

ROASHNI ADARI

Senior Business Analyst | Data Governance Lead | Collibra SME | Data Steward

Hyderabad, Telangana, India | +91 7660979031 | roashni21@gmail.com | [linkedin.com/in/roashni-adari](https://www.linkedin.com/in/roashni-adari)

Notice Period: Serving (LWD 14 Aug 2026) • Open to: Hyderabad | Bengaluru | Chennai | Pune | Remote • Contract / Permanent

CAREER SNAPSHOT

- ◆ 7 years 7 months of total IT experience; 5+ years specialising in Collibra, Data Governance, and Business Analysis.
- ◆ 4+ years as Collibra SME on a Fortune-500 banking account (Royal Bank of Canada via TCS) — the flagship data governance engagement.
- ◆ Slashed executive reporting time by 87% and root-cause analysis time by 60% through Collibra lineage architecture + Power BI automation.
- ◆ End-to-end delivery owner: requirements elicitation → BRD/FRD/SRD → Agile backlog → UAT → production sign-off; 100% UAT coverage on high-visibility releases.
- ◆ Regulatory fluency across GDPR and CCPA; applied to data risk mapping for M&A due diligence at enterprise scale.
- ◆ Proven communicator across C-suite, compliance teams, and offshore delivery squads in fast-paced Agile environments.

CORE COMPETENCIES

Collibra Platform	Data Catalog · Business Glossary · Data Lineage · Data Quality & Rule Config · Operating Model Design · Asset Model Configuration · Workflow Design
Data Governance	Critical Data Elements (CDEs) · Data Stewardship · Data Dictionaries · Data Ownership Frameworks · Compliance Mapping (GDPR / CCPA) · M&A; Data Risk
Business Analysis	BRD / FRD / SRD · Gap Analysis · As-Is / To-Be Mapping · JAD Workshops · User Stories · Traceability Matrix · UAT Planning & Execution · Defect Mgmt (Jira)
Agile / Delivery	Scrum (Stand-ups · Sprint Planning · Backlog Grooming · Retros) · Kanban · Confluence · Cross-functional Stakeholder Management
Analytics & Reporting	SQL (MySQL – joins, stored procedures, query optimisation) · Power BI (Data Modelling, DAX, Executive Dashboards) · Advanced Excel · Lucidchart · ERD / DFD
Adjacent Tools	LeanIX APM · JIRA · Confluence · SharePoint

PROFESSIONAL EXPERIENCE

Senior Business Analyst / Data Governance Lead – Collibra SME

Sep 2022 – Present

Tata Consultancy Services (TCS) | Client: Royal Bank of Canada (RBC) | Hyderabad, India

- **Collibra Platform Ownership:** Served as primary Collibra SME for RBC's enterprise data governance programme — configured asset models, business glossaries, data quality rules, lineage flows, and operating model governance across 5+ business units.
- **Lineage Architecture:** Architected end-to-end lineage paths, ingestion streams, and metadata dependency maps in Collibra, cutting critical-data root-cause analysis time by 60%.
- **Executive Reporting Automation:** Designed SQL-driven Power BI dashboards eliminating manual reconciliation, reducing weekly status report prep from 4 hr 30 min to under 40 min — an 87% saving for senior leadership.
- **M&A Due Diligence:** Led data risk and compliance mapping for a major corporate acquisition; delivered real-time Collibra lineage maps that informed C-suite decisions and reduced financial exposure.
- **LeanIX APM Governance:** Audited 200+ LeanIX application FactSheets (ownership, lifecycles, architecture) and surfaced technology bottlenecks on C-level dashboards.
- **Regulatory Compliance:** Authored enterprise data dictionaries, data ownership frameworks, and GDPR/CCPA attribute mapping, establishing clear accountability across business units.
- **Business Analysis:** Translated BRDs/FRDs into Jira user stories, acceptance criteria, and UAT scripts; achieved 100% test-scenario coverage on all high-visibility production releases.
- **Process Optimisation:** Modelled As-Is/To-Be process flows in Lucidchart, removing operational friction and improving team delivery efficiency by 30%.
- **Stakeholder Governance:** Facilitated JAD workshops and glossary standardisation sessions across compliance, technology, and business units, reducing term duplication in downstream reporting.
- **Agile Delivery:** Drove sprint ceremonies (stand-ups, sprint planning, backlog grooming, retrospectives); maintained Confluence as single source of truth for requirements and runbooks.

Business Systems Analyst – Collibra & Data Strategy

Nov 2021 – Aug 2022

Integrated Personnel Services (TCS Third-Party Payroll) | Hyderabad, India

- **Collibra Data Quality Workflows:** Defined and oversaw automated data-quality validation workflows in Collibra for incoming data pipelines, cutting manual data-cleansing effort by 50%.
- **PII & Compliance Mapping:** Mapped sensitive PII, GDPR, and CCPA data attributes using Collibra asset models, reducing compliance exposure and enabling automated audit trails.
- **ERP Requirements:** Led cross-functional workshops to capture, draft, and finalise functional and non-functional requirements for an enterprise-wide ERP implementation.
- **BI Dashboards:** Designed real-time operational Power BI dashboards providing leadership continuous visibility into data governance compliance health and quality metrics.

Independent Data Governance Consultant

May 2021 – Oct 2021

Self-Employed | Remote

- Delivered freelance data reconciliation and governance consulting, optimising client data workflows and reporting accuracy.
- Completed advanced certifications in Business Analysis and Power BI data modelling to deepen governance-driven analytics expertise.

Python Developer & Data Analyst

Jun 2018 – Apr 2021

DigiPub Apex Covantage Pvt Ltd | Visakhapatnam, India

- Worked on Python-based backend scripts for data cleaning, ETL parsing, and validation as part of data delivery workflows.
- Managed high-volume data delivery for international publishers (Taylor & Francis, Thomson Reuters, National Library of Australia), consistently meeting and exceeding client SLAs.
- Maintained 99% accuracy delivery rating division-wide by authoring daily data-quality checklists and training junior analysts.
- Performed data validation, reconciliation, and quality checks across large structured datasets — a foundation that directly led to a career in Data Governance and Business Analysis.

KEY ACHIEVEMENTS AT A GLANCE

87%	Reduction in executive reporting prep time via SQL + Power BI automation
60%	Faster root-cause analysis through Collibra end-to-end lineage architecture
50%	Drop in manual data-cleansing effort via Collibra DQ workflow automation
30%	Improvement in team delivery efficiency from As-Is/To-Be process redesign
100%	UAT scenario coverage on all high-visibility production releases
200+	LeanIX FactSheets audited and mapped to C-level governance dashboards
5+	Business units aligned on standardised data governance terminology

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

2015 – 2018

Andhra University, Visakhapatnam

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- ◆ Business Analysis for Busy Professionals
- ◆ Data Analysis in Power BI – Microsoft
- ◆ Advanced SQL & Database Querying (self-directed, applied in production at RBC/TCS)
- ◆ Collibra Data Governance & Stewardship (on-the-job, 5+ years hands-on platform experience)

TOOLS & TECHNOLOGIES QUICK REFERENCE

Data Governance	Collibra (Catalog · Glossary · Lineage · DQ · Workflows) · LeanIX APM
Analytics	Power BI · DAX · Advanced Excel · SQL (MySQL)
BA & PM Tools	Jira · Confluence · Lucidchart · SharePoint
Methodology	Agile Scrum · Kanban · Waterfall · JAD Sessions
Compliance	GDPR · CCPA · CDEs · Data Stewardship Frameworks
