

SANTHOSH K

santhoshkumaresan02@gmail.com | (+91) 8248145419 | chennai, India 600119

Summary

Highly accomplished and certified Quality Management Professional with over a decade of comprehensive experience driving Process Excellence, Quality Management Systems (QMS), and operational governance across IT, Engineering, and Manufacturing sectors. Proven track record of leveraging Lean Six Sigma Black Belt methodologies and ISO Lead Auditor credentials to streamline multi-million dollar account delivery, mitigate risk, and engineer high-impact business transformations. Adept at cross-functional leadership, quantitative statistical analysis via Minitab, and implementing robust Root Cause Analysis (RCA) frameworks to fuel continuous improvement.

Skills

- Quality Management Systems (QMS)
- ISO 9001:2015 (QMS)
- ISO 27001:2022 (Information Security)
- Audit Governance
- Risk Management
- Lean Six Sigma
- Value Stream Mapping
- DMAIC Methodology
- Continuous Improvement
- Process Automation
- Process Transformation
- SLA & KPI Management
- Root Cause Analysis (RCA)
- 7QC Tools
- 8D Methodology
- Measurement System Analysis (MSA)
- Statistical Process Control (SPC)
- FMEA (Failure Mode and Effects Analysis)
- Minitab (Statistical Analysis)
- Microsoft Visio (Process Mapping)

Experience

Wipro Limited | Chennai
Account Quality Manager
08/2025 - Current

- **Quality Governance:** Led quality governance and control monitoring for underwriting operations across global accounts, ensuring 100% alignment with strict client SLAs, regulatory mandates, and compliance standards.
- **QMS Deployment:** Formulated and deployed robust Quality Management Systems (QMS) across 4 high-value delivery accounts, driving a 100% adherence rate to service delivery standards.
- **Risk & Audit Management:** Executed 8 end-to-end risk assessments and compliance audits, designing corrective and preventive action (CAPA) plans that successfully mitigated vulnerabilities and achieved a 30% reduction in open audit findings.
- **Data-Driven Predictability:** Leveraged Minitab to execute 15 detailed process capability studies, boosting delivery predictability by 10% and optimizing key operational performance metrics
- **Process Automation:** Identified and implemented 5 strategic automation workflows, driving a 18% increase in process efficiency and capturing over 728 hours in annual productivity savings.
- **Six Sigma Training:** Designed and delivered 8 technical training sessions on Six Sigma principles and process governance, upskilling 60 stakeholders and fostering a continuous improvement culture.
- **Directed the end-to-end mobilization of LSS Belt programs, actively training and mentoring 50+ Green Belt and 120+ Yellow Belt candidates**

with an 85% certification pass rate.

- **Developed 10+ comprehensive LSS training modules and resources, standardizing the global curriculum across the organization.**
- **Certified Lean Six Sigma Black Belt, championing 8 cross-functional process excellence initiatives across 3 global regions, resulting in a 25% reduction in process cycle time and over \$1.2M in annualized cost savings.**
- **Cultivated a continuous improvement culture aligning operational workflows with LSS methodologies and ISO standards (ISO 9001:2015), achieving zero major non-conformances during external audits.**
- **Process Transformation:** Partnered with cross-functional teams to drive the structural transformation of BFSI mortgage processes via RCA-led insights and automation, slashing processing cycle times by 20%.
- **Defect Control Framework:** Standardized a rigorous governance model for enterprise defect tracking, enhancing cross-team accountability and successfully cutting defect leakage by 25% to 30%.

Meterology Data Private Limited | Mumbai
Associate Manager - Business Excellence
12/2022 - 07/2025

- **Enterprise Transformation:** Drove 5 enterprise-wide process transformation and governance initiatives, enhancing operational efficiency by 18% and establishing global standardization across business lines.
- **ISO Audit Leadership:** Directed 6 internal audit cycles under ISO 9001 and internal frameworks, achieving a 98% timely closure rate and maintaining 100% audit readiness.
- **Advanced Problem Solving:** Utilized Lean Six Sigma methodologies, Fishbone analysis, and 8D problem-solving techniques to isolate systemic quality issues, driving down overall defect rates by 20%.
- **Risk & Control Governance:** Conducted 10+ detailed process assessments and designed 4 compliance frameworks, reducing operational risk exposure by 35% and improving compliance maturity by 22% across business units.
- **Lean Cost Optimization:** Implemented 4 Lean Six Sigma projects and developed 6 strategic roadmaps, delivering \$100K in financial savings while stabilizing core processes.
- **Executive & Stakeholder Alignment:** Facilitated 10+ governance reviews with executive leadership to communicate quality trends, operational risks, and risk mitigation plans that strengthened organizational controls by 30%.
- **Governance Upskilling:** Conducted 14 targeted training sessions focused on effective process governance, upskilling over 120 stakeholders.

