PROFESSIONAL EXPERIENCE

Transcom — Clearing and Settlement Associate

Mar 2026 – Present

- Strong understanding of Trade Life Cycle, Clearing, and Settlement processes.
- Monitor and process equity, fixed income, and corporate action-related settlements.
- Ensure timely settlement of trades through Euroclear and Clearstream platforms.
- Investigate and resolve settlement fails, unmatched trades, and cash or stock breaks.
- Reconcile cash and positions on a daily basis.
- Process free-of-payment (FOP) and delivery-versus-payment (DVP) instructions.
- Good analytical and problem-solving skills.
- Proficiency in Microsoft Excel and reporting tools.

State Street Associate 2 — Asset Servicing - NAM - Corporate Actions & Reconciliation

Aug 2022 – Feb 2026

- Processed 100+ mandatory and voluntary corporate actions monthly — mergers, stock splits, tender offers, buybacks, and dividends — across US & EMEA markets with 99.7% accuracy while meeting T+1/T+2 settlement deadlines in NAM Shift Support.
- Executed cash and stock position reconciliations, Trade Lifecycle management, identifying and resolving custody and accounting breaks between internal books and custodian records per T+1/T+2 settlement standards.
- Performed payment execution for cross-border settlements and corporate action proceeds; validated event pricing using Bloomberg, IDC.
- Delivered NAV and market value impact analysis for institutional fund clients, ensuring accurate and timely portfolio valuations in compliance with fund accounting standards.
- Ensured all reconciliation breaks in Cash & Stock are validated and justified for each calculated NAV.
- Oversee end-to-end fund operational workflows including cash & stock reconciliation, derivatives settlement, and NAV-impact validation.
- Ensure NAV-related deliverables meet defined SLAs with zero financial impact to the organization.
- Performed end-to-end NAV calculation and review for institutional funds across US & CAD markets.
- Documented errors identified during review stage and resolved recurring issues through training and root cause analysis.
- Managed the end-to-end trade lifecycle for Equity, Fixed Income, and Derivatives transactions, covering trade capture, trade enrichment, settlement, reconciliation, and exception management while ensuring adherence to market cut-offs and SLAs.
- Performed trade capture and trade enrichment by validating trade details, settlement instructions (SSI), counterparty information, security master data, and pricing attributes to ensure accurate downstream processing.
- Utilized SmartStream TLM (Transaction Lifecycle Management) to perform cash and stock reconciliations, investigate reconciliation breaks, conduct root cause analysis, and resolve exceptions to support seamless trade processing.
- Monitored and resolved trade processing and settlement exceptions, collaborating with custodians, brokers, and global operations teams to

minimize settlement fails and improve straight-through processing (STP) efficiency.

- Supported institutional fund operations through trade processing, NAV impact validation, corporate actions, reconciliation, and settlement controls, ensuring operational accuracy, regulatory compliance, and timely client deliverables.
-

SBG Traders — Accountant

Feb 2020 – Jul 2022

- Managed Accounts Receivable and customer billing.
- Processed invoices, multiple bank receipts, and payment updates.
- Performed bank reconciliation and debtor reconciliation.
- Prepared monthly financial summaries and maintained daily transaction records.
- Addressed customer queries and ensured timely issue resolution.
