

Prasad Potdar

Consultant – Digital Transformation

E-mail: prasadpotdar.official@gmail.com

Mobile: 9112356956

➤ Professional Summary –

Digital Transformation Consultant with 9+ years of experience in Process Excellence, Business Excellence, Lean Six Sigma, Business Process Reengineering, Automation, and Data Analytics. Proven expertise in partnering with business stakeholders to analyze, standardize, and optimize business processes, identify automation opportunities, redesign workflows, and deliver scalable, data-driven solutions that enhance operational efficiency, governance, and business performance. Strong background in Quality Management Systems (QMS), enterprise Business Excellence frameworks, and process governance, including organization-wide deployment and maturity assessments of business excellence frameworks.

➤ Work Experience – 9 years

WNS Global Services - Digital Transformation Manager

May 2026 onwards

- **Drive digital transformation initiatives** by partnering with client stakeholders and operations teams to analyze, redesign, standardize, and optimize end-to-end business processes aligned with operational and business objectives.
- **Drive Lean Six Sigma and continuous improvement initiatives** using **DMAIC, process mapping, Root Cause Analysis (RCA), and data-driven methodologies** to identify process gaps, eliminate inefficiencies, and improve business performance.
- **Gather and translate business requirements** into current-state and future-state (**AS-IS / TO-BE**) process designs, workflow requirements, and solution specifications, collaborating with cross-functional teams through implementation and adoption.
- **Analyze process performance and operational metrics**, developing KPIs, dashboards, and data-driven insights to identify bottlenecks, monitor improvement opportunities, and support informed decision-making.
- **Collaborate with global client stakeholders and cross-functional teams** to facilitate process workshops, validate proposed solutions, manage dependencies, and support sustainable adoption of transformation initiatives.

Bristlecone India Limited (Mahindra Group) – Lead Business Excellence

Nov 2021 – Apr 2026

- Drove enterprise-wide **Business Process Re-engineering (BPR), Digital Transformation** and **Continuous Improvement** initiatives across enabling functions including **Procurement, HR, Finance, Workplace Solutions and Delivery Operations**, driving end-to-end **workflow transformation, standardization**, operational efficiency, and process maturity enhancement.
- Supported the enterprise-wide adoption and maturity improvement of **Mahindra Group's Business Excellence framework, The Mahindra Way (TMW)**, aligned with **Total Quality Management (TQM)** principles. Worked across management and business processes to support **Business Excellence deployment, process standardization, strategy deployment, governance, organizational maturity, and continuous improvement**.
- **Led internal audits across business processes and functions** to assess **compliance with the Mahindra Group's Business Excellence framework (TMW)**, and translating audit findings into **Six Sigma driven process improvements**, focused on **defect reduction, waste elimination, cycle-time optimization, and risk mitigation through FMEA and CAPA**.
- Coordinated the **annual Business Excellence (TMW) assessment** conducted by the **Mahindra Institute of Quality (MIQ)**, acting as the central point of coordination between MIQ and cross-functional process owners. Managed assessment planning, stakeholder coordination, documentation, evidence readiness, and follow-up on observations and improvement actions (**CAPA**).
- Collaborated across stakeholders to represent continuous improvement initiatives and worked with Senior Directors, VPs, and SVPs on annual Business Excellence assessment presentations.
- Served as the organizational point of contact for Group Common Policies & Practices (GCPP) assessments across **Risk Management, Sustainability, CSR, and Safety**, supporting governance, alignment, assessment readiness, compliance, and continuous improvement.
- Owned and led the **enterprise-wide Kaizen Program**, driving a structured **continuous improvement** culture through Kaizen, **Lean** principles, process mapping, and **Six Sigma DMAIC** methodology. Governed the complete **Kaizen lifecycle** from idea registration, evaluation, implementation, validation, horizontal deployment, and recognition, ensuring sustainable business impact across functions.
- Served as the **Kaizen Subject Matter Expert (SME)**, coaching teams on problem identification, root cause analysis, solution development, and implementation best practices. Conducted organization-wide **Kaizen awareness and capability-building sessions** to improve participation and execution quality.
- Developed standardized **Kaizen evaluation criteria**, review mechanisms, and governance practices to improve consistency, transparency, and effectiveness of **Kaizen implementation** across the organization.
- Designed and deployed automated **Power BI dashboards** to monitor enterprise-wide Kaizen performance, implementation status, approvals, benefit realization, horizontal deployment, and recognition metrics, enabling leadership governance, transparency, and data-driven decision-making.
- Partnered with process owners to identify **transformation opportunities**, redesign operating models, streamline workflows, and implement **continuous improvement** initiatives aligned with organizational strategic objectives and enterprise governance frameworks.

