

Prasath Kumar

PROCESS EXCELLENCE MANAGER

Bengaluru, KA 560036 9042980319 prasathk790@gmail.com

Process Excellence Manager at ACKO and Lean Six Sigma Black Belt with 9 years of experience in Operational Excellence, Process Improvement, Compliance, and Payments Operations. Proven track record of delivering measurable results through DMAIC, VSM, and FMEA, improving response time by 30% and increasing operational efficiency by 25%. Strong expertise in payments and compliance (SWIFT, AML, KYC, OFAC) and experience in Accounts Payable automation, audit frameworks, and AI-driven process optimization. Skilled in driving risk controls, standardization, and continuous improvement initiatives while leading teams and training 250+ associates across global operations. Seeking to drive enterprise-scale operational transformation and process excellence.

SKILLS

Lean Six Sigma Black Belt

DMAIC

Value Stream Mapping (VSM)

FMEA

Root Cause Analysis (RCA)

SOP Design & Governance

SWIFT Operations

AML / KYC / OFAC Compliance

Process Automation

AI Prompt Engineering

Stakeholder Management

WORK HISTORY

Process Excellence Manager

May 2026 – Present

Founding Years Learning Solution (KLAY Preschools & Daycare), Bengaluru, India

- Own end-to-end Incident and Escalation Management for the South region (and Incident Management pan-India (120 centers)), driving Investigation Quality Review, Root Cause Analysis (RCA), and Corrective and Preventive Action (CAPA) tracking against defined SLA and TAT norms.
- Led a structured gap-analysis review of the Incident Management process across the center network, partnering with cross-functional stakeholders to identify process breakdowns and deliver findings to senior leadership.
- Authored and drove stakeholder sign-off on pan-India Standard Operating Procedures, including a parent vaccination-declaration and indemnity SOP and a referral-reward fast-track processing SOP, aligning teams across Operations, Finance, and Marketing.
- Built standardized Excel-based reporting frameworks tracking escalation and incident metrics (per-100-enrollment rates, TAT compliance, CAPA closure) across regions, cities, and centers, replacing manual data dumps with structured, insight-driven reporting.
- Designed a standardized incident-investigation documentation framework, from fact-finding questionnaires through final investigation reports, adopted network-wide for consistent, audit-ready reporting.
- Designed and launched a repair & maintenance ticketing system piloted across 60 centers in the South region, featuring role-based access control, standardized issue categorization with criticality scoring, automated TAT calculation, and a configurable escalation matrix — eliminating manual, spreadsheet-based tracking.

Process Excellence Manager*Acko General Insurance, Bengaluru, India*

- Conducted end-to-end process analysis of the Procure-to-Pay (P2P) lifecycle, identified gaps in finance approval workflows, and implemented automated Google Sheets solutions with trigger-based tracking, reducing manual follow-ups by 40% and strengthening process governance and KPIs.
- Led and mentored a team of 4 Process Excellence specialists, driving business transformation initiatives, managing continuous improvement projects, and tracking performance metrics aligned with organizational objectives.
- Delivered significant cost avoidance by developing an internal Inventory Management System using AI-driven prompt engineering, eliminating dependency on legacy/external tools.
- Led Value Stream Mapping (VSM) initiatives across ACKO Drive service centers to identify operational bottlenecks, improve repair lifecycle TAT, and enhance service delivery efficiency.
- Designed and implemented end-to-end SOPs for after-hours services, enabling operational continuity, audit readiness, and quality assurance compliance.
- Strengthened operational governance through process documentation, internal controls, and risk mitigation strategies aligned with business and compliance requirements.
- Conducted manpower analysis and defined minimum headcount requirements; implemented zoning and cross-zone dynamic workforce allocation, reducing 11 headcount across top 8 zones and improving productivity by 10%.

Senior Compliance Associate

May 2020 – Nov 2025

Amazon, Bengaluru, India

- Built frameworks to promote a culture of continuous improvement across operations; trained and mentored 250+ team members on Lean Six Sigma and Yellow Belt projects using AI tools like ChatGPT and Gemini.
- Led automation projects using AI insights, prompt engineering, and workflow automation, reducing manual work by 35 minutes per associate per day and enabling FTE optimization.
- Developed a Python-based automated communication tool to send auto-responses and close cases, improving resolution time and delivering about \$800,000 in annual cost savings.
- Delivered 8 Lean process improvement projects using DMAIC methodology and AI-supported data analysis, improving seller response time by 30% and increasing overall operational efficiency by 25%.
- Designed and implemented an internal audit framework to standardize decision-making across 7 global products, improving quality control and ensuring SLA compliance.
- Led Value Stream Mapping initiatives to identify process bottlenecks, improve workflow efficiency, and enhance service delivery performance.
- Performed data analysis using Excel, internal tools, and AI-based insights to identify defect trends; applied FMEA risk assessment across operations in 12 countries, improving process quality and reliability.

ICICI Bank, Bengaluru, India

- Managed SWIFT communications and international transactions with Nostro/Vostro banks, ensuring regulatory compliance, transaction accuracy, and operational efficiency.
- Performed end-to-end compliance checks including AML, OFAC, KYC/CIP, and BSA using tools like World-Check to identify risks and strengthen internal controls.
- Maintained audit-ready documentation and conducted QA reviews on transaction files; coached team members on compliance standards and process adherence.
- Tracked funds from Nostro accounts within defined SLAs, ensuring compliance with FEMA and RBI regulatory guidelines for all transactions.
- Prepared Management Information (MI) reports on financial crime risks and monitored contract-certainty processes to ensure quality control and governance.
