EXPERIENCE

07/2024 - Current

Lead Business Analyst

Neurealm (Client: Northern Trust)- Chennai, India

- Improved clarity and accuracy by identifying reliable sources for reference data within enterprise data domain.
- Facilitated Collibra implementation of reference data code sets, validating processes from development through production.
- Developed efficient procedures enabling users to implement changes seamlessly.
- Created comprehensive **notification change documents** to keep users informed on updates.
- Engaged in **data taxonomy projects**, defining subdomains and business terms for diverse **asset classes in Collibra**.
- Analyzed both internal and external reference data to ensure adherence to regulatory requirements.

- **Crafted user stories in ADO**, maintaining oversight until successful implementation.
- Reference data is a **Risk control Enhancement project** which focuses on introducing new data sets to reduce data related risk in Capital Market Operations.
- Contributed to product backlog grooming sessions, effectively prioritizing tasks for streamlined execution.

12/2015 - 01/2024