- Leveraged **Python** and **SQL** to develop **automation** solutions, optimize data processing and reporting workflows, and support **Lean Six Sigma** and **digital transformation initiatives** through data-driven insights and **process automation**.
- Conducted end-to-end process assessments, **process mapping**, **Root Cause Analysis (RCA)**, **FMEA**, and **CAPA** exercises to identify operational gaps, redesign workflows, mitigate risks, and implement scalable process improvement solutions across business functions.
- Skilled in process mapping and process modelling using BPMN and Visio, supporting AS-IS / TO-BE analysis, workflow redesign, and business process improvement.
- Designed and institutionalized a **Daily Work Management & Standardization (DWMS) maturity assessment framework** for delivery projects, enabling standardized governance, operational discipline, process adherence, and delivery consistency across project teams. Developed Power BI dashboards for leadership reviews, providing visibility into maturity trends, compliance tracking, KPI performance, and continuous improvement opportunities.
- **Certified Six Sigma Black Belt (SSBB)** – expertise in **Lean Six Sigma** methodology, advanced statistical tools (Minitab), and process transformation.
- Implemented small-scale process **automations** using **Python**, **VBA**, **Power Automate**, **Power Apps** to streamline manual workflows, improve reporting efficiency, reduce turnaround time, streamlining manual reporting workflows and supporting RPA-led **digital transformation** initiatives.
- Applied analytics and automation capabilities using **Python**, **SQL**, **Power BI**, and **Minitab** to build automated reporting solutions, analyze trends, improve process visibility, and support data-driven business transformation initiatives.
- **Designed and institutionalized an FMEA framework** with standardized SOPs, enabling proactive risk identification and preventive controls across the organization.
- **Acted as transformation catalyst** by training associates in Quality, Kaizen, Root Cause Analysis, Agile, and Lean practices, embedding a culture of continuous improvement across the organization.
- Trained 1000+ employees every fiscal year on Lean, Kaizen, 7 QC Tools, and Six Sigma methodology; helped identify Six Sigma project opportunities and mentored Yellow Belt, Green Belt, and Black Belt projects.
- Developed training content for Lean Six Sigma, Kaizen, and 7 QC Tools to support organization-wide capability building and continuous improvement adoption.
- Owned the continuous improvement lifecycle from project identification and scoping through mentoring and closure, including 4+ Black Belt projects at Bristlecone, 2 Yellow Belt projects at WNS, 2+ Green Belt projects at Amazon, and 5+ Yellow Belt and 3+ Green Belt projects across other organisations.
- **Certified ScrumMaster (CSM)** – trained in Agile philosophy and Scrum framework, with working knowledge of SDLC and program/project management practices.

