PROFESSIONAL EXPERIENCE

STATE STREET CORPORATE SERVICES MUMBAI PVT LTD. — Senior Manager | Aug 2018 – Sep 2025

- Led business analysis activities across investment banking and hedge fund operations transformation and digital modernization initiatives.
- Partnered with Front Office, Middle Office, Operations, Technology and Product teams to translate business objectives into functional and technical solutions.
- Facilitated stakeholder workshops for requirements gathering, business process analysis, solution discovery and validation.
- Prepared BRDs, FRDs, functional specifications, user stories and acceptance criteria for enterprise applications.
- Performed AS-IS / TO-BE analysis, gap analysis, impact analysis and dependency assessment to support process and system transformation.
- Analysed end-to-end business and system workflows, data flows, APIs and application integrations; defined business rules, functional requirements and process specifications to support technology delivery.
- Collaborated with Solution Architects, Developers, QA and Product Owners throughout the SDLC.
- Led sprint planning, backlog grooming, estimation and Agile ceremonies; coordinated SIT, UAT, production validation and defect management.
- Performed business analysis for hedge fund operations and reconciliation workflows, analysing end-to-end transaction flows, operational exceptions, data dependencies and system impacts and translating findings into functional requirements and process improvements.

- Supported hedge fund/client onboarding and transition activities, analysing operational requirements, process dependencies and data requirements across business and technology teams.
- Analysed hedge fund/client onboarding and transition requirements, mapping operational processes, data dependencies and system impacts across business and technology teams.
- Drove process improvements using data analysis, KPIs, dashboards and reporting, while supporting regulatory, compliance, audit and governance initiatives.
- Owned the end-to-end Product Ownership for a Fixed Income transformation project, driving requirements, stakeholder engagement, backlog prioritization, Agile delivery, UAT, and migration from Caliber to Geneva, while supporting FX, Equity, and Fixed Income products for 250+ global clients.
- Key initiatives included decommissioning inactive client administration and trade files, migration of a Middle Office legacy system to Geneva, and creation of a new vendor billing procedure.

COGNIZANT TECHNOLOGY SOLUTIONS — Team Manager | Aug 2014 – Jul 2018

- Led a 16-member L2 support team for US clients, maintaining 98% SLA adherence while driving UAT, change management and application improvements.
- Delivered automation and system enhancements, including RPA implementation and trade-capture optimization, reducing manual effort and operational cost.
- Configured SFTP / SWIFT connectivity for 40+ clients and supported dormant-account deactivation to strengthen application security.
- Led UAT and collaborated with client IT teams to optimize trade-capture settings and reduce processing errors.
- Managed change requests in JIRA and coordinated with development teams to improve application efficiency.

TATA CONSULTANCY SERVICES LTD. — Assistant Manager | Aug 2013 – Aug 2014

- Supervised a 20-member L2 support team and improved IntelliMatch auto-matching through rule configuration.
- Used SQL to troubleshoot file uploads and monitor automated jobs, reducing processing errors.
- Conducted UAT and manual reconciliation to validate high-volume transaction processing.
- Streamlined job scheduling in IntelliMatch Admin to reduce processing delays.
- Supported migration and ongoing monitoring of the IntelliMatch application, with responsibility for stakeholder management.

SAXO IT INDIA — Team Leader | Dec 2010 – Aug 2013

- Managed reconciliations for 25 NOSTRO accounts and equity positions, achieving 99% accuracy in coordination with prime brokers.
- Migrated equity and cash reconciliation activities from Excel to IntelliMatch, improving operational efficiency.
- Trained team members on FX and precious-metal trade verification and supported reduction of trade-booking errors.
- Identified process improvement opportunities and presented recommendations to onshore management.
- Led initiatives covering new equity reconciliation processes, auto-matching rules and cash-reconciliation efficiency.

COGNIZANT TECHNOLOGY SERVICES — Process Specialist | Oct 2007 – Oct 2010

- Developed SOPs and process maps for prime brokerage processes to improve operational clarity.
- Reconciled inter-system breaks for FX, equity options and cash trades and resolved issues within currency cut-off times.
- Collaborated with Middle Office and trade-support teams to resolve client queries.
- Processed non-STP FX trades through SWIFT confirmations, supporting reduction of discrepancies.

HCL TECHNOLOGIES LTD. — Senior Process Executive | Mar 2006 – Sep 2007

- Processed loans and syndications on Loan IQ, maintaining accurate daily loan-balance reporting across multiple currencies.
- Reconciled LS2 and KONDOR reports and resolved breaks in line with audit requirements.
- Updated cash rates including LIBOR and STIBOR in LS2 to support accurate loan processing.

JK AGRI-GENETICS LIMITED — Accounts & Administration | Earlier Experience

- Handled bookkeeping, Profit & Loss accounts, bank reconciliation, employee expenses, supplier reconciliation and audit coordination.
