

REENA NAVIN MANE

PROCESS EXCELLENCE MANAGER | LEAN SIX SIGMA BLACK BELT | PROCESS ENGINEERING & CONTINUOUS IMPROVEMENT

Pune, India | 9764054500 | reena.mane19@gmail.com

PROFESSIONAL SUMMARY

Process Excellence and Lean Six Sigma professional with 15+ years of experience across process consulting, business excellence, quality assurance, process discovery, continuous improvement and transformation. Certified Lean Six Sigma Black Belt with hands-on experience building LSS capability, delivering Yellow Belt and Green Belt programmes, mentoring improvement projects, facilitating practitioner communities, and applying structured problem-solving methods including DMAIC, RCA, 5 Why, FMEA, Pareto analysis and Value Stream Mapping. Experienced in stakeholder facilitation, business process modelling, analytics, automation opportunities and cross-functional transformation across global corporate and client environments.

SELECTED CAREER HIGHLIGHTS

- Trained 500+ practitioners across Lean Six Sigma Yellow Belt and Green Belt programmes and mentored 50+ improvement projects through certification.
- Delivered quarterly Yellow Belt and biannual Green Belt programmes across 4 corporate accounts, training 30–35 practitioners per batch.
- Established and facilitated Lean Six Sigma communities and forums engaging 200+ practitioners and senior leaders.
- Led regional Process Excellence CoE activities and supported global stakeholder engagement across multiple client environments.
- Delivered process improvement initiatives including a 50% reduction in document delivery time, 18% reduction in reporting errors, and automation delivering 7 FTE cost savings.
- Strong exposure to process discovery, process modelling, requirements elicitation, data analysis, quality systems, process transition and automation.

PROFESSIONAL EXPERIENCE

CAPGEMINI | Jun 2024 – Present

Manager – Centre of Excellence

- Lead a regional Centre of Excellence for Process Excellence, managing small-to-medium initiatives from initiation through closure using Waterfall, Iterative and Agile approaches.
- Deliver quarterly Lean Six Sigma Yellow Belt and biannual Green Belt programmes across 4 corporate accounts; train 30–35 practitioners per batch and mentor improvement projects through certification.
- Build and facilitate Lean Six Sigma communities and forums, engaging 200+ practitioners and senior leaders through continuous improvement, retrospectives, data storytelling and advanced quality sessions.
- Conduct Starfish Retrospection and Data Storytelling workshops for senior stakeholders to strengthen structured problem-solving, engagement and continuous improvement culture.

- Deliver advanced quality training on Root Cause Analysis and FMEA and support adoption of structured problem-solving practices.
- Develop workplans, manage interdependencies and communicate project risks and delivery status to senior management.
- Lead and drive industrialization projects for i-SPRINT, a Capgemini initiative, and participate in the NIQR Six Sigma Contest.

TATA COMMUNICATIONS LTD. | Oct 2018 – May 2024

Assistant Manager – Business Excellence

- Led business excellence and process improvement initiatives for global client environments, including development of quality frameworks and strategic process improvement plans.
- Redesigned process flows using Lean practices and delivered Yellow Belt and Green Belt programmes across 2 client accounts, mentoring practitioners through certification.
- Consulted with stakeholders on improvement plans, project execution and assessment; established improvement infrastructure and acted as a technical spokesperson for business project teams.
- Developed benchmarks, analytics and performance metrics to support client decision-making and continuous improvement.
- Implemented continuous improvement and best-practice initiatives that reduced required document delivery time by 50%.
- Led pre- and post-implementation assessment of improvement opportunities, increasing workflow efficiency and reducing overall cycle time.
- Created SOPs, process maps and control documentation; monitored KPIs and supported quality-system improvements using Poka-Yoke, on-the-job training and statistical analysis.
- Facilitated stakeholder and customer requirement workshops, using structured questioning to elicit detailed business needs and translate them into process and functional documentation.
- Created use cases, activity diagrams, sequence diagrams and data dictionaries; owned end-to-end project documentation and process transition.
- Led and managed Business Analysts supporting business process development and process improvement initiatives.
- Managed cross-functional teams, performed 5 Why and FMEA analysis, identified automation opportunities, and contributed to regional process-unification and transformation programmes.
- Provided Lean Six Sigma training and mentoring across organisational levels.

MAERSK GLOBAL SERVICE CENTRE | May 2017 – Oct 2018

Senior Process Expert

- Analysed business operations to identify inefficiencies, modelled processes and worked with stakeholders and clients to document goals and improvement requirements.
- Developed KPI and process-evolution reporting to support operational decision-making and performance management.
- Performed advanced statistical analysis to identify bottlenecks and improvement opportunities.
- Created QlikView and SAP BusinessObjects reports to communicate complex data and improve management visibility; automated reporting and achieved an 18% reduction in reporting errors.
- Documented business processes and operating procedures and supported process monitoring and improvement initiatives.

WNS GLOBAL SERVICES LTD. | Jan 2006 – May 2017

Assistant Manager – Business Excellence

- Developed and maintained quality plans, process policies and quality systems; managed process compliance and SLA audits.
- Applied 5 Why and Pareto analysis to identify root causes and improvement opportunities.
- Created Work Instruction Manuals (WIMs), process maps and training modules.
- Rolled out Lean Six Sigma capability-building programmes across 5 client accounts through practitioner training, project mentoring and continuous improvement practices.
- Drove best-practice sharing and idea generation, compiled business-performance reports and coordinated audit data for ISO requirements.
- Managed team performance, targets and compliance with organisational policies and supported operational improvement initiatives.

SIX SIGMA TECHNOLOGY PVT. LTD. | Aug 2005 – Dec 2005

Accounts Assistant

- Managed petty cash and maintained accounts in Tally 6.3.

SQTL, VYOM LABS PVT. LTD. | May 2005 – Jul 2005

Counsellor / Administrator

- Handled enquiry reports, daily cash collection, correspondence and telephonic/walk-in enquiries.

SELECTED TRANSFORMATION & AUTOMATION PROJECTS

- Process unification across regions to streamline operations, enhance collaboration and standardise service delivery.
- One-stop solution for Remedy and Nova tickets by consolidating ticketing systems and simplifying workflows.
- RPA automation of manual and repetitive activities, generating cost savings equivalent to 7 FTEs.
- Automation of the Maersk CRVR process covering cargo readiness and vessel reconciliation activities.
- Integration of data sources and systems to automate fuel-consumption ETL into a Mainframe application, reducing labour effort.
- Automation of SAP procurement reports and MS Access productivity, resource-utilisation and performance reporting.
- Quality Check sample-size calculator to support statistically appropriate sampling and interpretation.
- Automation of British Airways flight-cancellation activity in WINBABS.

EDUCATION
