Bhandup (W), Mumbai, Maharashtra | +91 9004808744 | ravik.gorp@gmail.com

PROFESSIONAL SUMMARY

Securities Operations and Middle Office professional with 3+ years of experience at State Street Services, a leading global custodian bank. Promoted from Associate I to Associate II based on consistent performance. Specialized expertise in daily cash, stock, and custody reconciliation; ABS and MBS Principal & Interest reconciliation; trade lifecycle management; and corporate actions processing across global equities and fixed income markets. Proven ability to investigate and resolve aged breaks, conduct root cause analysis, and maintain data integrity in high-volume, SLA-driven environments. Proficient in Bloomberg Terminal, TLM, CAM/OSA, DTCC, IDS, MDS, and PLM.

CORE COMPETENCIES

- Cash, Stock & Custody Reconciliation
- Principal & Interest Reconciliation (ABS/MBS)
- Two-Way & Break Investigation
- Trade Lifecycle & Settlement Processing
- Corporate Actions
- Income Processing (Dividends, Coupons)
- Market Claims Management
- Operational Risk Management
- Root Cause Analysis
- MIS & Exception Reporting
- Static Data Maintenance
- Multi-Currency Portfolio Monitoring
- SLA & Deadline Management
- Data Validation & Integrity

PROFESSIONAL EXPERIENCE

Securities Operations Analyst – Middle Office | **State Street Services Pvt. Ltd.** | Mumbai, India *Feb 2022 – Mar 2025*

Promoted: Associate I → Associate II based on consistent performance and operational excellence.

Reconciliation & Income Processing

- Executed daily two-way cash, stock, and custody reconciliations across multiple portfolios; maintained aged breaks through systematic break investigation and root cause analysis.
- Managed Principal & Interest (P&I) reconciliation for Asset-Backed Securities (ABS) and Mortgage-Backed Securities (MBS), ensuring accurate cash flow tracking and allocation.
- Processed dividend and coupon income events using Bloomberg Terminal, DTCC, IDS, and MDS platforms, validating payment calculations and ensuring timely client crediting.
- Monitored TRR and WTX on multi-currency portfolios; applied accurate accounting adjustments for foreign exchange movements.
- Managed trade settlements for global equities and fixed income securities; identified and resolved settlement failures to minimize client exposure and avoid penalties.
- Coordinated claims management for missed income entitlements, working with custodians to ensure timely resolution of dividend and coupon claims.
- Maintained security and operational static data with a strong focus on accuracy, control, and data integrity.
- Ensured accurate income booking and raised market claims for missed entitlements across dividend and coupon income events.

Control, Reporting & Stakeholder Coordination

- Prepared daily, weekly, and monthly MIS reports and exception reports for senior management and audit reviews, providing visibility into operational metrics and break statuses.
- Partnered with cross-functional teams across EMEA and US Operations under rotational shift schedules to resolve breaks and improve process efficiency.
- Ensured strict adherence to internal controls, SLA frameworks, and operational risk policies in a high-volume, deadline-driven environment.
- Coordinated with internal teams, and external counterparties to resolve operational issues and prevent recurrence.
