PROFESSIONAL SUMMARY

Senior Functional Business Analyst with 12+ years of experience delivering business and regulatory transformation initiatives across Investment Banking, Capital Markets, Asset Management, and Financial Services. Experienced in collaborating with business and technology stakeholders to gather requirements, analyze business processes, prepare functional documentation, and support end-to-end solution delivery across Agile and Waterfall environments.

Strong functional expertise in Equities, Fixed Income, FX, Derivatives, Corporate Actions, Reference Data, Fund Accounting, NAV, Trade Lifecycle, Data Governance, and Regulatory Reporting. Proven ability to bridge business and technology teams by translating business needs into functional requirements, supporting solution design, coordinating UAT, and driving successful implementation of enterprise-wide transformation initiatives.

Experienced working with global stakeholders across EMEA, APAC, and North America, supporting strategic change initiatives through business analysis, process improvement, data governance, and functional testing.
