Work Experience

Senior Associate - Fund Accounting

State Street Corporation | Pune

Dec 2021 - Present

- Managed end-to-end fund accounting activities for 500+ mutual funds and investment portfolios, supporting daily NAV calculations with 99.9% accuracy.
- Executed investment accounting activities including purchases, sales, income accruals, expense accruals, subscriptions, redemptions, and distributions.
- Performed daily cash, position, and securities reconciliations with custodians, brokers, and accounting systems.
- Validated portfolio pricing, market values, and security-level transactions before NAV release.
- Processed fixed income securities activities including coupon accruals, interest payments, maturities, amortization, and principal repayments.
- Investigated and resolved reconciliation breaks, accounting exceptions, and NAV discrepancies within SLA timelines.
- Supported corporate action events including dividends, stock splits, mergers, tender offers, and mandatory reorganizations.
- Coordinated with custody, pricing, middle-office, and client service teams to resolve operational issues and improve service delivery.
- Managed end-to-end Trade Life Cycle activities, including trade capture, validation, processing, settlement monitoring, reconciliation and exception resolution.
Performed trade validation and processing for investment transactions, ensuring accurate booking and timely settlement.
- Maintained compliance with internal controls, accounting policies, client mandates, and regulatory requirements.
- Performed daily cash, position and securities reconciliation between custodians, brokers and internal accounting systems using reconciliation workflows and exception-management processes.
- Investigated and resolved cash, position, trade and NAV breaks, performing root-cause analysis and coordinating with relevant teams for timely closure.
- Monitored reconciliation exceptions and ensured resolution within defined SLA and NAV reporting timelines.
- Validated trade and portfolio data across accounting and custody records to identify discrepancies in quantity, price, market value and transaction activity.
- Supported reconciliation controls to ensure accurate investment positions and accounting records prior to NAV release.

- Supported Investment Banking Operations across fund accounting and investment operations, covering securities processing, investment transactions, reconciliation and NAV activities.
- Processed and validated investment transactions including purchases, sales, subscriptions, redemptions and distributions as part of daily fund operations.
- Supported the trade lifecycle from transaction processing and validation through reconciliation, exception resolution and settlement-related activities.
- Coordinated with custody, middle-office, pricing and client service teams to resolve investment-operation exceptions and ensure timely delivery.
- Worked across equity, fixed income securities and corporate action transactions, supporting accurate accounting and portfolio valuation.
- Trade Lifecycle Management: Supported trade processing and validation, post-trade reconciliation, settlement monitoring, exception investigation and resolution across investment transactions.
