

ROHAN SINGH

Senior RPA Developer | **Power Automate** | **Automation Anywhere** | **Power Platform**

Ahmedabad / Bengaluru, India

Phone: +91 75748 62380 | Email: rohansingh7574@gmail.com

LinkedIn: linkedin.com/in/rohan-singh-613582203

PROFESSIONAL SUMMARY

Senior RPA Developer with 4+ years of experience delivering enterprise-grade automation solutions across **Banking, Financial Services, Healthcare, Telecom, and Engineering** domains. Strong expertise in **Microsoft Power Automate (Cloud & Desktop), Automation Anywhere (A360, IQ Bot, AARI), and Power Platform**. Proven experience in **end-to-end process automation, API integrations, unattended bots on Virtual Machines, AI Builder-based document processing, production deployments, and migration projects**. Adept at building secure, scalable, and compliant automation solutions aligned with business objectives.

CORE SKILLS

Robotic Process Automation (RPA) | Microsoft Power Automate (Cloud & Desktop) | Automation Anywhere A360 | IQ Bot | AARI | Power Platform | Dataverse | Copilot Studio | AI Builder | Banking & Financial Services Automation | Healthcare & Insurance Automation | REST APIs | JSON | XML | SFTP | Virtual Machines | Unattended Bots | Work Queues | Power BI | SQL | SQLite | UAT | SIT | Production Support | Hypercare | Agile | SDLC

PROFESSIONAL EXPERIENCE

Senior Software Engineer – RPA Developer | Ness Digital Engineering

Dec 2024 – Present | Project: Canadian Bank & Financial Services

- Automated end-to-end banking processes using **Power Automate Cloud flows** and **Power Automate Desktop**.
- Integrated automation with **SharePoint, Dataverse, Office 365, Dynamics 365, SQL** using **Power Platform connectors**.
- Designed and deployed **unattended RPA bots on Virtual Machines (VMs)** enabling secure 24x7 execution.
- Automated **legacy applications and emulators (PComm)** using **Power Automate Desktop UI automation**.
- Built **Copilot Studio (Power Virtual Agents)** chatbots integrated with **Power Automate** and **Microsoft Teams**.
- Implemented **AI Builder document processing models** reducing manual validation efforts.
- Developed **Power BI dashboards** to monitor automation performance, failures, and SLA compliance.
- Followed **Power Platform governance, security roles, and environment strategy** for compliant delivery.

Software Engineer – RPA Developer | Sunflower Solutions Pvt. Ltd

May 2023 – Nov 2024 | Domain: Healthcare & Insurance Automation

Waystar VOB Automation

- Automated **Verification of Benefits (VOB)** using **Power Automate Cloud flows** integrated with **Waystar insurance APIs**, reducing manual insurance verification by ~60%.

Cadwell Automation (ZinniaX Integration)

- Developed **Power Automate Desktop workflows** on **Virtual Machines** for **ZinniaX desktop application**.
- Automated secure **SFTP file downloads and transfers** using **Power Automate connectors**.

Cadwell JSON Extraction

- Automated healthcare data extraction and transformation into **structured JSON** using **Power Automate and PAD**.
- Integrated JSON outputs with **Cadwell systems** and downstream platforms.

Coding Bot

- Built **rule-based automation** using **APIs** to update labels and statuses.

Standard of Care Automation

- Automated patient and physician data retrieval using **Power Automate APIs** to evaluate eligibility and compliance.

Reader Pay Automation

- Automated doctor and surgeon compensation calculations using **Power Automate, Dataverse, and SQL**.

Responsibilities Across Projects

- Performed **process analysis, solution design, development, testing, UAT, and production deployment**.
- Provided **production support, issue resolution, optimization, and end-user training**.

Software Engineer – RPA Developer | Tecnoprism Pvt. Ltd

Mar 2022 – May 2023

- Designed and developed **Automation Anywhere bots** for enterprise processes.
- Executed **Automation Anywhere v11 to A360 migration projects**.
- Deployed bots in **UAT and Production** with extended **hypercare support**.

Python & Django Developer | Brainy Beams Technologies Pvt. Ltd

Jun 2021 – Mar 2022

- Developed backend components using **Python and Django**.
- Contributed to **Zacson Health & Fitness platform**.

EDUCATION

Master of Computer Applications (MCA) – Monark University

Bachelor of Computer Applications (BCA) – Gujarat University

CERTIFICATIONS

Automation Anywhere Master Certification

Automation Anywhere Advanced Certification

Python & Django Development – Brainy Beams Technologies

Python Certification – Coding Ninjas
