PROFESSIONAL EXPERIENCE

| Designation: Senior Executive | Role: SAP EWM Junior Consultant |

| Wipro Consumer Care & Lighting | April 2023 – Present |

- Performed configurations for **EWM warehouse structure**, ensuring seamless integration as per client's requirement.
- Managed end to end configuration of **inbound and outbound delivery processes** including goods receipt, **Putaway strategies**, goods issue, picking, packing and shipping.
- Set up of **RFC connections** and enhancements in RF device screens as per requirements of resources.
- Set up **storage type control POSC** and **storage bin creation** as per client requirement to optimize warehouse performance.
- Implemented **Putaway strategies** like FIFO, LIFO along with **bulk storage type** and **pallet storage type** to streamline warehouse operations.
- Configured and optimized **Cross docking** process ensuring compliance with client-specific requirements.
- Supported in **design and implementation** of **physical inventory process**, including cycle counting and periodic inventory.
- Configured **Warehouse Process Types (WPT)** and determined appropriate **warehouse task (WT)** and **warehouse order creation rules (WOGR)** to automate warehouse operations.
- Performed configurations for **Handling units and cutover activities**.
- Performed and supported configurations of **wave management** to group and process outbound deliveries efficiently based on delivery date, product type, location etc.
- Proficient in configuring and set up of **Packaging Specifications, warehouse process type determination, warehouse order creation rules (WOGR)** and **replenishment**.
- Gained extensive knowledge on **Data migration, EWM-QM Integration, EWM-PP Integration** and cross module integration with SAP MM, SD etc.

| Designation: Senior Executive | Role: SAP Support Consultant |

| Wipro Consumer Care & Lighting | April 2022 – April 2023 |

- Collaborate with end users to understand their issues. Collaborate with internal stakeholders and consultants from different SAP domains to resolve complex issues.
- Resolved tickets on **Inbound and outbound processes, warehouse tasks, batch management, storage bins, warehouse orders** and provide solutions etc.

- Regularly update ticket status in **JIRA**, ensuring all open tasks are addressed as per **SLA**.
- Maintained an internal document for the commonly occurring issues along with their solutions for faster resolution to improve productivity and efficiency.
- Produced weekly reports on number of tickets assigned, their statuses, and resolution timelines. Presented these reports to client and internal team members.

| Designation: Internship | Wipro Consumer Care & Lighting | Aug 2021 – Feb 2022

- Managed **Purchase** and **sales order processing**, ensuring accurate data entry and timely fulfillment of vendor & customer requirements.
- Collaborated with logistics teams to schedule deliveries, track shipments, and resolve delivery related issues promptly.
- Assisted in pricing & quotation updates and maintained records within the SAP ERP system.
- Developed and maintained **documentation** for **standard operating procedures** related to **sales and distribution processes**.
- Provided training and support to new users on SAP ERP functionalities.
- Supported the sales team by processing orders and maintaining accurate customer data in the SAP system.
- Generated weekly and monthly reports to provide insights about inventory levels.
- Collaborated with cross-functional teams to streamline processes and enhance operational efficiency.

| Designation: Production Planning & Control Engineer | Anusaya Auto Press Parts Pvt. Ltd. | May 2018 - October 2018

- Responsible for managing production and assembly line for Mahindra tractor components.
- **Managed a team of 30 team members** to carry day-to-day activities.
- Plan & develop production schedules based on demand forecasts, ensuring optimal resource allocation and minimizing lead times.
- Analyzed production data to identify bottlenecks and recommend process improvements, leading to a **8% increase** in overall efficiency.
- Collaborated with cross-functional teams, including procurement and quality assurance, to ensure timely availability of materials and compliance with production standards.
- Monitored inventory levels and implemented **inventory control measures**, reducing excess stock by 12% while maintaining adequate supply for production needs.
- Participated in regular production meetings to discuss progress, challenges, and strategies for continuous improvement.
- Monitored inventory levels reducing excess stock by **15%**
- Utilized SAP ERP systems for data tracking and analysis, contributing to improved data accuracy.
