- Process & Transformation: Process Improvement | Risk-Control Automation | BRD | UAT | Functional Testing | Process Standardization | Knowledge Transfer
- Leadership & Stakeholders: Team Leadership | 1LOD / Risk / Compliance / Technology / Product Collaboration | Stakeholder Management | Training & Mentoring

PROFESSIONAL EXPERIENCE

BNY Mellon (I) Pvt. Ltd. | Pune

VP – Operational Risk & Reporting | 2024 – 2026

OPERATIONAL RISK & REPORTING

- Performed advanced post-submission validation and analysis to identify and resolve issues related to regulatory reporting.
- Prepared and submitted complex non-financial regulatory reports, ensuring accuracy, completeness and timeliness.
- Acted as a key coordination point for partner units on reporting exceptions, discrepancies and clarifications.
- Collaborated with Risk, Compliance, Technology and Product teams to support integrated reporting solutions and resolve operational issues.
- Supported governance forums by preparing status updates, reporting materials, issue summaries and management information.
- Supported internal and external audits through detailed analysis, documentation and evidence preparation.

OPERATIONAL RISK EVENT (ORE) REVIEWS

- Performed detailed ORE reviews covering source documentation, control failures, root causes, impact assessment, corrective actions and supporting evidence.
- Supported Risk Management Platform (RMP) activities, including review of risk-event data, reporting outputs, event status, documentation and control-related information.
- Reviewed ORE rejection trends, identified recurring issues and root causes, and recommended process improvements to reduce recurring deficiencies.
- Supported RCSA and risk-control reviews by evaluating key processes, identifying control points and linking control activities with operational risk events.
- Worked closely with First Line of Defence (1LOD) teams to review risk events, challenge control-related documentation and ensure appropriate remediation actions were identified.
- Prepared and reviewed management reports covering operational risk events, control effectiveness, rejection trends, process exceptions and improvement opportunities.
- Provided training and knowledge transfer on ORE reviews, source-document assessment and control review processes.

RISK-CONTROL AUTOMATION / TRANSFORMATION

- Supported automation of a risk-management checklist using an AI agent to reduce manual effort and improve review consistency.
- Prepared BRD requirements for automation of ORE source-documentation review.
- Completed UAT testing for the RMP application and translated business requirements for technology teams.

BNY Mellon (I) Pvt. Ltd. | Pune

Specialist – Operational Risk & Reporting | 2021 – 2024

- Supported operational risk and control activities across Securities Services, including risk identification, control reviews, RCSA and operational risk reporting.
- Performed analysis of operational risk events, reviewing control failures, root causes, impacts and corrective actions.
- Monitored risk indicators and operational risk trends, escalating issues and supporting remediation activities.
- Coordinated with Risk, Compliance and business stakeholders on risk reviews, governance requirements and operational issues.
- Supported regulatory and non-financial regulatory reporting through data validation, exception analysis and stakeholder coordination.
- Contributed to risk governance reporting, management information and process-improvement initiatives.

BNY Mellon (I) Pvt. Ltd. | Pune

Team Leader – Fund Accounting (US Market) | 2015 – 2021

- Led Fund Accounting operations for the US market, overseeing day-to-day delivery, reconciliations, operational controls and stakeholder requirements.
- Performed cash, portfolio and capital-activity reconciliations and investigated exceptions to support accurate and timely fund accounting.
- Identified operational risk areas, developed process controls to mitigate identified risks, and monitored KRIs with action plans for threshold breaches.
- Maintained KRIs and implemented action plans when thresholds were exceeded, supporting proactive risk management.
- Reviewed NAV packages, investor allocations, management fees and carried-interest calculations across month-end and quarter-end activities.
- Prepared daily, weekly and monthly management information and performed data-quality analysis with timely escalation of issues.
- Led process-improvement initiatives including BRD preparation, functional testing, cost-benefit analysis and implementation coordination.
- Managed team performance, training and development while promoting process discipline and control awareness.

BNY Mellon (I) Pvt. Ltd. | Pune

Senior Analyst – Reference / Master Data Management – Fund Accounting | 2010 – 2015

- Managed reference-data activities supporting Fund Accounting, ensuring corporate actions and bond calls were updated and validated within required timelines.
- Performed data reconciliation and validation, assessed impact on NAV calculations and escalated discrepancies to responsible teams.
- Maintained KPI metrics, issue logs, exception logs and SOPs, supporting process control, issue escalation and action-plan tracking.
- Ensured daily checklist completion and supported audit requirements, stakeholder queries and issue resolution.
- Liaised with external vendors and internal stakeholders on data-related queries and operational exceptions.

BNY Mellon (I) Pvt. Ltd. | Pune

Analyst / SME – Corporate Actions (UK Market) | 2006 – 2010

- Managed Corporate Actions processing for the UK market, ensuring events were accurately and timely accounted for in accordance with established procedures.
- Processed SWIFT event declarations and payment confirmations received from sub-custodians and performed related client-account activities.
- Reconciled client positions against market positions and investigated cash and stock breaks, ensuring timely resolution.
- Processed UK Government Treasuries and supported trade settlement of money-market instruments and Treasury notes.
- Prepared daily, weekly and monthly management reports and resolved client queries relating to cash events and bond interest.

Gati Ltd. | Pune

Revenue Assurance Officer | 2004 – 2006

- Performed customer-account reconciliations, revenue assurance, MIS reporting and exception follow-up to support accurate financial processing.

Kelga Techno Sales Pvt. Ltd. | Pune

Junior Executive – Accounts | 2001 – 2002

- Handled accounts payable/receivable activities, vendor and customer reconciliations, bank reconciliations and financial reporting support.
