Certification in Computer Networking – BSNL

PROFESSIONAL EXPERIENCE

Product Owner | HARMAN (Acquired By Wipro), Bengaluru | July 2021 – Present

- Own end to end product lifecycle management, driving feature ideation, roadmap planning & delivery across UK Healthcare domain regulated by NHS and in compliance with UK GDPR.
- Define and execute Product Strategy and Roadmap aligned with business goals and market needs for FHIR based products serving NHS Shared Care Record using HL7 standard framework.
- Serving as the primary liaison between business stakeholders, scrum teams and content build/UI-UX teams, translating strategic business needs into actionable Epics, Features, User Stories and Acceptance Criteria (GWTs).
- Leading agile transformations, managing product backlog, sprint backlog, backlog grooming and prioritization using MoSCoW framework and release management to ensure high quality deliveries.
- Driving stakeholder alignment and engagement, delivering product demos, gathering actionable feedback and influencing decision making at executive levels.
- Orchestrating release management in collaboration with RTEs, ensuring timely and error free product launches, including the NHS NIMS platform for vaccination services.
- Partnering with UI/UX and QA teams to optimize design workflows, test coverage and ensure exceptional product quality and user experience.
- Conducting business process analysis, identifying operational gaps and implementing process improvements, resulting in enhanced efficiency and reduced rework.
- Implement GenAI & Agentic AI driven automation using JIRA RoVo AI to streamline workflows, work items and reporting.
- Leading initiatives showcased at global company events, demonstrating innovation and strategic product impact.

Product Analyst | SAPIENS, Bengaluru | April 2020 – July 2021

- Gathered, analyzed and prioritized business requirements for new product initiatives, ensuring alignment with strategic objectives and regulatory standards.
- Contributed to Product Discovery and MVP development for digital insurance solutions.
- Played a key role in the successful launch of first Digital Motor Insurance in Croatia, overseeing end to end process from requirements to delivery.
- Designed requirement traceability matrices (RTM) to ensure comprehensive coverage of features and business objectives.
- Collaborated with cross-functional teams to streamline workflows, reduce operational bottlenecks and improve product adoption.

Quality Analyst | TATA Consultancy Services, Bengaluru | July 2016 – April 2020

- Executed comprehensive testing strategies including Functional, Integration, Regression, Smoke & Sanity and UAT Testing for Banking and US Mortgages domain.
- Designed robust test scenarios and cases to ensure product quality and reliability.
- Validated APIs using SoapUI and ensured accurate WSDL based service functionality.
- Collaborated with development teams to enhance product quality, reduce defects and accelerate release timelines.
- Developed domain expertise in Banking, US Mortgages and Loans, contributing to more accurate testing, requirements analysis and stakeholder satisfaction.
