Appreciation From Business Users:

 Horváth László	Rajendra, you provided support for Europe Consol, D-commerce and Cash Forecasting Anaplan models in the beginning of F24. Those months were quite intense due to Penzance changes, yearly rollover and general questions / defects. You were always very helpful and supportive and did your best to solve any issue coming into or way as soon as possible by supporting Anaplan data team, Penzance project team and also me as product owner. Thank you for your support.	 Józsa Bence	Throughout the fiscal, I had the opportunity to collaborate with Rajendra on several occasions. I was consistently pleased with his work during these interactions. He responded promptly and efficiently to tasks assigned, demonstrating a high level of responsiveness and productivity.
 Edoardo Trotta	Rajendra demonstrate to be a great support for different issue I had with Anaplan, he relentlessly tried to find a solution or direct me to the right people. Even though I had great urgency to solve the issue Rajendra managed the situation with great calm and professionalism. Thanks to his expertise I am able to work on Anaplan on a regular basis and meet my deadlines.	 Sandeep Kumar	Hi Rajendra has been very proactive and supportive whenever there was a need for the Anaplan Data Team. He is been always first point of contact to address or provide solution to IBP models issues. He also been very attentive to all the issues and supported the team by working till late night until the issues are fixed. His positive attitude towards work and healthy bond always been there throughout the year which has delighted the stakeholders by receiving the good quality of data in their respective models on time. We would like to thank you him for all the support from the entire Anaplan Data team. Regards, Sandeep Kumar
Feedback Hi Rajendra, I really appreciated all your support that you provided in case of the Anaplan CSR tool. APAC market noted that something went wrong with the tool and data upload is not working in several cases. You were assigned to the defect and quickly investigated the root cause. Proactively contacted the business user and solved the issue in a proper way. On top of the above anytime when I had an Anaplan related question (user access related, system setup related or other things) you were always happy to help me. It was really easy to work with. Keep up the good work and looking forward working with you again in FY24. Tamas	Hi Rajendra, Thank you for supporting us in all the BAU issue which we raised and providing the resolution. Your are very much approachable and we can reach out to you whenever there is any urgent issue. Your support in performing monthly switchover on timely manner is very much helpful to complete the loads on priority. It would be very helpful for future if you gain more process knowledge which will help you to resolve the issue quickly and also work on long term fix would be highly appreciated. Thanks, Manjunath S G.	 NISCHITHA Ramesh	Rajendra's reliability and hard work have been commendable, and I appreciate his dedication to the tasks assigned to him. However, I have noticed a slight lack of ownership in certain areas, and I believe addressing this will help him reach even greater heights and I also acknowledge noticing improvements over period of time with few feedbacks. Overall very good asset to the team.
 Józsa Bence	Hi Rajendra, I really like working with you as you are always open for any question or issue, you answer instantly, always available for any sort of issue, you have a profound knowledge about the system we use.
