PROFESSIONAL EXPERIENCE

Senior Business Analyst — Incube8 Engineering, Pune, Maharashtra | Client - Nedbank | Jan 2024 – Aug 2026 -

- Gather and analyze business requirements and prepare BRD, FRD, User Stories, Use Cases, and process flow diagrams.
- Collaborate with stakeholders, Compliance, Forex, and Payment Operations teams to define payment processing and regulatory requirements.
- Perform data mapping and gap analysis for SWIFT MT101 and MT103 payment messages and support integration with Payment Gateway systems.
- Analyze APIs using Swagger and coordinate integrations with Customer Information System (CIS), Forex, Compliance Screening, OTP Gateway, and SWIFT/BIC lookup services.
- Support AML, Sanctions Screening, and regulatory compliance requirements for international payments.
- Facilitate SIT and UAT, prepare test scenarios, validate defects, and obtain business sign-offs.
- Participate in Agile ceremonies, requirement walkthroughs, stakeholder discussions, and change management activities.
- Contribute to improving payment processing efficiency, reducing transaction failures, and enhancing STP rates.

Business Analyst — VSM Infotech Pvt Ltd, Bengaluru, Karnataka | Client - ACLEDA Bank | Feb 2018 – Dec 2023

- Worked as a Business Analyst on a Digital Loan Origination System (LOS), automating the end-to-end loan application process for Personal, Vehicle, Home, and Business Loans.
- Gathered and analyzed business requirements and prepared BRD/FRD, User Stories, Use Cases, and process flows.
- Collaborated with Credit, Risk, Compliance, Operations, and IT teams to define lending rules and regulatory requirements.
- Supported integrations with Customer Information System, Credit Bureau, KYC, AML, Fraud Detection, Bank Statement Analysis, and Core Banking systems.
- Performed API analysis, data mapping, UAT coordination, defect management, and stakeholder communication to support loan processing, approval, and disbursement workflows.

KEY PROJECTS

Remittance Application – Cross-Border Payments | Senior Business Analyst | Jan 2024 – Present

Worked on a cross-border Remittance Application for Nedbank of South Africa, enabling secure international money transfers. Supported payment processing, SWIFT message mapping, compliance screening, API integrations, SIT/UAT, and regulatory requirements.

Digital Loan Origination System (LOS) | Business Analyst | Feb 2018 – Dec 2023

Worked on a digital LOS supporting Personal, Vehicle, Home, and Business Loans. Supported lending rules, compliance requirements, KYC/AML integrations, credit bureau integration, fraud detection, bank statement analysis, UAT, and end-to-end loan workflows.
