ORGANIZATIONAL EXPERIENCE

Since Aug '25 -Jan '26: (Altimetrik India) as Business Analyst (Wealth Management)

IPS (Investment Policy statement)

- Workflow Design: Mapped current-state vs. future-state workflows for client onboarding and IPS drafting, integrating risk tolerance, asset allocation, and liquidity requirements into a streamlined, automated system.
- User Stories & Backlog Grooming: Developed detailed user stories, acceptance criteria, and process models (UML, swimlane diagrams) for development teams to build dynamic IPS components covering asset allocation targets, investment constraints, and performance benchmarks.
- Data Analysis & Validation: Analyzed client portfolio data using SQL to ensure accurate data mapping from legacy systems to the new IPS application, improving reporting accuracy by 95%.
- UAT & Stakeholder Management: Led User Acceptance Testing (UAT) sessions with advisors to validate the tool against regulatory compliance (KYC/AML) requirements, reducing policy non-compliance risks.
- Cross-Functional Collaboration: Partnered with Product Owners and developers to prioritize the product backlog and enhance features for Portfolio Management, ensuring the application met the needs of high-net-worth individual (HNWI) clients.

Since Sep'23 -May 25: (Synechron Technologies) as Business Analyst

- Project: Finlabs Accelerator- Credit Memo (Leveraging AI to Improve Credit Memo Generation Process)
- Client: Finlabs
- Description: Credit memos summarize the comprehensive evaluation of the borrower's financial health and creditworthiness by the financial institution before extending a credit facility. Leveraging AI can automate data ingestion and improve the credit memo generation process. This will help financial institutions make informed decisions about approving loans and set appropriate terms and conditions for the loan.

12th from N. Wadia, (HSC Board), Pune in 2002 with 60%
10th from SBVDL Loni (SSC Board), Pune in 2000 with 79.6%
