CORE COMPETENCIES

Enterprise-Wide multi-functional Transformation expert

Data Science and Analytics Expert

Automation & GenAI Architect for Large-Scale Productivity Unlocks

Process Mining, Variance Analysis & Digital Twin Modelling(Simulation)

Business KPIs, SLA/BOI Governance & Performance Architecture

Process Reengineering & Intelligent Operations Modernization

Lean, Six Sigma & Continuous Improvement Program Leadership

Automation Opportunity Pipeline & Benefits Realization Governance

Quality, Risk and Compliance Framework expert

Change Management & Transformation

Prosci ADKAR Change Management (Practitioner Training)

Change Impact Assessment & Stakeholder Analysis

Transformation Communications & Adoption Strategy

Training & Capability Enablement

Digital Transformation & Behavioral Change Leadership

PRASAD HARIHARAN

PERSONAL PROFILE

- **Transformation & Operations Excellence expert** delivering secure, compliant, cost-efficient operating models through risk-based design, CX optimization, digital transformation, governance, and change management.
- **Process Excellence specialist** leveraging Minitab, Celonis, Lean/Six Sigma, BOI, FMEA, Entitlement Studies, and VSM to eliminate NVA, strengthen governance, and scale reengineering.
- **Data Science & ML specialist** using R, Python, SQL for regression, forecasting, classification, clustering, anomaly detection, sentiment analysis, and prescriptive insights.
- **BI & Reporting Architect** mastering Power BI, Power Query, Qlik Sense, Excel, delivering real-time KPIs, automated dashboards, and data-driven performance governance.
- **Analytics & Workforce Modelling expert** in demand forecasting, CSAT, capacity, early-warning signals, metric standardization, and data-driven workforce planning.
- **Automation & GenAI enabler** driving enterprise automation, AI integration, workflow digitization, unlocking FTE productivity and intelligent operations maturity.
- **Program & Change Management professional** delivering high-impact multi-geo transformation initiatives using structured change frameworks, stakeholder engagement, and adoption strategies to ensure successful transition to new operating models.
- **CXO and Senior Leadership Engagements:** Proven experience collaborating with CXOs and senior leaders to shape and execute enterprise-wide transformation agendas.

WORK EXPERIENCE

Accenture Services Pvt. Ltd. – Mumbai, India

Business Transformation Lead /Analytics and Modelling Architect | Feb 2015 – Jan - 2026

Client: Accenture India

Key Projects Undertaken:

Overall Benefits Realization: Contributed directly and indirectly to 2,000+ FTE equivalent benefits over 10 years, translating to ~\$35M in validated savings through workflow automation, NVA elimination, and Automation & GenAI initiatives, improving KPIs and CSAT. Led organizational change enablement for automation, analytics and digital platform initiatives across global delivery teams, ensuring adoption through stakeholder engagement, communication strategies and training enablement. Designed change communication strategies, stakeholder engagement plans and training enablement programs to ensure successful adoption of new operating models and digital platforms.

Key Transformation Projects

- Delivered end-to-end HR Procure-to-Pay (P2P) automation using Power Automate mini-bots and OCR for validations, invoicing and accrual workflows, achieving ~90% automation with improved turnaround time, SLA adherence, accuracy, and user experience.
- Enabled enterprise HR transformation by migrating fragmented legacy systems (ATAS, Abacus) to Workday, delivering a unified global HR platform with standardized processes, enhanced compliance, and real-time workforce insights. Supported organizational change management including stakeholder engagement, communication enablement, training adoption, and workflow automation on the new platform.
- Applied Prosci ADKAR change management principles across digital transformation initiatives including automation, analytics platforms, and operating model redesign, ensuring smooth adoption across global delivery teams.
- Led structured change impact assessments across HR, procurement, finance and operations functions to evaluate organizational, process and technology impacts of transformation initiatives, enabling targeted stakeholder engagement, communication strategies and adoption roadmaps.
- Led "Expert Assist" project using agentic automation and Generative AI with self-learning loops, intent routing, and quality governance, reducing escalations, improving first-time resolution, optimizing AHT, and boosting productivity and

