CAREER OBJECTIVE

Business Analyst with 12 years of overall BFSI experience and 7+ years of relevant BA experience in AML, KYC, and Payments. Strong expertise in requirements elicitation, BRD, FRD, user Stories, RTM, and Agile/Waterfall methodologies. Proven experience in UAT coordination, defect management, and stakeholder collaboration to deliver compliant, business-aligned solutions. Backed by deep banking operations and compliance knowledge with a strong analytical and process-driven approach.

PROFILE SUMMARY

- In-depth knowledge of **SDLC** in Waterfall and Agile.
- Proficient in Waterfall Model with **BRD, FRD, SRS, RACI Matrix, UML Diagrams**, Prototypes, **RTM**, and UAT Handling.
- Expert in Agile Scrum with **User Stories, Acceptance Criteria, BV, CP, Sprint Backlogs, DoR and DoD**.
- Strong banking operations, payments processing, and customer onboarding experience.
- Deep exposure to **AML, KYC, fraud monitoring, EDD**, and compliance Reporting.

PROJECTS

TCS | Business Process Lead | Feb 2023 – Feb 2026

Role: Business Analyst

Project: TM Monitoring Enhancements – MUFG Bank (US) | Agile

Project Description: Enhanced AML Transaction Monitoring by optimizing alerts and compliance screening for effective suspicious activity detection.

- Gathered and validated business requirements; created user stories, acceptance criteria, and managed the product backlog in JIRA.
- Prioritized requirements using **MoSCoW** and **FURPS**; collaborated on **BV, CP, DoR, and DoD** for Agile sprint planning.
- Participated in Sprint Planning, Daily Stand-ups, Reviews, and Retrospectives to ensure successful Agile delivery.
- Supported **PEP, Sanctions, and Adverse Media** integrations, alert risk scoring, and threshold tuning for improved AML monitoring.
- Trained and supervised a team of **8 QC analysts** and managed complex alert reviews and QC escalations.

ARTIFACTS

BRD, FRD, User Stories, Acceptance Criteria, RTM (Requirements Traceability Matrix), UML Diagrams, Process Flow Diagrams, Wireframes / Mockups, Use Cases, Stakeholder Coordination, RACI Matrix.

Project: AML Case Management & QC Process Optimizations – MUFG Bank (US) | Agile

Role: Business Analyst

Project Description: Optimized AML case management and QC processes to improve investigation efficiency and regulatory compliance.

- Gathered and documented business requirements; created **user stories** with acceptance criteria for AML case management and QC workflows.
- Prioritized requirements using **MoSCoW** and managed the sprint backlog in **JIRA** with the Product Owner and Scrum Master.
- Validated the end-to-end AML case lifecycle during **UAT**, ensuring compliance with regulatory and internal AML policies.
- Supported QC case allocation and workload management to improve review efficiency and SLA adherence.
- Provided quality feedback, resolved process gaps, and improved investigation accuracy while reducing rework.

Kotak Mahindra Bank | Manager | Sept 2017 – Oct 2022

Role: Business Analyst

Project: Digital Account Opening System | Waterfall

Project Description: Implemented a digital onboarding platform to automate KYC and streamline account opening.

- Conducted **Enterprise Analysis**, Business Case, Stakeholder Analysis, and prepared the **RACI Matrix**.
- Gathered and documented requirements; prepared **BRD, FRD, and supported SRS** with technical teams.
- Created **UML diagrams, wireframes, and process flows** using **MS Visio, Balsamiq, and Axure**.
- Maintained **RTM**, coordinated **UAT**, and obtained business sign-off for successful implementation.
- Managed banking operations, led a team of **12+ associates**, and supported **client onboarding and KYC compliance**.

Project: Domestic Payments Systems Enhancements (NEFT/RTGS/Card Ecosystem) | Waterfall

Role: Business Analyst

Project Description: Enhanced NEFT, RTGS, and card payment systems to improve transaction processing, STP, and regulatory compliance.

- Conducted **Enterprise Analysis**, Business Case, Stakeholder Analysis, and prepared the **RACI Matrix** for payment system enhancements.

- Gathered and documented **BRD/FRD** for **NEFT, RTGS, and card payment** workflows; collaborated with technology teams on solution design.
- Analyzed the end-to-end payment lifecycle, including **authorization, clearing, settlement, reconciliation, and exception handling**.
- Created **UML diagrams**, maintained **RTM**, and supported **UAT**, defect analysis, and payment validation.
- Supported **SWIFT** payment message validation, payment operations, and ensured **RBI regulatory compliance** across transaction processing.

Yes Bank: Role: Senior Analyst | May 2015 – Aug 2017

- Managed **transaction banking** operations and payment processing.
- Performed **KYC verification** and ensured compliance adherence.

Axis Bank: Role: Analyst | May 2013 – May 2015

- Handled account operations and transaction processing.
