Professional Summary

Commercially minded **Program Manager** and PMP-certified project leader with **12+ years** driving end-to-end product and technology delivery across global enterprise organisations. Proven ability to **define product vision, build multi-year roadmaps, translate business needs into technical specifications**, and shepherd products from ideation through launch. Experienced in **cross-functional stakeholder management**, Agile/Scrum ceremonies, SDLC, and data-driven product iteration. At Genpact, championed **Gen AI and Agentic AI pilot programs** and automated product reporting ecosystems delivering **40% efficiency gains**. Adept at working with engineering, design, and commercial teams to build products that create real user value — bringing the same focus on **innovation, roadmap governance, and market alignment** that Aristocrat Technologies demands of its Product Managers.

Core Competencies

- Roadmap Ownership & Program Vision
- Product/Project Requirements & Specifications
- Agile / Scrum / Sprint Planning
- Cross-functional Stakeholder Management
- Business Case & Cost-Benefit Analysis
- SDLC & Technical Product Delivery
- Gen AI & Agentic AI Product Programs
- C-Suite executive reporting
- Vendor, Partner & Commercial Management

Professional Experience

Program Manager — Genpact
Delhi, India

July 2022 – Present

- **Defined and owned Project/product delivery roadmaps** for enterprise IT transformation programs across global clients — driving scope definition, milestone planning, and feature prioritisation.
- **Identified, championed, and delivered pilot Gen AI and Agentic AI product opportunities**, acting as the bridge between business stakeholders and engineering teams to translate innovation concepts into production-ready solutions.
- **Translated complex business requirements into clear product specifications and user stories**, enabling engineering teams to design and ship solutions aligned with client outcomes and SLA commitments.
- Led **Agile/Scrum ceremonies** — sprint planning, backlog grooming, retrospectives, and product reviews — achieving an improvement in sprint velocity and delivery predictability across cross-functional teams.
- Acted as the **key liaison between business units, solution architects, and engineering teams**, facilitating product planning workshops, roadmap alignment sessions, and trade-off discussions.
- Designed and deployed a **Smartsheet-based product reporting and analytics framework**, reducing manual reporting effort by **40%** and enabling real-time product health visibility for C-suite stakeholders.
- Managed **RAID logs, change control, and risk trade-off decisions** across concurrent product portfolios, ensuring **100% SLA adherence** and zero critical escalations over 3 consecutive years.
- Facilitated **UAT, go-live planning, and hypercare**, coordinating cross-functional readiness and driving post-launch product iteration based on user feedback and performance data.

Senior Project Manager — YASH Technologies
India

2020 – 2022

- Managed a **portfolio of digital transformation product initiatives**, overseeing **20+ engineers and consultants** across distributed global teams and aligning delivery with commercial product targets.
- **Developed product plans, WBS, and feature prioritisation frameworks**; monitored KPIs and produced executive-level product status reports driving data-driven decisions.
- Championed **Agile-Waterfall hybrid delivery**, achieving **on-time delivery rates exceeding 95%** while maintaining product quality and stakeholder satisfaction.

- Led **SOW negotiations and third-party vendor management**, ensuring partner accountability for product deliverables and SLA compliance.

Project Manager — *HCL Technologies Pvt. Ltd.*
India

2015 – 2020

- Delivered **large-scale IT product and infrastructure programs** for global enterprise clients, managing the full **SDLC** from requirements gathering and solution design through production deployment.
- Led a team of **30+ technical resources**, driving output through OKR alignment, structured 1:1s, and career development frameworks.
- Designed **product governance and change management models**, reducing scope creep by **25%** and improving delivery quality across concurrent product lines.
- Partnered with engineering and commercial teams to **prioritise feature roadmaps**, resolve technical blockers, and align product milestones with quarterly business targets.

Incident Manager — **24x7 Service Delivery & SLA Management** — *HCL Technologies Pvt. Ltd.* *India* 2013 – 2015

- Managed **P1/P2 incident lifecycle** for enterprise clients, reducing **MTTR by 35%** through ITIL-aligned process standardisation and cross-team coordination.
- Established **incident protocols and post-incident review practices**, cutting recurring incidents by **20%** over 18 months and presenting RCA findings to client stakeholders.

Key Achievements

- Delivered **12+ enterprise product and transformation programs** across career with consistent on-time, within-budget outcomes.
- **Championed Gen AI and Agentic AI product pilots** at Genpact — identified opportunities, built business cases, and drove delivery from concept to live deployment.
- Reduced operational overhead by **40%** through product-led automation of reporting dashboards using Smartsheet.
- Achieved **100% SLA compliance** across all client product portfolios at Genpact over **3 consecutive years**.
- Earned **dual certifications (PMP + CSM)**, demonstrating mastery of both structured and Agile product delivery disciplines.

Education

Executive MBA — Delhi Technological University (Formerly DCE), Delhi

2019 – 2021
2008 – 2012

B.Tech, Electrical, Electronics & Communications Engineering — Amity University
