Domains	Healthcare, Pharmacy, Banking, Insurance, Food Delivery, Finance
Soft Skills	Stakeholder management, cross-team collaboration, coaching, client communication
Product Owner	Product Management, Product Roadmap, Product Delivery, CI/CD, Customer-Centric Thinking, Market Research, KPI Definition & Tracking

PROFESSIONAL EXPERIENCE

Scrum Master / Product Owner | **Genzeon Pvt Ltd** | Dec 2024 – Present

Domain: US Healthcare Technology | Project: Medrio (Clinical Data Management System)

- Led backlog refinement and sprint planning for a clinical EDC/CDMS platform serving pharma, biotech, and medtech clients, ensuring regulatory compliance and quality data capture.
- Utilized Microsoft M365 Copilot for user story definition, acceptance criteria authoring, and functional test case generation, reducing story-writing time significantly.
- Coordinated with cross-functional teams across the US and India to align sprint deliverables with product roadmap milestones.
- Conducted regular UAT sessions and client demos; performed GAP analysis to drive continuous product alignment.
- Used Azure DevOps for product backlog management, sprint planning, user-story tracking, task assignment, dependency management, and delivery progress tracking across distributed Agile teams.

Scrum Master / Product Owner | **Motivity Labs Pvt Ltd** | Jun 2024 – Sep 2024

Domain: Banking / AI-Surveillance | Projects: IVIS & VMS

- Managed product backlog and sprint cycles for an AI-enabled e-surveillance system deployed across 2,000+ ATM sites for a major public sector bank.
- Facilitated requirements sessions with stakeholders to define features including real-time alerting, AI facial recognition, and cloud-based incident analytics.
- Leveraged AI assistants in Rally to accelerate feature creation and dependency tracking across distributed teams.
- Worked with Azure cloud environments including Azure App Services, Azure Functions, Azure Storage, Azure APIs and Azure DevOps to support cloud-based product delivery and integrations

Scrum Master / Product Owner | Khumbu Information Systems | Jun 2023 – Jun 2024

Domain: Food Tech / Restaurant Integrations | Projects: UberEats Integration & Multi-platform POS

- Owned the product backlog for large-scale Uber Eats integrations serving Subway, KFC, Chipotle, Burger King, and 10+ other global restaurant partners across US, Australia, New Zealand, and EMEA.
- Defined two-way integration requirements for POS, Loyalty, CRM, Delivery, and In-House restaurant tech stacks; created detailed user stories with clear acceptance criteria.
- Produced UML and activity diagrams to visualize system workflows; facilitated stakeholder alignment on complex multi-vendor integrations.

Scrum Master | Altimetrik (Client: Walgreens) | Mar 2018 – May 2023

Domain: Pharmacy / Healthcare | US Omnichannel Pharmacy Platform

- Served as Scrum Master for 5+ years on Walgreens' omnichannel pharmacy platform serving ~8 million customers daily, supporting physical and digital prescription, health, and wellness services.
- Guided non-agile teams through Agile transformation, resulting in a 40% increase in delivery efficiency.
- Established communication channels across teams and stakeholders, improving project productivity by 30%.
- Conducted sprint reviews, daily standups, backlog grooming, and retrospectives; managed JIRA board with clearly prioritized epics and stories.
- Facilitated CI/CD adoption across multiple projects and supported defect control and configuration management within the delivery pipeline.

Scrum Master | TCS (Client: Tata AIA Insurance) | Apr 2017 – Feb 2018

Domain: Life Insurance / Financial Services

- Facilitated Agile ceremonies for a life insurance platform managing 39M+ individual policies and 16M+ group insurance members across Asia.
- Translated business requirements into functional requirements; conducted stakeholder interviews to develop BRDs.

Software Test Engineer | iTrust Soft Solutions | Jan 2013 – Mar 2017

- Performed manual and automation testing using Core Java, Selenium, Maven, JUnit, and REST API testing across multiple enterprise projects.
- Supported regression testing, defect tracking, and configuration management within the delivery pipeline.
