WORK EXPERIENCE – INVESTMENT OPERATIONS

Senior Manager | State street, Coimbatore

Jun 2015- Sep 2025

Operations & Domain Leadership

- Managed end-to-end **fund accounting and pre-NAV operations**, including trade validation, cash processing, pricing, income accruals, and portfolio valuation across multiple asset classes
- Performed NAV review and validation checks, ensured accuracy of pricing, accruals and cash positions prior to final NAV release
- Ensured **accurate and timely NAV release** through effective exception management and cross-functional coordination
- Led Institutional Investor Services covering **mutual fund operations, income processing, securities lending, collateral management, and portfolio valuation**

Reconciliation & Break Resolution

- Oversaw **cash and position reconciliations**, investigated breaks, and ensured timely resolution within defined SLAs
- Co-ordinated with **corporate action** teams to validate events including dividends, splits, and income distributions ensuring accurate accounting impact
- Performed dividend and interest reconciliation with broker/custodian reports

Controls, Risk & Audit

- Implemented robust control framework (4-eye checks, quality reviews) ensuring high accuracy in NAV and reporting
- Acted as Audit SPOC (M&T controls) ensuring compliance with internal and external audit requirements
- Conducted root cause analysis on operational issues and implemented corrective/preventive actions
- Ensured all processes are aligned with regulatory and risk management standards

Leadership & People Management

- Led and managed a **team of analysts and associates and managers**, ensuring delivery against SLAs and quality benchmarks
- Conducted **performance reviews, coaching, and development planning**
- Managed **workforce planning, shift allocation, and capacity management** to support business continuity
- Acted as escalation point for operational issues and stakeholder queries

Stakeholder & Client Management

- Collaborated with **global clients, custodians, and internal stakeholders** to resolve complex operational issues
- Prepared and presented **MIS reports (weekly/monthly)** covering SLA performance, risk metrics, and operational updates
- Built strong client relationships through effective communication and issue resolution

Change Management & Process Improvement

- Supported **process transitions, system enhancements, and client onboarding initiatives**
- Led initiatives to **improve operational efficiency, reduce errors, and enhance turnaround times**
- Maintained **SOPs, SLAs, and process documentation** aligned with governance standards