PREVIOUS EXPERIENCE

- **Unisource Worldwide Pvt. Ltd. | Analyst – Planning & Analytics | Sept 2006 – Aug 2008**
- Managed U.S. retail merchandise planning analytics, building demand-forecasting models to optimize procurement, inventory replenishment, store allocations, and inventory turns. Led ISO-driven internal audits, training, and documentation to support enterprise quality certification.
- **Unifreight India Pvt. Ltd., Mumbai (now part of FedEx) | Accounts & Operations | Dec 1999 – May 2004**
-Managed end-to-end logistics operations, leading cross-functional projects that optimized fleet and warehouse efficiency, improved cost control, and delivered strategic initiatives on time to enhance service reliability.

EDUCATION

Post Graduate Program in Business Analytics for Management Decisions (Data Science) XLRI, Jamshedpur – Alumni (1-year program)-Operations Specialization|2017-2018

Master of Management Studies (MMS) | University of Mumbai (Full Time) | 2004–2006

Bachelor of Commerce (B.Com.) | University of Mumbai (Full Time) | 1996–1999

satisfaction.

- Delivered AI-enabled contract and document management using Evisort, enabling clause extraction and metadata tagging to reduce cycle time, manual reviews, and compliance risk while improving governance.
- Built advanced Power BI and Qlik Sense dashboards using SQL, R Studio, and Python, big data analytics including one named “Funnel Analyzer” for workforce forecasting, hiring timelines, sourcing effectiveness, and recruiter performance.
- Identified and led multiple RPA initiatives across functions and processes to automate both workflows and manual processing.
- Built and led multiple **one-stop analytical dashboards** leveraging **SQL, R Studio, Big Data, and machine-learning models** to deliver actionable business insights and decision support.
- Conducted deep **process studies and mining across** functions/teams using **Celonis, AIDT, entitlement, and time-and-motion analyses** to identify rework, bottlenecks, overutilization, and non-value-added activities, eliminating them through **workflow automation and RPA**.
- Deployment of operational excellence tools across functions and teams.

Operational Maturity, Quality & Governance

- Led enterprise operational maturity assessments using Value Stream Mapping, Entitlement Studies, BOI Tree, Process Maturity Measurement, Benchmark Analytics Tool, SLAs/SLA+, and Standard Quality Framework, driving quality, efficiency, and contractual compliance outcomes.
- Improved client experience and CSAT by enabling digital NPS and sentiment analytics dashboards, guiding insight interpretation, action planning, and validating improvements through recurring maturity checkpoints.
- Strengthened enterprise risk and compliance maturity using Accenture Control Framework, FMEA, SOPs/LWIs, SIPOCs, early-warning indicators, and assurance reviews, ensuring audit-ready, controlled operations.
- Translated contractual commitments into measurable delivery outcomes through BOI Tree mapping, maturity-linked KPIs, and governance reviews validating evidence and performance.

Automation, GenAI & Intelligent Operations

- Assessed baseline productivity and designed automation and GenAI roadmaps leveraging RPA, LCNC, mini-bots, Generative AI–Human Assist, and Accenture platforms, validating benefits realization and productivity uplift.
- Enabled advanced automation and intelligent operations maturity through process modernization and AI-driven interventions, achieving top-quartile productivity benchmarks.
- Guided AI- and automation-led transformation roadmaps, validating readiness for autonomous and agentic operations using autonomy-focused maturity assessments.

Value Realization, Analytics & Diagnostics

- Delivered maturity-led diagnostics using process mining, variance analysis, Value Stream Mapping, and analytics modelling to identify NVA, enable reengineering, and deliver measurable business outcomes across internal delivery teams.
- Established enterprise BOI, SLA, and KPI governance frameworks enabling automation pipelines, benefits-realization validation, and outcome-based value tracking.
- Built enterprise KPI architectures and 3×3 leading-lagging frameworks using Regression analytics.
- Built and also enabled one stop shop digital dashboards to improve business intelligence using Power BI, Qlik Sense ,big-data analytics and machine learning to enable forecasting, performance monitoring, and improvement advisory.

