

RAVIKANTH PENDYALA

Pricing & Billing | Project Manager • Business Analyst • Test Lead

Platforms: VisionPLUS | TSYS Prime & TS2 | HPS PowerCARD | GBS / ORMB

9494061219 | ravikanth.pendyala@gmail.com | PRINCE2 Practitioner | PSM I | ITIL Foundation

PROFESSIONAL SUMMARY

Accomplished Project Manager, Business Analyst, and Test Lead with over 15+ years of extensive experience delivering large-scale transformation, core platform migration, and regulatory programs across the Cards & Payments domain. Proven track record managing end-to-end project lifecycles, Agile/Scrum and Waterfall deliveries, requirements elicitation (BRD/FRD), business process re-engineering, scheme compliance (Visa/Mastercard/3DS), and enterprise SIT/UAT execution. Expert in bridging business strategy with technical delivery, stakeholder governance, RAID management, vendor coordination, and zero-defect production rollouts.

CORE COMPETENCIES

- Project & Delivery Management: Agile • Waterfall Delivery • Scope, Schedule & Budget Management • RAID Governance • Sprint Planning & Capacity Management • Resource & Vendor Management • Stakeholder Governance • Production Readiness & Cutover Execution
- Business Analysis: Requirements Elicitation • BRD / FRD • User Stories & Acceptance Criteria • Process Mapping (As-Is / To-Be) • Gap & Impact Analysis • Backlog Grooming • Solution Validation • Requirement Traceability Matrix (RTM)
- Cards & Payments Domain: VisionPLUS • TSYS Prime • TSYS TS2 • HPS PowerCARD • Core Banking Integration • 3DS In-App Security • Visa/Mastercard Scheme Mandates • ISO 20022 & SEPA Compliance • Tokenization • Pricing & Billing (GBS/ORMB)
- Quality & Test Leadership: Test Strategy & Planning • SIT / UAT / E2E Testing • Platform Migration QA • Defect Lifecycle Management • Test Governance • Disaster Recovery (DR) Drills

PRINCE2®

PROFESSIONAL EXPERIENCE

CSI Global – Senior Business Analyst, HSBC APAC | Feb 2025 – Present

- Role Focus: Business Analysis & Solutions Engineering
- Partner with global product owners and technology teams for the HSBC Malaysia Billing & Pricing (DNAD) program to deliver pricing models and settlement frameworks.
- Review Incoming Request (IR) documentation, facilitate elicitation sessions, and conduct comprehensive upstream/downstream impact analysis.
- Configure, define, and maintain Rate Cards, automated pricing rules, and billing workflows in alignment with enterprise architecture.
- Author functional specifications (FRD) and lead Malaysian 3DS In-App security implementation, coordinating scheme certification and compliance with Visa/Mastercard mandates.
- Bridge business and QA teams by defining E2E test scenarios, driving defect triage, and managing production readiness governance.

Optimum Info Systems – Business Analyst, DBS | Mar 2023 – Aug 2024

- Role Focus: Agile Business Analysis & Migration Delivery
- Functioned as core Business Analyst for the strategic core platform migration from VisionPLUS to HPS PowerCARD across Credit, Debit, and Prepaid card portfolios.
- Collaborated with Product Owners and Solution Architects to refine user stories, establish acceptance criteria, and prioritize sprint backlogs.
- Facilitated sprint ceremonies, monitored sprint velocity and burndown metrics, and resolved blockers across multi-functional delivery teams.
- Coordinated SIT, UAT, and scheme certification test suites to validate requirement traceability and mitigate functional drift before cutover.
- Partnered with release and operations teams to establish cutover checkpoints and post-go-live stabilization.

Go Live Faster / Zentest – Project Manager & QA Lead, UMB Kansas | Dec 2021 – Feb 2023

- Role Focus: Project Management & QA Leadership
- Commanded a 26-member cross-functional project and testing team across DEV validation, System Integration Testing (SIT), and Options Testing streams.
- Directed the end-to-end migration lifecycle from Fiserv to TSYS TS2, delivering the program on schedule with zero business disruption.