Amazon Development Centre (India) - Quality Analyst

July 2020 to Nov 2021

- **Conducted comprehensive risk assessments and quality audits**, identifying systemic gaps, non-conformities, and driving **Corrective & Preventive Actions (CAPA)** aligned with Amazon's Defect Management standards.
- **Redesigned and implemented Quality Management and Defect Management frameworks** for Compliance Operations across Singapore and Australia marketplaces, strengthening process efficiency and regulatory compliance.
- **Developed and monitored KPIs, Quality Metrics, and Weekly Business Review (WBR) reports**, enabling leadership to take **data-driven decisions** for defect reduction, process optimization, and seller experience improvement.
- **Performed advanced statistical analysis** on process performance data to uncover trends, streamline workflows, and improve compliance accuracy.
- Served as a **Subject Matter Expert (SME)** for Quality Operations, leading compliance reviews, query resolution forums, and cross-functional collaboration with global stakeholders.
- Led **continuous improvement** initiatives by analyzing **quality defects**, identifying process improvement opportunities, conducting root cause analysis, and partnering with operations teams to implement corrective and preventive actions (CAPA), improving process quality and operational performance.
- Facilitated **quality review discussions** with stakeholders, standardized best practices across teams, and drove process optimization through data analysis, SOP enhancements, and performance monitoring.
- Contributed as a team member in an enterprise **Ideathon** initiative, supporting the **end-to-end process improvement idea submission, evaluation, and selection**. Assisted in reviewing employee-submitted ideas, identifying high-impact opportunities, and facilitating the selection of feasible ideas for implementation.
- **Standardized process documentation and onboarding material**, ensuring effective knowledge transfer and consistent training for new hires.
- Championed **continuous improvement and Lean Six Sigma practices**, leading initiatives that improved **operational efficiency, compliance accuracy, and seller trust**.
- Consistently recognized with the '**Himalaya Ace of Spades**' award for outstanding performance and commitment.

➤ Certifications –

- Certified **Lean Six Sigma Black Belt**: Issued by Six Sigma Academy Amsterdam and officially accredited by BKO.
- Certified **Lean Six Sigma Green Belt**: issued by AIGPE and officially accredited by CPD Certification Service. (Certification #ZSSGB121145871)
- Certified **Operational Excellence Expert** (OpEx Expert) issued by Six Sigma Academy Amsterdam, and officially accredited by BKO.
- Certified **Atlassian Agile Project Management** Professional
- Certified **Internal Auditor** for **ISO 9001:2015, EMS 14001:2015 & ISO 45001:2018** issued by TUV Nord
- **Certified Minitab Expert**: issued by AIGPE and officially accredited by CPD Certification Service. (Certification # ZSSM3121143167)
- Successfully completed comprehensive learning journey on **Project Management** designed by Bristlecone **Program Management** Body of Knowledge. Cleared post-training assessment.
- **Certified Scrum Master (CSM)**
- Certified **FMEA** Specialist
- Certified **Process Mapping** Specialist

Mahindra Accelo, Pune - Business Excellence Associate

Nov 2018 – Nov 2019

- Overseeing **Operational Excellence/Process Excellence** activities across all plants, driving Business Excellence methodologies, and ensuring compliance with Mahindra Group's Business Excellence model **The Mahindra Way (TMW)** to achieve world-class business results.
- Planning and executing annual **TMW assessments**, facilitating **Manufacturing Excellence** practices through Lean, Continuous Improvement, and Total Productive Maintenance (TPM) Methodologies.
- Acted as the **Total Productive Maintenance (TPM) Coordinator**, managing **TPM audits** conducted by the **Japanese Institute of Plant Maintenance (JIPM)**.
- Responsible for **Integrated Management System activities**, including **ISO audits** for **QMS (ISO 9001:2015), EMS (ISO 14001:2015), and OHSMS (ISO 45001:2018) standards**, and document control of departmental documents policies.
- Developed and maintained **ISO documentation**, including process control documents such as SOPs, IBPs, OCPs, work standards, work instructions, and safety measures. Ensured documentation accuracy through regular review and updates.
- Conducted **Internal audits** for QMS and actively participated in various **Customer Audits/Third-party audits**, serving as the key point of contact for audits. Engaged in Management reviews and process/system audits, ensuring compliance with standards and regulations.
- Coordinated the **enterprise Kaizen program** by governing the complete **Kaizen lifecycle**, tracking implementation progress, validating closure status, and publishing management dashboards and reports for senior leadership. Facilitated cross-functional engagement to improve Kaizen participation, implementation discipline, and continuous improvement governance across business units.
- **Six Sigma Green Belt project** execution; Handling Six Sigma Project reporting.
- Prepared presentations for VP and Plant Head, showcasing complex information in a clear and concise manner. Also, oversaw Safety Activities ensuring compliance with EHS and OHSMS standards.
- **Delivered training on Quality Management System, Kaizen, and related topics**, ensuring that employees were equipped with the necessary skills and knowledge for process improvement. Also, regularly updated training material to reflect the latest industry practices and standards