PERSONAL DETAILS

Languages: English, Hindi, Marathi,
Tamil, Malayalam

CXO Advisory, Governance & Assurance

- Advised senior leadership on end-to-end enterprise transformation roadmaps, validating CXO-level business outcomes through maturity-driven governance.
- Owned monthly operational maturity assessments across multiple OMIDs, ensuring Operational Excellence adherence, stage progression, leadership reporting, digital governance, and performance appraisal alignment.
- Acted as cross-functional Business Transformation Auditor, validating maturity scores, evidence quality, control effectiveness, and outcome realization across internal portfolios.
- Established enterprise transformation governance including maturity scorecards, ROI models, automation feasibility playbooks, benefit-validation mechanisms, and finance-approved business cases.
- Documented and signed off stage-wise project status, savings accounting, and FTE reconciliation through Digi-Portal governance.

Capability Building & Change Enablement

- Supported cross-geography internal delivery teams through maturity-based process reviews, redesigns, and analytics-led interventions.
- Built organization-wide capability by delivering Yellow Belt and Green Belt programs and change enablement workshops, embedding a continuous improvement, automation-first and transformation-ready culture.

Operational Excellence Platforms & Tool Deployments

- Led Accenture Control Framework deployment by designing process-specific controls, executing phased rollouts, embedding failure-mode analysis, and delivering measurable compliance, risk mitigation, and governance benefits.
- Drove process maturity uplift by deploying Process Maturity Measurement and Benchmarking Analytics Tool, benchmarking against global standards and delivering targeted efficiency improvements.
- Partnered with compliance teams to deploy Standard Quality Framework, strengthening end-to-end audit readiness and alignment with evolving quality requirements.
- Deployed Global Productivity Hub to 2,000+ users, managing UAT-to-go-live and delivering analytics on efficiency, productivity utilization, and capacity utilization to identify automation opportunities.

Project Manager / Team Lead

Accenture Services Pvt. Ltd. | Oct 2010 – Feb 2015 | Client: AT&T Corp.

- Managed telecom lifecycle projects, navigating phases involving legal, finance, carrier relations, onboarding, billing system updates and compliance checkpoints.
- Prepared business cases, financial justifications & documentation to secure approvals from legal, finance & carrier-relations divisions.
- Closed projects in line with SLA timelines while monitoring risks, dependencies, documentation, and cross-functional coordination.
- Creating advanced excel and analytical models for Vendor penalty and multiple reports and dashboards for leadership reporting.
- Participated in OE and quality initiatives creating process artefacts such as SIPOCs, FMEAs, DLPs, HLPs, 3x3 metrics & risk logs to strengthen operational excellence.
- Led quality initiatives and contributed to innovative internal platforms such as “Aura” for engagement and collaboration.

Planning Consultant / Team Lead

Accenture Services Pvt. Ltd. | Oct 2008 – Sept 2010 | Client: Loblaw's Ltd. (Canada)

- Played a key role in transitioning merchandise planning and procurement support operations from Canada to India, supporting process documentation, stakeholder coordination, knowledge transfer, stabilization and operational optimization across retail supply chain and SAP-driven procurement planning processes.
- Supported merchandise planning and procurement teams working on SAP-based retail planning and replenishment processes, collaborating with category managers and purchasing teams to optimize supplier ordering cycles and inventory availability across distribution centres and retail stores.
- Developed analytical Excel-based models to manage inventory levels, reduce DC accumulation & smoothen replenishment cycles, minimizing bullwhip effects and improving throughput.
- Collaborated with purchasing teams and category managers to plan promotional strategies to maximize sales and liquidity.
- Diagnosed merchandise availability issues and partnered with supply chain teams to resolve store-level stockouts.
- Contributed to process excellence through creation of quality frameworks (FMEA, SIPOC, DLPM, HLPM, etc.) and supported initiatives.
