executed Bulk Upload of reconciliation rules, trade files, and operational data into SmartStream TLM.
- Processed and validated SWIFT MT/MX messages supporting payment reconciliation and settlement validation.
- Executed migration testing, User Acceptance Testing (UAT), reconciliation validation, and post-production verification.
- Investigated STP breaks and reconciliation exceptions while performing Root Cause Analysis (RCA).
- Collaborated with technology teams during SmartStream TLM implementation, migration, and production support.

SS&C GlobeOp | Hedge Fund Accounting -Jul 2014 – Jan 2019

- Managed end-to-end Hedge Fund reconciliations covering Cash, Position, Three-Way, FX, and Corporate Actions.
- Supported Fund Administration, Trade Processing, and operational controls for Hedge Fund clients.
- Coordinated offshore transition, client migration, and reconciliation platform implementation activities.
- Investigated reconciliation exceptions, settlement breaks, and payment discrepancies while ensuring timely resolution.
- Supported Bulk Upload of reconciliation and migration data during transition activities.
- Worked closely with onshore teams during migration, UAT, and knowledge transfer.
- Performed reconciliation using Geneva and Go Rec platforms for global investment portfolios.
- Supported operational improvements to enhance Straight Through Processing (STP).

State Street Syntel | Senior Associate -Jan 2011 – Jul 2014

- Supported Middle Office operations for derivatives, collateral management, and margin settlement.
- Performed daily trade validation, collateral reconciliation, and settlement monitoring activities.
- Coordinated with brokers, custodians, and counterparties to resolve collateral and settlement discrepancies.
- Investigated MTM differences and settlement exceptions through Root Cause Analysis (RCA).
- Prepared daily operational MIS, KPI reports, and client reporting packs.
- Supported collateral movements and exposure monitoring while ensuring adherence to operational controls.

IDBI Capital Market Services | Relationship Manager -Aug 2009 – Dec 2011

- Processed customer trade orders and supported investment-related transactions.

- Conducted company research and provided investment recommendations to clients.
- Assisted customers with capital market products while ensuring regulatory compliance and quality service.

KEY PROJECTS

- Successfully migrated multiple reconciliation processes to SmartStream TLM Premium, including validation, testing, and post-production support.
- Led client transition and reconciliation migration projects covering Cash, Position, Three-Way, FX, and Corporate Actions.
- Supported Hedge Fund Accounting transition from Singapore to Mumbai.
- Participated in collateral margin process transition from Paris to Mumbai.
- Successfully migrated multiple client processes to Joint Venture (JV) Management, supporting end-to-end record-keeping activities