PRINCE2®

- Managed cross-border stakeholder alignment, capacity planning, daily status reporting, and onshore/offshore resource optimization.
- Formulated the cutover readiness strategy, overseeing go-live runbooks, weekend migration execution, and production smoke tests.

SRIT – Project Manager, ICICI Bank | Jan 2021 – Nov 2021

- Role Focus: Project Delivery & Platform Operations
- Managed project delivery, change initiatives, and BAU support releases for the enterprise TSYS Prime Cards ecosystem.
- Controlled scope, release schedules, and risk logs for regular release cycles and complex change requests (CRs).
- Led weekly stakeholder governance forums, reporting on project progress, defect aging, service level agreements (SLAs), and risk mitigation plans.
- Coordinated middleware, card management, and core banking teams to align integration dependencies, conduct DR drills, and secure release approvals.

ValueLabs – Project Manager, ADIB UAE | Dec 2018 – Dec 2020

- Role Focus: Project Management & Channel Solutions
- Managed cross-channel delivery projects encompassing ATM (NCR), TCR (Diebold), Ambit Teller, and Credit Card integration enhancements.
- Supervised end-to-end project roadmaps, vendor contracts, and resource allocations while managing stakeholder expectations across business and IT units.
- Evaluated ITSM change requests, tracked critical path milestones, and conducted RAID reviews to maintain timeline adherence.
- Spearheaded user acceptance testing governance and sign-off processes for critical banking channel releases.

Verinite – Project Manager | Nov 2017 – Nov 2018

- Role Focus: Project Delivery & Cards Consulting
- Directed client engagements and program workstreams for Cards & Payments transformation and platform upgrade initiatives.
- Structured project charters, defined resource allocation matrices, and tracked deliverables against agreed SLAs.
- Orchestrated collaboration between business teams and technical vendors to ensure solution designs satisfied regulatory and card scheme standards.
- Managed delivery risks, scope changes, and executive steering committee status presentations.

PRINCE2®

Cognizant – Senior Test Lead | Sep 2009 – Nov 2017

- Role Focus: Test Leadership & Quality Governance
- Led comprehensive QA programs for Cards & Payments transformation programs, including major TSYS Prime to VisionPLUS card migrations.
- Formulated Master Test Plans, test estimation models, and execution frameworks for Credit Card migration, regulatory mandates, and BAU projects.
- Facilitated requirement walkthroughs, managed requirement traceability matrices (RTM), and coordinated Visa/Mastercard certification mandates.
- Oversaw defect management life cycles, defect triage meetings, and provided daily executive QA dashboard metrics across onshore/offshore models.

Capgemini – Senior Test Lead | Mar 2006 – Sep 2009

- Role Focus: Test Lead & System Validation
- Managed end-to-end SIT and UAT delivery cycles for core TSYS Prime implementations and version upgrades.
- Established daily defect tracking, status reporting, and resource management across the hybrid onshore-offshore model.
- Validated batch processing, transaction authorizations, and clearing/settlement test scenarios.

Notable Projects:

Client / Account	Project Scope	Platform	Role Delivered	Key Highlights
HSBC	3DS In-App / Pricing & Billing	VisionPLUS, GBS, ORMB, Broadcom	Business Analyst	Led 3DS scheme certification and automated billing configurations.
DBS	Card Portfolio Migration	VisionPLUS to HPS PowerCARD	Business Analyst	Delivered Credit/Debit/Prepaid migration with agile backlog ownership.
UMB Kansas	Core Credit Card Migration	Fiserv to TSYS TS2	Project Manager / QA Lead	Led 26-member team; executed zero-defect cutover.

PRINCE2®

ICICI Bank	Core Cards Platform Support & CRs	TSYS Prime	Project Manager	Governed release management, SLAs, and cross-channel delivery.
ADIB UAE	Channel & Teller Transformation	NCR, Diebold, Ambit, Cards	Project Manager	Delivered multi-channel banking enhancements and vendor governance.
Barclays	Enterprise Migration Program	TSYS Prime to VisionPLUS	Senior Test Lead	Directed SIT/UAT testing, scheme mandates, and production readiness.
TSYS Card Tech	Product Launch & Enhancements	TSYS Prime 2 / 3	Senior Test Lead	Validated core card platform features, scheme