Wipro Enterprise Pvt. Ltd. Amalner- Graduate Trainee

July 2017 to July 2018

- Demonstrated proficiency in performing **maintenance activities** in soap manufacturing, fatty acid, and glycerin plants, ensuring smooth operations and minimal downtime.
- Actively monitored and improved Mean Time To Repair (**MTTR**) and Mean Time Between Failures (**MTBF**) through focused Kaizen initiatives, enhancing equipment reliability and efficiency.
- Conducted hands-on field investigations on machine problems, applying analytical skills to identify **root causes** and implement effective solutions.
- Collaborated with engineering personnel to **resolve complex issues** in system operation and maintenance, demonstrating strong problem-solving abilities.
- Planned and coordinated **manufacturing projects**, ensuring timely execution and adherence to project schedules and budgets.
- Conducted various analyses, including Look-Listen-Feel Analysis and Why-Why Analysis in Preventive Maintenance, to identify and address underlying issues proactively.
- Recognized with the **Best Kaizen award** for successfully replacing existing tier coupling with pin bush type coupling, leading to significant downtime reduction.
- Assisted in managing staffing plans and work schedules, gaining valuable experience in supervisory activities.

- Participated in and faced **ISO Audits**, ensuring compliance with standards and maintaining accurate documentation of maintenance activities.
- Demonstrated a consistent record of high-performance standards, emphasizing attention to schedules, deadlines, budgets, and quality work.
- Contributed to **cost reduction** efforts by proactively participating in the procurement of items/materials required by the maintenance department.
- Identified loopholes in the existing Perfume Dosing System and contributed to the **design and installation** of a new system, incorporating learnings from past issues.
- Managed a project involving the storage of mixed fatty acids, including the shifting and installation of a 50kl tank, and upgraded the existing design for pumping and piping applications.
- Served as a core team member for **Six Sigma Green Belt projects** focused on reducing downtime during changeover activities, rejection reduction; demonstrating strong problem-solving and analytical skills.
- Led a project to overhaul a stamping machine IMSA, ensuring its optimal performance and reliability.

Royal Motors - Operations Associate

Jul 2014 - Feb 2015

- Implemented efficient **daily operations management** strategies, optimizing productivity and ensuring smooth workflow.
- Developed and implemented manpower **scheduling strategies**, ensuring adequate **staffing** levels to meet operational demands.
- Managed **inventory** effectively, minimizing stock shortages and ensuring timely replenishment.
- Maintained regular communication with customers, ensuring their **needs and expectations** were met effectively.
- Implemented process improvements to enhance operational efficiency and reduce costs.
- Conducted regular **performance evaluations** to assess operational effectiveness and identify areas for improvement.

➤ **Academic Details:**

Degree	Institution	Year	Score	Class
B.E. Mechanical Engineering	Savitribai Phule Pune University	2017	68.47%	Distinction
Diploma in Mechanical Engineering	MSBTE, Maharashtra	2013	78.27%	Distinction

➤ **Core Competencies:**

- Digital Transformation & Process Consulting
- Business Process Analysis & Process Mapping (AS-IS / TO-BE)
- Business Process Reengineering (BPR)
- Lean Six Sigma & Continuous Improvement
- Quality Management Systems (QMS) & Business Excellence framework
- Process Governance & Organizational Maturity Assessment
- Change Management
- Requirements Gathering & Stakeholder Management
- Data Analysis, KPI Design & Performance Reporting
- Process Automation & Workflow Optimization

➤ **Technical Skills:**

- Analytics: Excel (Advanced), Power BI, SQL, Python, Minitab
- Automation: VBA, Microsoft Power Platform (Power Automate, Power Apps), RPA
- Methodologies: Lean, Six Sigma, Agile, Scrum
- Process Tools: SIPOC, VSM, BPMN, Process Mapping, FMEA, Control Charts, 5 Why, Fishbone, 7 QC Tools, Poka-Yoke, 5S