L&T Technology services | Bengaluru
Senior Engineer
12/2021 - 12/2022

- **Risk-Based Auditing & Compliance:** Executed 20+ risk-based internal audits and compliance assessments, identifying critical vulnerabilities and documenting corrective actions that improved control frameworks by 25%.
- **Process Engineering & Visio Mapping:** Engineered 30+ cross-functional process workflows and standard operating procedures (SOPs) using Microsoft Visio, effectively aligning complex delivery structures with industry best practices.
- **Proactive Risk Mitigation (FMEA):** Facilitated 15+ Failure Mode and Effects Analysis (FMEA) sessions with project teams, proactively identifying and mitigating critical process failure points to reduce operational risks by 30%.
- **Data-Driven Quality Dashboards:** Managed quantitative quality dashboards tracking delivery SLA health, customer satisfaction (CSAT) scores, and non-conformance metrics, boosting overall service stability by

18%.

- **Root Cause Analysis & Stability:** Led 35+ structured Root Cause Analysis (RCA) initiatives, reducing the recurrence of systemic issues by 40% while consistently meeting targeted quality objectives across multiple business units.
- **Leadership Reporting & Training:** Supported strategic leadership reporting by providing deep data insights into risk exposure and performance trends, while leading 10+ training sessions to enhance delivery team alignment with quality standards.

HCL Technologies | Madurai
Lead Engineer
12/2020 - 12/2021

- **Regulatory Alignment & Compliance:** Monitored evolving regulatory changes to align operational processes with strict quality standards, driving 100% compliance and audit readiness across multiple business units.
- **Process Standardization & Optimization:** Assessed key quality performance indicators across various projects, implementing standardized workflows that uncovered 4 distinct optimization opportunities and boosted efficiency.
- **Governance Reporting & Accountability:** Delivered data-driven reports on risk indicators, process effectiveness, and precise audit findings to senior leadership, ensuring complete accountability and closing compliance gaps.
- **Technical Mentorship & Upskilling:** Provided technical expertise and structured QA training to 6+ junior engineers, strengthening core team capabilities and accelerating project delivery timelines.

CASTFAB Engineering India Pvt Ltd |
Coimbatore
Engineer - Quality Assurance & QMS
10/2019 - 12/2020

- **QMS & Process Control:** Maintained the ISO 9001 quality management system and directed process control analysis across all operations, ensuring 100% compliance and elevating product quality standards.
- **Supplier Quality Governance:** Audited, certified, and evaluated critical supplier processes against technical specifications, reducing operational and material risk exposure by 30%..
- **Supply Chain Optimization:** Analyzed and optimized internal inventory workflows, driving a 15% increase in overall organization-wide supply chain efficiency.
- **Structured RCA & Leadership:** Led structured 8D and Root Cause Analysis (RCA) investigations while supervising QA personnel, boosting engineering and manufacturing first-time-right yield by 22%.
- **Continuous Improvement Execution:** Monitored corrective and preventive actions (CAPA) for long-term effectiveness, ensuring sustainable process stabilization and driving continuous improvement initiatives.

JS Auto Cast foundry India Pvt Ltd |
Coimbatore
Quality Inspector
11/2015 - 03/2019

- **Inspection Operations & Quality Control:** Conducted comprehensive incoming and outgoing material inspections and executed detailed quality checks, ensuring 100% regulatory adherence and zero-defect product releases.
- **Customer Dispute Resolution:** Created detailed 8D reports and executed swift Root Cause Analysis (RCA) to resolve customer complaints, boosting customer satisfaction parameters by 15%.
- **Audit Preparation & Compliance:** Assisted in rigorous external and internal quality audit preparations, systematically implementing corrective actions that enhanced overall compliance by 20%.
- **Training & Competency Development:** Developed targeted, single-topic instructional training guides that improved frontline training efficacy and

inspection accuracy by 25%.

Education

KTVR Knowledge Park For Engineering And Technology

B.Tech/B.E. - Mechanical

05/2015

Grade: 6.77/10

Projects

1. ISO 9001:2015 QMS implementation

Implemented ISO 9001:2015 QMS end-to-end, including documentation, training, audits, MRM, and certification.

Impact - Strengthened compliance framework and audit readiness

2. Reducing AHT in the contact center

Led a Lean Six Sigma project to reduce AHT by 20% through data analysis, workflow optimization, and training improvements.

Impact - Improved customer experience and process efficiency

3. Underwriting Due Diligence Process Optimization

Led a Lean Six Sigma project reducing AHT by 15-25% through data-driven workflow optimization, enhancing efficiency and customer experience.

Result: Reduced AHT by 20%, and Increased Productivity by 22%. FTE Capacity Gain: 14 FTEs

Impact - Cost optimization + operational efficiency + reduced process risk

Certifications

- CQI & IRCA Certified Lead Auditor in ISO 27001:2022 (CQI & IRCA Accredited)
- CQI & IRCA Certified Lead Auditor in ISO 9001:2015 (CQI & IRCA Accredited)
- Certified Black Belt - Lean Six Sigma (CPD Accredited - from AIGPE)
- Certified Minitab Expert (CPD Accredited - from AIGPE)
- Certified Process Improvement and Process Mapping Expert (Six Sigma Academy, Amsterdam)
