

# RAHUL SHRIVASTAVA

Engineering Manager

+91-8971850427

rahmahesh@gmail.com

Bengaluru, 560077, Karnataka

Pursue a leadership opportunity in Cloud Data Engineering to architect scalable enterprise data platforms, optimize big-data ecosystems, and drive end-to-end data transformation initiatives, leveraging over 14 years of expertise in AWS, Hadoop, ETL pipelines, Snowflake, and data warehousing to accelerate innovation, operational excellence, and business value delivery.

## EDUCATION

- **B.E. in Electronics & Communication Engineering** from Rajiv Gandhi Pradyogiki Vishwavidyalaya (RGPV), Bhopal, Madhya Pradesh  
Jun 2007 – Jul 2011

## CORE COMPETENCIES

Cloud Data Engineering

Big Data Technology Management

ETL Pipeline Architecture

Data Warehousing & Data Lake Design

Hadoop Administration

DevOps & CI/CD Automation

Production Support & Monitoring

Project Planning & Delivery Management

## TECHNICAL SKILLS

- ☉ AWS
- ☉ S3
- ☉ EC2
- ☉ EMR
- ☉ Spark
- ☉ Pyspark
- ☉ Redshift
- ☉ Athena
- ☉ Glue
- ☉ Lambda
- ☉ IAM
- ☉ SQS
- ☉ SNS
- ☉ Cloud Data Watch
- ☉ ETL Data pipeline
- ☉ Data Engineering
- ☉ Data Analytics
- ☉ Data Warehousing
- ☉ Data lake
- ☉ Lakehouse
- ☉ Delta Lake
- ☉ Snowflake
- ☉ Terraform
- ☉ Jenkins
- ☉ CI/CD Pipeline
- ☉ Airflow
- ☉ GCP
- ☉ Cloudera
- ☉ Hadoop

## PROFILE SUMMARY

- ☉ Cloud Data Engineering leader with over 14 years of experience delivering scalable enterprise data platforms across AWS and hybrid infrastructures.
- ☉ Specialized in modern data ecosystems including Data Lakes, Lakehouse, Snowflake, Redshift, and Hadoop technologies.
- ☉ Strong track record in driving cloud migration, data modernization, and analytics enablement initiatives for large-scale organizations.
- ☉ Expertise in architecting end-to-end ETL pipelines, automation frameworks, and cost-efficient cloud solutions.
- ☉ Displayed leadership in managing large engineering teams and ensuring delivery excellence, SLA adherence, and production stability.
- ☉ Collaborative stakeholder partner with focus on aligning data strategy to business outcomes and digital transformation goals.

## CAREER TIMELINE

## WORK EXPERIENCE

### Commonwealth Bank of Australia, Bengaluru | Engineering Manager – Cloud Data Engineering | Feb'21 – Present

#### Key Result Areas:

- ☉ Leading a cross-functional project team of over 15 engineers while steering end-to-end design, build, deployment & optimization of cloud-native data solutions across AWS & hybrid infrastructures.
- ☉ Implementing highly scalable ETL and data ingestion pipelines using Redshift, Glue, Airflow, Azure and Terraform, ensuring robust automation across CI/CD ecosystems.
- ☉ Governing 1.56 lakh production jobs through Autosys, ensuring seamless orchestration, process continuity, and adherence to SLA/KPI thresholds.
- ☉ Managing data warehousing, data lake & lakehouse architectures (Snowflake, Redshift, Delta Lake) to maximize data accuracy, accessibility & analytical efficiency.
- ☉ Driving infra provisioning, performance monitoring & resource optimization across S3, EC2, EMR, IAM, Lambda, Athena, Spark, HDFS & YARN powered ecosystems.
- ☉ Overseeing hiring, onboarding, capability development, performance appraisals, goal calibration & mentoring, enhancing unit productivity and role alignment.

#### Key Highlights:

- ☉ Built the project from ground zero planning, talent acquisition, development cycles, go-live and operational support, ensuring zero disruption during transition.
- ☉ Provided strategic advisory to Service Managers & IT Commercial Leaders, ensuring feasibility and alignment between SLAs, financial targets & service outcomes.
- ☉ Consolidating and reviewing KPIs and SLO compliance reports to drive business-aligned service quality and operational excellence.
- ☉ Strengthened process resilience using real-time monitoring dashboards (CloudWatch / Grafana), improving early risk detection and job recovery time.

- Yarn
- Hive
- Spark
- H Base
- SQL
- Autosys
- Grafana
- Alteryx
- Tableau
- Python

## ACHIEVEMENTS

Certified Snowflake- SnowPro Core Certification, S0027560

AWS Certified Solutions Architect Associate

AWS Certified Data Engineer Associate

Trained on Hadoop – Bigdata, JP Morgan Service Pvt. Ltd.

Trained on Unravel tool for Big Data Jobs Optimization and performance tuning, FIS

## FIS Global Business Solution, Bengaluru | Senior Engineer – Big Data Engineering Aug'19 – Feb'21

### Key Result Areas:

- Managed Cloudera-based Hadoop environments & AWS deployments, architecting stable and scalable big-data ecosystems.
- Performed commissioning/decommissioning of nodes, cluster performance tuning, critical alerts monitoring & backup automation to ensure infra stability.
- Administered Hadoop ecosystem components including Hive, Impala, Spark, Sqoop, HBase, Oozie, Zookeeper & Journal Nodes for reliable end-to-end workload management.

### Key Highlights:

- Executed CDH upgrades & maintenance ensuring high availability and minimal downtime throughout the lifecycle.
- Leveraged ETL and AWS-driven archival & purge processes to enhance capacity planning and storage efficiency.
- Used R-Studio for operational analytics, strengthening insights on resource consumption & cluster health.

## JP Morgan & Chase Bank, Bengaluru | Associate Engineer – Big Data – GTI Sept'14 – Jul'19

### Key Result Areas:

- Delivered Hadoop cluster setup, configuration & operational management using Cloudera distribution, securing uninterrupted data pipeline execution.
- Monitored critical job alerts & high availability parameters for 24x7 platform health and workload stability.

### Key Highlights:

- Executed CDH upgrades & maintenance cycles, ensuring performance continuity across business workloads.
- Enhanced cluster efficiency through performance tuning of Hadoop jobs, optimizing resource utilization.

## Accenture Services Pvt. Ltd., Bengaluru | Linux Administrator | Mar'13 – Aug'14

### Key Result Areas:

- Managed Linux server administration, infra configuration & system monitoring, supporting smooth data-center operations.

### Key Highlights:

- Delivered incident resolution & service continuity, ensuring minimal downtime across critical enterprise workloads.

## HP Service India Pvt. Ltd., Bengaluru | Data Center Operator – Linux Admin Oct'11 – Mar'13

### Key Result Areas:

- Provided data-center support for Linux environments, focusing on scheduled operations, infra monitoring & ticket management.

### Key Highlights:

- Executed routine system checks & server performance reviews, maintaining operational consistency across client environments.

## PERSONAL DETAILS

**Date of Birth:** 3<sup>rd</sup> Sep 1987

**Languages Known:** English, Hindi

**Address:** F 104, Purva Palm Beach Bangalore. 560077
